Labelling the Economy Brice Laurent,Alexandre Mallard,2020-02-01 This collected volume analyses labelling as a political and economic operation It gathers contributions that focus on various domains including the agri food sector the construction sector eco labelling retail health public policies and the energy sector considering the use of labels for various objectives such as providing legal and technical data on consumption products certifying their quality and indicating the approval of professional or political authorities These practices are tied to both public and private interventions that make civic concerns visible and aim to govern them The book considers labelling the economy as an operation that introduces political questions into the economic realm while also importing economic modes of reasoning into governance interventions In doing so the book considers the sociotechnical apparatus on which any label relies as a nexus where economic and political considerations are brought together

The Changing Shape of Practice Michael U. Hensel,Fredrik Nilsson,2016-04-14 Architectural practices worldwide have to deal with increasingly complex design requirements How do practices acquire the ability to do so The Changing Shape of Practice provides a handbook of examples

for practices that wish to integrate more research into their work and a reference book for students that seek to prepare themselves for the changing shape of practice in architecture. It addresses the increasing integration of research undertaken in architectural practices of different sizes ranging from small to very large practices from the UK, USA, Europe and Asia. The book is organized according to the size of the practices, which is significant in that it addresses the different structures and resourcing requirements that are enabled by specific practice sizes as this determines and constrains the type, scope and modes of research available to a given practice. The practices covered include Woods Bagot, Perkins Will, White AECOM, UN Studio, Shop Architects, PLP Architecture, Kieran Timberlake, 3XN, ONL, AZPML, Thomas Herzog Partners, Herreros Arquitectos, Spacescape, OCEAN Design Research Association. By taking stock of the current shape of practice, the book provides essential information for professional architects who are integrating research into their practice.
