**The Sociological Perspective** Michael Leming, Raymond De Vries, Brendan Furnish, 2009-10-10 Sociology and Christianity Attempting to bring sociology and Christianity together is like trying to mix oil and water Christians seem to have as little regard for sociology as sociologists generally have for Christianity However in the middle of this conflict there is a group bold enough to call themselves Christian sociologists they are not willing to be stereotyped but are seriously committed to both realms This collection of essays covers topics that are typically addressed in introductory sociology courses Written from a Christian point of view these essays are also geared for a wide range of readers from undergraduates to professional sociologists who bring faith commitments to the sociological task The editors goal is to provide an understanding of societal forces that is informed by a Christian conscience Toward that end certain recurring themes are found in this book the need for informed Christian social action the conflict between the individual and the community the conflict between freedom and determinism and the significance of social sin

**Sweet Surrender** Dennis Hiebert, 2013-07-09 Every culture has a way of perceiving and practicing marriage Many contemporary Western Christians mistake what their culture prescribes regarding marriage with

what the Bible portrays and thereby take as biblical what is merely cultural. Uncritical conformity to cultural imperatives of marriage then becomes a Christian virtue and a sweet surrender. Few recognize much less question this confusion even when its consequences are unhealthy. In *Sweet Surrender* Dennis Hiebert challenges Christians to comprehend what is cultural in their view of marriage, hold as optional what is not explicitly required by the Bible, and live out their marriages within the transcendent grace of God. Gaining greater awareness can free marriages from the control of culture for something more simply but deeply Christian. Marriages benefit when they are released from cultural directives that are not biblical callings even if they choose to retain them as cultural practices. This book is for Christians who are ready to rethink their assumptions about marriage.

**Understanding Burnout Recovery Among Native-Born Korean Missionaries** Hannah Kyong-Jin Cho, 2020-01-29 In this timely book Cho provides mission scholars, sending churches, and mission agencies with an understanding of Korean missionaries' burnout recovery process. Her study of Korean missionary burnout recovery included thirty-nine research participants who had experienced burnout in missionary service and who subsequently recovered. Participants reported a variety of physical, emotional, and spiritual symptoms as well as relational difficulties experienced during burnout. Cho describes how their self-help approach, characterized by independent religious self-effort, brought only temporary relief. Through self-care, however, they experienced genuine recovery. Self-care that leads to lasting recovery is holistic and grace-based, characterized by a correct understanding of the roles of God and others in their lives and engagement in authentic community for interdependent care. This study also gives insightful recommendations to missionary member care systems, mission agencies, and other sending organizations in an Asian cultural context about how to care for Korean missionaries. It is also intended for counselors of home churches so that they can provide better member care for burned-out missionaries. Lastly, this study advances research into contextually appropriate paradigms and strategies helpful to cross-cultural missionaries in the area of both Korean missionaries and non-Western studies in missionary member care.

**The Routledge International Handbook of Sociology and Christianity** Dennis Hiebert, 2023-10-18 The Routledge International Handbook of Sociology and Christianity examines the intersection of the sociology of religion, a long-standing focus of sociology, and Christianity, the world's largest religion. An internationally representative and thematically comprehensive collection, it analyzes both the sociology of Christianity and Christian approaches to sociology with attention to the Roman Catholic, Orthodox, and Protestant branches of Christianity. An authoritative state-of-the-art review of current research, it is organized into five interconnected thematic sections considering the overlapping emergence of both the Christian religion and the social science, the conceptualization of and engagement with Christianity by sociological theory, the ways in which Christianity shapes and is shaped by various social institutions, the manner in which Christianity resists and promotes various forms of social change, and the identification, diagnosis, and correction of social problems by sociology and Christianity. This volume is an invaluable collection for scholars and advanced students with

special appeal for those working in the fields of sociology and social theory as well as religious studies and theology
