Under Construction Marie-Anne Kohl, 2021-01-14 While currently identitarian ideologies and essentialist notions of identity that tend to simplify and reduce life experience to simple factors are globally regaining massive attention it becomes inevitable to recollect the thorough discussions of identity concepts of the past three decades. It also calls for an ever keener awareness of and capacity to deal with the complexity and diversity of the world we live in. Artists play a major role in the potential reflection and transformation of perceptions and conceptions of the world: musicians, dancers, choreographers, spoken word artists, performance artists, actors, also fine art, installation, media artists or photographers alike. Performing critical identity points to performative practices of artists that bring to the fore a critical self awareness and self positioning concerning identification and belonging. Social identities such as gender, sexuality, race, class, disability, age or non religiosity are closely linked to the historical, social, regional and political dimensions of their formation. From this perspective identities are hardly one dimensional but complex and intersectional and are rather to be thought of as a process of identification and belonging than as a consistent essence. As different, maybe contradictory among themselves as they are the performative works of artists such as Lerato Shadi Liad Hussein Kantorowicz, Nora Chipaumire, Shu Lea Cheang, Zanele Muholi, Ohno Kazuo, Anohni, Hegarty, Neo Hülcker, We're Muslim, Don't Panic or of theatre collectives such as RambaZamba and Thikwa Theater in Berlin or Theater Hora in Zurich to name but a very small, quite random selection of artists share a critical approach towards hegemonic norms or stereotyping of identities and their representations and empower diversity. This edition puts a specific focus on the performativity of the aesthetic practices and wants to explore different artistic approaches, strategies, tactics and

perspectives of artists when they address identity issues when they target power relations and structures of oppression and inequality when they empower concepts of diversity This Call for Papers invites academic as well as artistic contributions that delve into case studies of artists performing critical identity or into more general theoretical reflections on the subject Contributions can relate to but are not limited to following topics intersectionality subversion self empowerment resistance subalternity exploitation manipulation anti feminism appropriation cultural globalisation transculturality hybrid identities collectives body stage audience de construction of the difference of aesthetic genres and of high popular culture capitalism colonialism re production of exclusion Dr Marie Anne Kohl Editor *An Introduction to Hindustani Classical Music: A Beginners Guide* Vijay Prakash Singha,2018-05-31 An Introduction to Hindustani Classical Music A Guidebook for Beginners is Vijay Singha s comprehensive guide to savour and appreciate classical music Written in a simple and easy to comprehend style this book delves into the understanding of raga sangeet semi classical and fusion music raga sangeet in Hindi films as well as the future of classical music in India **Music and Transcendence** Ferdia J. Stone-Davis,2016-03-03 Music and Transcendence explores the ways in which music relates to transcendence by bringing together the disciplines of musicology philosophy and theology thereby uncovering congruencies between them that have often been obscured Music has the capacity to take one outside of oneself and place one in relation to that which is other This other can be conceived in an absolute sense insofar as music can be thought to place the self in relation to a divine other beyond the human frame of existence However the other can equally well be conceived in an immanent or secular sense as music is a human activity that relates to other cultural practices Music here places the self in relation to other people and to the world more generally shaping how the world is understood without any reference to a God or gods The book examines how music has not only played a significant role in many philosophical and theological accounts of the nature of existence and the self but also provides a valuable resource for the creation of meaning on a day to day basis *First Impressions: Music and Study Guides, Volume 1* M'lou Dietzer, An exciting and innovative intermediate piano method written to fill the need of students who have completed a beginning piano method and or are ready to study the classics Each collection comes with a study guide that emphasize analysis and enable students to understand the elements of music theory in each piece thus facilitating the learning and memorizing process The music is arranged in order of musical period and is in their original form
