Basic Commutative Algebra By Balwant Singh :

Basic Commutative Algebra Balwant Singh, 2011 This textbook set for a one or two semester course in commutative algebra provides an introduction to commutative algebra at the postgraduate and research levels The main prerequisites are familiarity with groups rings and fields Proofs are self contained The book will be useful to beginners and experienced researchers alike The material is so arranged that the beginner can learn through self study or by attending a course For the experienced researcher the book may serve to present new perspectives on some well known results or as a reference

Commutative Algebra and Algebraic Geometry Sudhir Ghorpade, 2005 The first Joint AMS India Mathematics Meeting was held in Bangalore India This book presents articles written by speakers from a special session on commutative algebra and algebraic geometry Included are contributions from some leading researchers around the world in this subject area The volume contains new and original research papers and survey articles suitable for graduate students and researchers interested in commutative algebra and algebraic geometry *Commutative Algebra - Proceedings Of The Workshop* Giuseppe Valla, Ngo Viet Trung, Aron Simis, 1994-08-19 In a relatively short time commutative algebra has grown in many directions Over a period of nearly fifty years starting from the so called homological period till today the area has developed into a rich laboratory of methods structures and problem solving tools One could say a distinct modern trend of commutative algebra is a strong interaction with various aspects of Combinatorics and Computer Algebra This has resulted in a new sense of measuring for old assumptions and a better understanding of old results At the same time Invariant Theory and Algebraic Geometry remain constituents of an everlasting classical source responsible for important themes that have been developed in Commutative Algebra such as deformation linkage algebraic tori and determinantal rings etc This volume of proceedings is well entrenched on the lines of development outlined above As such it aims to keep researchers and mathematicians well informed of the developments in the field **Homological Methods in Commutative Algebra** S.

Raghavan, Balwant Singh, R. Sridharan, 1975 **Commutative Algebra, Algebraic Geometry, and Computational Methods** David Eisenbud, 1999-07 This volume contains papers presented at the International Conference on Commutative Algebra Algebraic geometry and Computational methods held in Hanoi in 1996 as well as papers written subsequently It features both expository articles as well as research papers on a range of currently active areas in commutative algebra algebraic geometry particularly surveys on intersection theory and combinatorics In addition a special feature is a section on the life and work of Wolfgang Vogel who was an organiser of the conference Algebraic Geometry and its Applications Chandrajit L. Bajaj, 2012-12-06 Algebraic Geometry and its Applications will be of interest not only to mathematicians but also to computer scientists working on visualization and related topics The book is based on 32 invited papers presented at a conference in honor of Shreeram Abhyankar's 60th birthday which was held in June 1990 at Purdue University and attended by many renowned mathematicians field medalists computer scientists and engineers The keynote paper is by G Birkhoff
