The Basics of Financial Management Peter de Boer, Rien Brouwers, Wim Koetzier, 2019-11-11 This basic book is to familiarize students in international English language programmes with the basics in the fields of finance, financial management and accounting. No prior knowledge of business economics is required. This book is user friendly, accessible and yet comprehensive in its approach. It takes an in-depth integrated look at the principles of management accounting, financial accounting and finance. Examples and case studies from newspapers and professional journals encourage the practical application of the material. Study questions reinforce and test the student's understanding of the key concepts. A glossary of key terms is included at the end of each chapter. The book also contains multiple choice questions and other assignments designed to stimulate thinking about the topics that are discussed. Further self-test materials are available at www.basicsfinancialmanagement.noordhoff.nl including interactive multiple choice questions, exercises, cases and teachers' manual.

Fundamentals of Financial Management Helmut Pernsteiner, 2021-09-21 An overview of central topics of financial management. The book offers a clear and very compact presentation of the central issues of corporate finance and financial management for students at universities as well as for practitioners and entrepreneurs. Due to the clear language and the underpinning with many examples in the text as well as the frequent reference to data from business practice, the book is also very suitable for self-study. The focus is on Austrian and Central European conditions.
