 John X. Wang, 2013-01-24 Raising a child is challenging for many parents especially for a new immigrant family For those  
 parents they not only have to face the challenges of integrating themselves into a new environment but they also need to  
 handle the conflicts coming from two cultural backgrounds Like many Chinese Americans the authors inherited the  
 traditional Chinese culture Yet they also opened their minds and embraced their new culture Through the collisions of these  
 two cultures they developed a unique parenting strategy a combination of the best of both worlds to educate their children  
 This approach offered them a cutting edge in developing their children to be among the most competitive As they raised their  
 children they held parties to build their children's social groups used teamwork to create a harmonious family strengthening  
 the family bonds helped their children excel in academic competitions taught their children how to be rigorous and strive for  
 perfection inspired their children to explore innovative strategies to overcome obstacles developed their children's creativity  
 leadership and initiative encouraged their children to be involved in the community and gave their children freedom to  
 develop their individual personalities and discover their full potentials The authors believe that their story will be beneficial
