Procurement Analytics Christian Mandl, 2023-12-28. This unique textbook explicitly addresses the intersection of advanced analytics and procurement. It is motivated by one core question: How can firms generate economic value from procurement data? It demonstrates that procurement is one of the major functions within a firm where data analytics, artificial intelligence and operations research can successfully be leveraged to reduce cost and risk and to achieve resilience and sustainability goals. The book provides a methods based overview of data driven optimization of purchasing decisions. Besides presenting key concepts and applications, it particularly focuses on implementation so as to help future procurement managers and data scientists quickly evaluate the value generated by a given data driven solution. What sets this textbook apart is its combination of rigorous state of the art methodologies from academic research and first hand experience from various application oriented consulting projects in a range of industries. Though primarily intended for graduate students with a major in procurement and supply chain management, the book will also benefit purchasing managers with and without specific knowledge of advanced analytics techniques and data scientists with and without specific experience in procurement.

Asian Development Outlook (ADO) September 2024 Asian Development Bank, 2024-09-01. Growth in Asia and the Pacific remains robust amid strong domestic demand and continued recovery in exports. Technology exporters are particularly benefiting from higher global semiconductor sales driven by the artificial intelligence boom. Inflation in the region is expected to ease further supported by the lagged effects of previous monetary policy tightening and declining global food and energy prices. However, risks loom including potential increases in protectionism depending on the outcome of the United States presidential election, escalating geopolitical tensions, further weakness in the property market in the People's Republic of China and adverse weather and climatic conditions.
