NGO Field Workers in Bangladesh Mokbul Morshed Ahmad, 2017-11-22 This title was first published in 2002 NGOs are receiving increasing international attention and resources from policy makers donors academics and others The New Policy Agenda accepts NGOs as agents for social welfare alongside the state and as fostering democracy in the Developing World Astonishingly however there have been very few studies and no books on NGO field workers This study of field workers in Bangladesh provides excellent insights into this neglected field Bangladesh is an excellent example as since independence in 1971 it has been a donor dependent country both financially and functionally and since the 1980s has concentrated this funding towards NGOs rather than to the state The book shows how field workers are seen simply as implementers carrying out directions given by their superiors and never being consulted on how best to achieve their goals The book examines four types of NGOs international national regional and small local in a number of sample locations It compares the benefits and facilities provided by each NGO to their field workers then explores the socio economic background of both field workers and their mid level managers and examines the interactions between these two groups and between field workers and their clients It also looks at the field workers personal and professional lives and problems and details their opinions on their NGO s activities and policies and on development The findings show that NGO managers and donors lack knowledge of the realities in the field and do not realise how certain policies such as their positive discrimination of women can have negative results It proposes that NGO field workers should be more active in policy making and puts forward several recommendations for changes in the management and structure of future NGOs [The complete travel guide for Bangladesh](#) , At YouGuide we are dedicated to bringing you the finest travel guides on the market meticulously crafted for every type of traveler Our guides serve as your ultimate companions helping you make the most of your journeys around the world Our team of dedicated experts works tirelessly to create comprehensive up to date and captivating travel guides Each guide is a treasure trove of essential information insider insights and captivating visuals We go beyond the tourist trail uncovering hidden treasures and sharing local wisdom that transforms your travels into extraordinary adventures Countries change and so do our guides We take pride in delivering the most current information ensuring your journey is a success Whether you re an intrepid solo traveler an adventurous couple or a family eager for new horizons our guides are your trusted companions to every country For more travel guides and information please visit www.youguide.com *Digital Marketing Strategies for Bangladeshi Market* Motaher Hossain, 2023-08-01 In the rapidly evolving landscape of modern business digital marketing has become an indispensable tool for connecting with consumers and driving growth In the heart of South Asia the vibrant and dynamic Bangladeshi market offers a plethora of opportunities for businesses and marketers willing to embrace the power of digital channels Enter *Digital Marketing Strategies for Bangladeshi Market* an insightful and comprehensive guide meticulously crafted by Motaher Hossain This book takes readers on an illuminating journey through

Identity and Experience at the India-Bangladesh Border Debdatta Chowdhury, 2018-06-28 The effects of the partition of India in 1947 have been more far-reaching and complex than the existing partition narratives of violence and separation reveal. The immediacy of the movement of refugees between India and the newly formed state of Pakistan overshadowed the actual

effect of the drawing of the border between the two states The book is an empirical study of border narratives across the India Bangladesh border specifically the West Bengal part of India s border with Bangladesh It tries to move away from the perpetrator state victim civilian framework usually used in the studies of marginal people and looks at the kind of agencies that the border people avail themselves of Instead of looking at the border as the periphery the book looks at it as the line of convergence and negotiations the centre of the people who survive it every day It shows that various social political and economic identities converge at the borderland and is modified in unique ways by the spatial specificity of the border thus forming a border identity and a border consciousness Common sense of the civilians and the state machinery embodied in the border guards collide cooperate and effect each other at the borderlands to form this unique spatial consciousness It is the everyday survival strategies of the border people which aptly reflects this consciousness rather than any universal border theory or state centric discourses about the borders A bottom up approach is of utmost importance in order to understand how a spatially unique area binds diverse other identities into a larger spatial identity of a border people The book s relevance lies in its attempt to explore such everyday narratives across the Bengal border while avoiding any major theorising project so as not to choke the potential of such experience centred insights into the lives of a unique community of people In that it contributes towards a study of borders globally providing potential approaches to understand border people worldwide Based on detailed field research this book brings a fresh approach to the study of this border It will be of interest to researchers in the field of South Asian studies citizenship development governance and border studies

Social Dimensions of Economic Reforms in Bangladesh International Labour Organisation, Asian Regional Team for Employment Promotion, World Employment Programme, 1993

Economic Diplomacy Mohammad Tarikul Islam, Md Belal Hossen, 2025-02-25 Economic diplomacy has become more notable in recent years helping developing nations like Bangladesh maximise their national interests. Bangladesh is rapidly transitioning from a low income to a middle income nation with the goal of reaching developed status by 2041. Bangladesh engages in international trade with almost every country. Nevertheless, a considerable amount of global trade demonstrates a strong reliance on specific nations. Decreasing trade dependence is required to transition from an emerging economy to a high income financially independent nation. Having gained its independence more than 50 years ago, Bangladesh has been slow to form bilateral partnerships and expand its economic activity. Consequently, Bangladesh remains dependent on China and India for imports while focusing on America and Europe for exports. As a result of this economic interdependence, the dominant global powers enjoy the potential to pursue a proactive stance in the domestic affairs of Bangladesh. By taking steps to decrease its dependency on conventional trading partners, Bangladesh can increase the emphasis on non-traditional trading partners like Latin American and African countries. The formation and growth of a comprehensive economic diplomacy framework is required in this context. The aforementioned reasons generated the idea for a research investigation of Bangladesh's economic diplomacy with Latin America. Argentina now wishes to reopen their embassy in Bangladesh, spurred on by the extraordinary support the people of Bangladesh have shown for their

country during the World Cup In an effort to establish a Mexican embassy in Dhaka Mexican Foreign Minister Marcelo Ebrard Casaubon is expected to visit the city in March as part of a high level group This study shows that geographical distance and cultural differences do not have a substantial impact on building a market position in the Latin American region Promoting Bangladesh through public diplomacy in the region can assist the country in increasing its portion of international trade However this requires a suitable framework for Economic Diplomacy The book examines prospective economic diplomacy methods for Bangladesh This book offers fresh perspectives on various facets of Bangladesh s expanding trade relations with Latin America
