Feminist, Queer, Crip Alison Kafer, 2013-05-16 A critical analysis of how social and academic discourses treat disability and how they affect disabled lives This book breathes the poetics of disability life a life that is consistently under threat in a way that is complex clear highly accessible and grounded in the politics of everyday life For this reason it may not be just that this book is highly teachable which it is this is a book that must be included in any disability studies queer theory and feminist theory curricula Canadian Journal of Disability Studies In Feminist Queer Crip Alison Kafer imagines a different future for disability and disabled bodies Challenging the ways in which ideas about the future and time have been deployed in the service of compulsory able bodiedness and able mindedness Kafer rejects the idea of disability as a pre determined limit She juxtaposes theories movements and identities such as environmental justice reproductive justice cyborg theory transgender politics and disability that are typically discussed in isolation and envisions new possibilities for crip futures and feminist queer crip alliances This bold book goes against the grain of normalization and promotes a political framework for a more just world Feminist Queer Crip makes significant contributions to our understanding of how disability works in the world contributions that no other academic book in the recently emergent field of interdisciplinary disability studies has done so thoroughly Journal of Literary and Cultural Disability Studies Ambitious doggedly interdisciplinary and accessibly written

It retains political sharpness while remaining determinedly optimistic about queer crip futures QED Kafer interrogates the ableist assumptions that pervade social and academic discourses and offers a critique of how these assumptions are put into practice in ways that directly affect the lives of people with disabilities This is an original and comprehensive work that brings together disability studies feminist theory and queer theory Licia Carlson Providence College

Going Stealth Toby Beauchamp, 2019-01-17 In *Going Stealth* Toby Beauchamp demonstrates how the enforcement of gender conformity is linked to state surveillance practices that identify threats based on racial gender national and ableist categories of difference Positioning surveillance as central to our understanding of transgender politics Beauchamp examines a range of issues from bathroom bills and TSA screening practices to Chelsea Manning's trial to show how security practices extend into the everyday aspects of our gendered lives He brings the fields of disability science and technology and surveillance studies into conversation with transgender studies to show how the scrutinizing of gender nonconformity is motivated less by explicit transgender identities than by the perceived threat that gender nonconformity poses to the U S racial and security state Beauchamp uses instances of gender surveillance to demonstrate how disciplinary power attempts to produce conformist citizens and regulate difference through discourses of security At the same time he contends that greater visibility and recognition for gender nonconformity while sometimes beneficial might actually enable the surveillance state to more effectively track measure and control trans bodies and identities

Blogging in Beirut Sarah Jurkiewicz, 2018-01-15 Unlike previous media analytic research Sarah Jurkiewicz's anthropological study understands blogging as a social field and a domain of practice This approach underlines the significance of blogging in practitioners' daily lives and for their self understanding In this context the notion of publicness enables a consideration of publics not as static spheres that actors merely enter but as produced and constituted by social practices The vibrant media landscape of Beirut serves as a selection of samples for an ethnographic exploration of blogging
