internationale Unternehmenstätigkeit hat insbesondere in den beiden letzten Dekaden des 20. Jahrhunderts eine enorme Bedeutung erlangt Zunehmend wird daher zum Teil auch mit Skepsis von der Globalisierung der Unternehmen oder gar der Wirtschaft gesprochen Evident und daher in der Literatur auch unstrittig ist dass die Führung eines international tätigen Unternehmens ungleich komplexer ist als die Führung eines nur national agierenden Unternehmens Die Ursachen hierfür liegen u.a. in der Vielgestaltigkeit der Umfeldentwicklungen und in einem meist gegebenen Spannungsfeld zwischen einer notwendigen Adaption an die jeweiligen Gegebenheiten in den Gastländern einerseits und einer möglichst weltweit standardisierten Vorgehensweise andererseits Mit der zunehmenden Internationalisierung von Unternehmen wird der von den Auslandseinheiten erwirtschaftete Beitrag zum Unternehmensergebnis immer wichtiger Zugleich ist eine veränderte qualitative Bedeutung der Auslandseinheiten zu konstatieren Den Auslandseinheiten werden in steigendem Maße auch strategisch bedeutsame Rollen übertragen die einen wesentlichen Einfluss auf die internationale Wettbewerbsfähigkeit des Gesamtunternehmens haben so insbesondere im Zusammenhang mit neueren Organisationsformen international tätiger Unternehmen wie der transnationalen Organisation The Dynamics of International Information Systems Hans

Lehmann,2010-03-17 The serious difficulties facing the developer of international information systems i.e. supporting business functions in different countries are widely known and their propensity to catastrophic failure has been acknowledged among practitioners for quite some time Despite the often pivotal importance that such systems generally have scholarly research in this field has been surprisingly sparse Information technology applications with a global range and reach are still largely unstudied and under explored Subsequently there is a distinct dearth of theoretical frameworks for dealing with them After a career in information technology line management I have been involved with multinational enterprises and their information systems for over a decade as a consultant working in Africa the UK continental Europe North America and Australasia It was on joining a university in the early nineties that I discovered the near vacuum in this field of research When I decided to make international information systems my field of research it became clear that fairly

fundamental work needed to be done I started the project described further on more than 10 years ago It turned out a fairly difficult necessarily broad based and eventually longitudinal research

Relationships between Foreign Subsidiaries Julia Maurer, 2011-09-05 Julia Maurer offers the first comprehensive conceptual and empirical approach to the relationships between foreign subsidiaries She develops a novel framework for the analysis of intersubsidiary relationships and applies it to the large scale plant engineering industry The empirical study confirms that an MNC's strategic orientation has a

considerable impact on its intersubsidiary relationships *International Human Resource Management* P. L. Rao, 2008

Managing people in a multinational context is the essence of international human resource management. This requires a broader perspective of what operating internationally involves and a clear recognition of the range of issues pertaining to all categories of staff operating in different functional tasks and managerial capacities. Books that are available on the subject are heavily loaded with cultural aspects rather than HRM processes. From teaching experience it is noticed that students who are familiar with domestic HRM books find it difficult to comprehend the subject of international HRM. Therefore the topics are arranged in the traditional HRM style with international implications at each stage. A separate chapter is allocated for Expatriation Repatriation. Similarly Management of People in international context in sixteen countries is discussed in a separate chapter. The text aims to cover in terms of industries to illustrate the activities and approaches of international organisations. Also the coverage of different cultures is not intended to include all the different and diverse cultures of the world simply to enable sufficient understanding of the cultural contexts from which many of the approaches are derived and to provide background on the appropriateness of different aspects of managing people in international organisations. A detailed treatment to empirical researches on cross cultural issues and cross cultural comparative management issues arising out of cross border mergers and acquisitions as well as human resource issues emerging out of global acquisitions of Arcelor and Corus by Indian companies and companies of Indian origin are also treated in the text **Success Factors of Regional Strategies for Multinational Corporations** Patrick Heinecke, 2011-01-15

This work examines the factors that drive the success of Multinational Corporations (MNCs) in their pursuit of regional strategies. The author develops a comprehensive regional success factor model by which the effects of regional management autonomy and regional product and service adaptation on the regional success of MNCs as well as the interaction effects of regional orientation and inter regional distance are investigated. The model is evaluated by means of the partial least squares (PLS) method on the basis of a survey based inquiry of the Fortune Global 500 firms with success indicator data for a period of nine years. The findings highlight the importance of considering the different degrees of contextual influence in the design of regional strategies where low degrees of regional management autonomy and high levels of regional product service adaptation are found to be appropriate for MNCs to be regionally successful *Starbucks International Strategy* Christine Nyandat, 2019-10-24

Academic Paper from the year 2019 in the subject Business economics. Offline Marketing and Online Marketing. University of Phoenix. Language: English. Abstract: The internationalization strategy of Starbucks involves using three approaches which are wholly owned subsidiaries, joint ventures and licensing. The licensing procedure is used when Starbucks wants quick expansion in a particular country. Starbucks uses a joint venture strategy in order to initiate its business practices to the local market. Wholly owned subsidiaries technique is used when Starbucks has the market knowledge of the market it is operating in. For example, the U.S. and Canada market. Starbucks has adopted a multi domestic company approach in its

internationalization strategy Multi domestic companies are characterized as having essential ties with local communities This MNC type is an independent sub unit from the headquarters and other subsidiaries Starbucks marketing and sales strategies are unique in each market it operates in Besides it embraces products as to local preferences and tastes by providing products in various markets Global Network Management Roland Böttcher,2013-07-02 Multinational corporations are forced by the increasing globalization to coordinate their various operations on the basis of an integrated network management Roland Böttcher examines the literature on global network approaches The importance of a pro active management of informal relationships across national borders is shown by his empirical study Verzeichnis Roland Böttcher belegt die herausragende Bedeutung eines proaktiven Managements informeller Beziehungen im internationalen Steuerungskontext *International Business* Janet Morrison,2017-09-16 Clear comprehensive and engaging this core textbook is authored by an established and respected expert in the field and approaches its subject from a truly global perspective offering in depth insights into current challenges facing international businesses The text has been carefully designed to encourage critical reflection and is packed with case studies and innovative learning features to emphasise the links between theory and the real world The book takes a multidisciplinary multi perspective approach placing International Business in its political social and ethical context as well as its economic one This textbook is essential reading for undergraduate postgraduate and MBA students studying international business for the first time
