Beatles Yesterday Piano:

The Beatles and the Beatlesque: A Crossdisciplinary Analysis of Sound Production and Stylistic Impact Dario Martinelli, Paolo Bucciarelli, 2023-07-30 The Beatles and the Beatlesque address a paradox emanating from The Beatles music through a cross disciplinary hybrid of reflections drawing from both musical practice itself and academic research Indeed despite their extreme stylistic variety The Beatles songs seem to always bear a distinctive identity that emerges even more in similar works by other artists whether they are merely inspired derivative or explicitly paying homage The authors a musicologist and music producer emphasize the importance of record production in The Beatles music in a way that does justice not only to the final artifacts the released songs but also to the creative process itself i e the songs in the making Through an investigation into the work of George Martin and his team as well as The Beatles themselves this text sheds light on the role of the studio in shaping the group s eclectic but unique sound The chapters address what makes a song Beatlesque to what extent production choices are responsible for developing a style production being understood not as a mere set of technicalities but also in a more conceptual way as well as the aesthetics semiotics and philosophy that animated studio activity The outcome is a book that will appeal to both students and researchers as well as of course musicophiles of all kinds

Redeemed Kerr Barkley, 2012-12-14 The Quartus Family Saga is an unforgettable tale of a familys love and strife In this third book Redeemed the tormenting battle of the familys struggle to remain together bursts forth as new threats and old consequences bombard them Will past events like murder mayhem and kidnapping ever be put to rest Katie attempts to juggle fame fortune faith family fairytales frailty and the fear of the unknown and worse the known Lifes evil attacks can love redeem them Yesterday Piano Solo Sheet Music (Arranged by The Piano Guys) The Piano

The Beatles as Musicians Walter Everett,1999
Given the phenomenal fame and commercial success that the Beatles knew for the entire course of their familiar career their music per se has received surprisingly little detailed attention Not all of their cultural influence can be traced to tong hair and flashy clothing the Beatles had numerous fresh ideas about melody harmony counterpoint rhythm form colors and textures Or consider how much new ground was broken by their lyrics alone both the themes and imagery of the Beatles poetry are key parts of what made and still makes this group so important so popular and so imitated This book is a comprehensive chronological study of every aspect of the Fab Four s musical life including full examinations of composition performance practice recording and historical context during their transcendent late period 1966 1970 Rich authoritative interpretations are interwoven through a documentary study of many thousands of audio print and other sources

The Last Days of John Lennon James Patterson,2020-12-07
Incredibly tense and thriller like I totally recommend it LEE CHILD The greatest true crime story in music history A GLOBAL SUPERSTAR In the summer of 1980 ten years after the break up of the Beatles John Lennon signed with a new label ready to record new music for the first time in years Everyone was awestruck when Lennon dashed off Just Like Starting Over Lennon was back in peak form with his best songwriting since Imagine A DANGEROUSLY OBSESSED FAN In the years after Lennon left the Beatles becoming a solo artist and making a life with Yoko Ono in New York City Mark David Chapman had become

fixated on murdering his former hero He was convinced that Lennon had squandered his talent and betrayed his fans In December 1980 Chapman boarded a flight from Hawaii to New York with a handgun stowed in his luggage He was never going home again A MURDER THAT STUNNED THE WORLD Enriched by exclusive interviews with Lennon s friends and associates including Paul McCartney The Last Days of John Lennon is a true crime drama about two men who changed history One whose indelible songs enliven our world to this day and the other who ended the music with five pulls of a trigger

[Got a Revolution!](#) Jeff Tamarkin,2024-05-07 The most successful and influential rock band to emerge from San Francisco during the 1960s Jefferson Airplane created the sound of a generation

Their smash hits *Somebody to Love* and *White Rabbit* virtually invented the era's signature pulsating psychedelic music and during one of the most tumultuous times in American history came to personify the decade's radical counterculture. In this groundbreaking biography of the band, veteran music writer and historian Jeff Tamarkin produces a portrait of the band like none that has come before it. Having worked closely with Jefferson Airplane for more than a decade, Tamarkin had unprecedented access to the band members, their families, friends, lovers, crew members, fellow musicians, cultural luminaries, even the highest ranking politicians of the time. More than just a definitive history, *Got a Revolution* is a rock legend unto itself. Jann Wenner, editor in chief and publisher of *Rolling Stone*, wrote: "The classic Jefferson Airplane lineup were both architects and messengers of a psychedelic age, a liberation of mind and body that profoundly changed American art, politics, and spirituality. It was a renaissance that could only have been born in San Francisco, and the Airplane more than any other band in town spread the good news nationwide."

[Listen to Pop!](#) James E. Perone, 2018-09-01. *Listen to Pop* discusses the evolution of pop music in America from the 1950s to the present, diving into its impact on American culture, particularly through its association with television and its enduring legacy. *Listen to Pop: Exploring a Musical Genre* provides readers with an overview and a history of the pop music genre. The bulk of the book is devoted to analysis of 50 must-hear musical examples, which include artists, songs, and albums. Additionally, the book contains chapters that analyze the impact of pop music on American popular culture and the legacy of pop music, including how the music is used today in film and television soundtracks and in television commercials. The book deals with all of the various subgenres of pop music from the 1950s to the present. The selection of material discussed reflects the artists, songs, and albums topping the pop music charts of the period, and while the volume examines these items individually, it also discusses how our definition of pop music has evolved over the decades. This combination of detailed examination of specific songs, albums, and artists, and discussion of background, legacy, and impact distinguishes it from other books on the subject and makes it a vital reference and interesting read for all readers and music aficionados.
