Benjamin Franklin American Walter Isaacson:

Bundesrepublik Amerika / A new American Confederation Johannes Burkhardt, Jürgen Overhoff, Volker Depkat, Ute Ursula Burkhardt, 2023-12-04 Der Band beschreibt in einer thesenstarken Grundsatzbetrachtung und in einer Reihe von erläuterten Essays die mit Belegen und Fallbeispielen arbeiten den Status des frühneuzeitlichen deutschen Reiches als Referenzsystem für die Föderalismusdebatten in den entstehenden USA Jürgen Overhoff Volker Depkat und Johannes Burkhardt analysieren Entwicklungsprozesse im britisch kolonialen und revolutionären Amerika in ihren imperialen und transatlantischen Kontexten von den Anfängen im 17. Jahrhundert über die Unabhängigkeitserklärung bis zur Ratifizierung der Verfassung der USA im Jahr 1788 Auf diese Weise wird deutlich dass die revolutionär gegründeten USA nicht ohne Rekurs auf europäische Verfassungsordnungen auskamen Im Rahmen eines transatlantischen Verfassungsdiskurses an dem William Penn Baron de Montesquieu Benjamin Franklin Johann Stephan Pütter John Adams Thomas Jefferson und James Madison teilnahmen diente die Organisation des als confederate republic begriffenen deutschen Reiches der Klärung eigener

Benjamin Franklin's Intellectual World Paul E. Kerry, Matthew S. Holland, 2012-12-27 This volume attempts to throw fresh light on two areas of Benjamin Franklin's intellectual world namely his self-fashioning and his political thought It is an odd thing that for all of Franklin's voluminous writings a fantastically well documented correspondence over many years scientific treatises that made his name amongst the brightest minds of Europe newspaper articles satires and of course his signature on the Declaration of Independence and the U S Constitution and yet scholars debate how to get at his political thought indeed if he had any political philosophy at all It could be argued that he is perhaps the American Founder most closely associated with the Enlightenment Similarly for a man who left so much evidence about his life as a printer bookseller postmaster inventor diplomat politician scientist among other professions one who wrote an autobiography that has become a piece of American national literature and indeed a contribution to world culture the question of who Ben Franklin continues to engage scholars and those who read about his life His identity seems so stable that we associate it with certain virtues that apply to the way we live our lives time management for example The image of the stable figure of Franklin is applied to create a sense of trust in everything from financial institutions to plumbers His constant drive to improve and fashion himself reveal however a man whose identity was not static and fixed but was focused on growth on bettering his understanding of himself and the world he lived in and attempted to influence and improve

Benjamin Franklin Walter Isaacson, 2003-07-31 In this authoritative and engrossing full scale biography Walter Isaacson bestselling author of *Einstein* and *Steve Jobs* shows how the most fascinating of America's founders helped define our national character Benjamin Franklin is the founding father who winks at us the one who seems made of flesh rather than marble In a sweeping narrative that follows Franklin's life from Boston to Philadelphia to London and Paris and back Walter Isaacson chronicles the adventures of the runaway apprentice who became over the course of his eighty four year life

America's best writer inventor media baron scientist diplomat and business strategist as well as one of its most practical and ingenious political leaders He explores the wit behind Poor Richard's Almanac and the wisdom behind the Declaration of Independence the new nation's alliance with France the treaty that ended the Revolution and the compromises that created a near perfect Constitution In this colorful and intimate narrative Isaacson provides the full sweep of Franklin's amazing life showing how he helped to forge the American national identity and why he has a particular resonance in the twenty first century

Benjamin Franklin and the Politics of Improvement Alan Craig Houston, 2008-11-18 This fascinating book explores Benjamin Franklin's social and political thought Although Franklin is often considered the first American his intellectual world was cosmopolitan An active participant in eighteenth century Atlantic debates over the modern commercial republic Franklin combined abstract analyses with practical proposals Houston treats Franklin as shrewd creative and engaged a lively thinker who joined both learned controversies and political conflicts at home and abroad Drawing on meticulous archival research Houston examines such tantalizing themes as trade and commerce voluntary associations and civic militias population growth and immigration policy political union and electoral institutions freedom and slavery In each case he shows how Franklin urged the improvement of self and society Engagingly written and richly illustrated this book provides a compelling portrait of Franklin a fresh perspective on American identity and a vital account of what it means to be practical

Ben Franklin : America's Original Entrepreneur Blaine McCormick, 2005-10-15 You are holding the only modern adaptation of Benjamin Franklin's 18th century autobiography It is at its heart one of the greatest business stories ever told The most versatile Founding Father was a husband a father a writer an inventor a statesman a fundraiser and a military leader But in his mind he was first and foremost a businessman Franklin's captivating adventures include his almost single handed responsibility for establishing the first media empire the first public library the first fire brigade the University of Pennsylvania the first book club and the first franchise all of which are detailed within these pages with Franklin's characteristic mix of humility and pride Franklin chronicles his own story from his early days growing up in colonial Boston to his retirement from printing and growing involvement in national politics It was during these years that he honed his management and leadership skills acquired a fervent distaste for tyranny of all types embraced a strong set of morals and developed an uncompromising work ethic From the moment he fled his tyrannical master and set himself up as a printer in Philadelphia all who came into contact with Franklin recognized his destiny His wisdom transcends the ages and his life lessons are insights as compelling today as ever

Benjamin Franklin: The Inventive Founding Father L.L. Owens, 2007-08-01 Discusses the life and accomplishments of the eighteenth century American printer scientist statesman and inventor

America's Black Founders Nancy I. Sanders, 2010 Celebrates the lives and contributions of African American leaders who played significant roles in colonial and Revolutionary War era America and includes over twenty related activities

Die Macht der Schrift Martin Puchner, 2019-04-01 Die Geschichte unserer Zivilisationen in den vergangenen

vier Jahrtausenden ist eine Geschichte des geschriebenen Wortes Die Verschriftlichung von Gründungsmythen Erzählungen über Recht und Unrecht hat Weltreiche mehr verändert als Heerscharen von Soldaten Martin Puchner zeigt in seinem beeindruckenden Werk wie sechzehn Texte der Weltgeschichte von Homers Ilias bis zu Harry Potter unseren Blick auf die Welt und unser Handeln darin geprägt haben Und dass wir auch heute noch mit Fug und Recht behaupten können in einer geschriebenen Welt zu leben die ohne die Errungenschaften eines Alphabets ohne die Kunstfertigkeit des Schreibens ohne die Fantasie von Autoren ohne das Wissen um den Papierdruck eine vollkommen andere wäre Schließlich vollzieht Puchner auch die Umbruchphase der Digitalisierung nach und fragt was sie für unsere Gegenwart und Zukunft bedeutet

Transnational Nationalism John Dolis, 2015-05-12 This book examines American literary texts whose portrayal of American identity involves the incorporation of a foreign body as the precondition for a comprehensive understanding of itself This nexus of disconcerting textual dynamics arises precisely insofar as both citizen subject and national identity depend upon a certain alterity an other which constitutes the secondary term of a binary structure American identity thus finds itself ironically confused and interwoven with another culture or another nation double crossed in the enactment of itself Individual chapters are devoted to Benjamin Franklin Washington Irving Frederick Douglass Louisa May Alcott Nathaniel Hawthorne and Mark Twain

Revolutionary Medicine Jeanne E. Abrams, 2015-09-04 Before the advent of modern antibiotics one's life could be abruptly shattered by contagion and death and debility from infectious diseases and epidemics was commonplace for early Americans regardless of social status Concerns over health affected the founding fathers and their families as it did slaves merchants immigrants and everyone else in North America As both victims of illness and national leaders the founders occupied a unique position regarding the development of public health in America This work refocuses the study of the lives of George and Martha Washington Benjamin Franklin Thomas Jefferson John and Abigail Adams and James and Dolley Madison away from the usual lens of politics to the unique perspective of sickness health and medicine in their era For the founders republican ideals fostered a reciprocal connection between individual health and the health of the nation Studying the encounters of these American founders with illness and disease as well as their viewpoints about good health not only provides us with insight into their lives but also opens a first hand window into the practice of medicine in the eighteenth century Perhaps most importantly today's American public health initiatives have their roots in the work of America's founders for they recognized early on that government had compelling reasons to shoulder some new responsibilities with respect to ensuring the health and well being of its citizenry The state of medicine and public healthcare today is still a work in progress but these founders played a significant role in beginning the conversation that shaped the contours of its development Publisher information

Mental Maps of the Founders Michael Barone, 2023-11-28 Michael Barone is the perfect person to write this important and thought provoking book Andrew Roberts author of Churchill Walking with Destiny The Founding Fathers were men of high intellect steely integrity and enormous ambition but they were not all of

one mind They came from particular places in already diverse colonies and they all sought their futures in different horizons Without reliable maps of even nearby terrain they contributed in different and sometimes conflicting ways to the expansion of a young republic on the seaboard edge of a continent of whose vast expanses they were largely ignorant Mental Maps of the Founders explores the geographic orientation the mental maps of six of the Founders Three were Virginians who vied to expand their new nation toward different points of the compass One a refugee from Puritan Boston to more tolerant Philadelphia built a commercial and journalistic empire spanning seaboard colonies and the West Indies Two came from buzzing commercial entrepôts of glaringly different character the sugar and slave island of St Croix in the Caribbean and the stern Swiss Calvinistic city state of Geneva These disparate origins informed their foundation and management of a financial and taxation system that enabled the new republic's commerce to thrive Inspired by the many wonderful books about the Founding Fathers the journalist map lover and longtime co author of The Almanac of American Politics Michael Barone set out to explore the geographical orientation the mental maps of the Founders In a series of reflective essays Barone shows how the Founders mental maps helped develop the contours and character of a young republic whose geographical features and political boundaries were yet unknown

Our Founders' Warning Strobe Talbott, 2020-08-25 The presidency of Donald Trump has wreaked havoc on American democracy divided American society unsettled foreign allies and partners and heartened dictators around the world The damage at home and abroad is likely to cast a long shadow into the future Trump has also defiled the past most notably America's origin and its soul The Founders counted on their successors to protect and perfect their prodigy with its fundamental ideals laws and procedures They also aspired to a code of personal morals and character Paramount were honesty rationality empathy and responsibility to the citizenry These liberal revolutionary criteria for public service and leadership derived from the European Enlightenment The spirit of that movement and its American version is alien to Trump and many of his predecessors would find him abhorrent and dangerous Strobe Talbott tells that story from the vantage of the Age of Trump bringing out the stark contrast between the 45th president and the first six Washington Adams Jefferson Madison Monroe John Quincy Adams who were children of the Age of Reason Amid myriad books on the Trump phenomenon in these dark days Talbott shines a light on our history in hope that the Founders legacy now in peril will be vindicated

Unrespectable Radicals? Paul A. Pickering, 2016-02-24 In 1988 Iain McCalman's seminal work Radical Underworld unravelled the complex and clandestine revolutionary networks of democrats that operated in London between 1790 and the beginnings of Chartism to reveal an urban underworld of prophets infidels pornographers and rogue preachers where powerful satirical and subversive subcultures were developed This present volume reflects and builds upon the diversity of McCalman's discoveries to present fresh insights into the culture and operation of popular politics in the age of reform It is a coherent and integrated treatment of the subject that offers a window into this unrespectable underworld and questions whether it was a blackguard subculture or a more complex and rich counter culture with powerful

literary legal and political implications This book brings together an international team of experienced scholars to explore the concepts and subjects pioneered by McCalman The volume presents a focused and coherent review of popular politics from the meeting rooms of a reform society and the theatre stage to the forum of the courtroom and the depths of prison **Our American Story** Joshua A. Claybourn, 2019-06 Over the past few decades the complicated divides of geography class religion and race created deep fractures in the United States each side fighting to advance its own mythology and political interests We lack a central story a common ground we can celebrate and enrich with deeper meaning Unable to agree on first principles we cannot agree on what it means to be American As we dismantle or disregard symbols and themes that previously united us can we replace them with stories and rites that unite our tribes and maintain meaning in our American identity Against this backdrop *Our American Story* features leading thinkers from across the political spectrum Jim Banks Pulitzer Prize winner David W Blight Spencer P Boyer Eleanor Clift John C Danforth Cody Delistraty Richard A Epstein Nikolas Gvosdev Cherie Harder Jason Kuznicki Gerard N Magliocca Markos Moulitsas Ilya Somin Cass R Sunstein Alan Taylor James V Wertsch Gordon S Wood and Ali Wyne Each draws on expertise within their respective fields of history law politics and public policy to contribute a unique perspective about the American story This collection explores whether a unifying story can be achieved and if so what that story could be *Sex and the Founding Fathers* Thomas A.

Foster, 2014-01-17 Biographers journalists and satirists have long used the subject of sex to define the masculine character and political authority of America's Founding Fathers Tracing these commentaries on the Revolutionary Era's major political figures in *Sex and the Founding Fathers* Thomas Foster shows how continual attempts to reveal the true character of these men instead exposes much more about Americans and American culture than about the Founders themselves *Sex and the Founding Fathers* examines the remarkable and varied assessments of the intimate lives of George Washington Thomas Jefferson John Adams Benjamin Franklin Alexander Hamilton and Gouverneur Morris from their own time to ours Interpretations can change radically consider how Jefferson has been variously idealized as a chaste widower condemned as a child molester and recently celebrated as a multicultural hero Foster considers the public and private images of these generally romanticized leaders to show how each generation uses them to reshape and reinforce American civic and national identity **Neither Snow Nor Rain** Devin Leonard, 2016-05-03 The book makes you care what happens to its main

protagonist the U S Postal Service itself And as such it leaves you at the end in suspense USA Today Founded by Benjamin Franklin the United States Postal Service was the information network that bound far flung Americans together and yet it is slowly vanishing Critics say it is slow and archaic Mail volume is down The workforce is shrinking Post offices are closing In *Neither Snow Nor Rain* journalist Devin Leonard tackles the fascinating centuries long history of the USPS from the first letter carriers through Franklin's days when postmasters worked out of their homes and post roads cut new paths through the wilderness Under Andrew Jackson the post office was molded into a vast patronage machine and by the 1870s over

seventy percent of federal employees were postal workers As the country boomed USPS aggressively developed new technology from mobile post offices on railroads and airmail service to mechanical sorting machines and optical character readers Neither Snow Nor Rain is a rich multifaceted history full of remarkable characters from the stamp collecting FDR to the revolutionaries who challenged USPS s monopoly on mail to the renegade union members who brought the system and the country to a halt in the 1970s Delectably readable Leonard s account offers surprises on almost every other page and delivers both the triumphs and travails with clarity wit and heart Chicago Tribune

The Howe Dynasty: The Untold Story of a Military Family and the Women Behind Britain's Wars for America Julie Flavell, 2021-07-20 Finalist George Washington Book Prize New York Times Book Review Editors Choice Finally revealing the family s indefatigable women among its legendary military figures The Howe Dynasty recasts the British side of the American Revolution In December 1774 Benjamin Franklin met Caroline Howe the sister of British General Sir William Howe and Richard Admiral Lord Howe in a London drawing room for half a dozen Games of Chess But as historian Julie Flavell reveals these meetings were about much more than board games they were cover for a last ditch attempt to forestall the outbreak of the American War of Independence Aware that the distinguished Howe family both the men and the women have been known solely for the military exploits of the brothers Flavell investigated the letters of Caroline Howe which have been blatantly overlooked since the nineteenth century Using revelatory documents and this correspondence The Howe Dynasty provides a groundbreaking reinterpretation of one of England s most famous military families across four wars Contemporaries considered the Howes impenetrable and intensely private or as Horace Walpole called them brave and silent Flavell traces their roots to modest beginnings at Langar Hall in rural Nottinghamshire and highlights the Georgian phenomenon of the politically involved aristocratic woman In fact the early careers of the brothers George Richard and William can be credited not to the maneuverings of their father Scrope Lord Howe but to those of their aunt the savvy Mary Herbert Countess Pembroke When eldest sister Caroline came of age during the reign of King George III she too used her intimacy with the royal inner circle to promote her brothers moving smoothly between a straitlaced court and an increasingly scandalous London high life With genuine suspense Flavell skillfully recounts the most notable episodes of the brothers military campaigns how Richard commanding the HMS Dunkirk in 1755 fired the first shot signaling the beginning of the Seven Years War at sea how George won the devotion of the American fighters he commanded at Fort Ticonderoga just three years later and how youngest brother General William Howe his sympathies torn nonetheless commanded his troops to a bitter Pyrrhic victory in the Battle of Bunker Hill only to be vilified for his failure as British commander in chief to subdue Washington s Continental Army Britain s desperate battles to guard its most vaunted colonial possession are here told in tandem with London parlor room intrigues where Caroline bravely fought to protect the Howe reputation in a gossipy aristocratic milieu A riveting narrative and long overdue reassessment of the entire family The Howe Dynasty forces us to reimagine the Revolutionary War in ways

that would have been previously inconceivable *A Biographical Encyclopedia of Scientists and Inventors in American Film and TV since 1930* A. Bowdoin Van Riper, 2011-09-15 Films that dramatize historical events and the lives of historical figures whether they are intended to educate or to entertain play a significant role in shaping the public's understanding of the past In *A Biographical Encyclopedia of Scientists and Inventors in American Film and TV since 1930* A. Bowdoin Van Riper focuses on the dramatized portrayals of a particular group of historical figures: scientists, engineers, and inventors that have appeared on American film and television screens This volume analyzes individual portrayals, the public images of particular scientists and inventors, and the ideas about science and technology that collectively they represent In this first in-depth study of how historic scientists and inventors have been portrayed on screen Van Riper catalogs nearly 300 separate performances and includes essays on the screen images of more than 80 historic scientists, inventors, engineers, and medical researchers The individuals covered include Isaac Newton, Benjamin Franklin, Thomas Edison, Albert Einstein, Marie Curie, Dian Fossey, and Bill Gates Arranged chronologically by the subject's date of birth, entries for each individual explain their major contributions to science and technology, analyze the ways in which they've been portrayed in film and on television, and conclude with a complete list of screen portrayals and a discussion of suggestions for further reading *A Biographical Encyclopedia of Scientists and Inventors in American Film and TV since 1930* will be of interest to anyone concerned with the depiction of historical events and historical figures in film and television and to anyone interested in the public understanding of science and technology

American Gospel Jon Meacham, 2007-03-20 NEW YORK TIMES BESTSELLER Pulitzer Prize winning author Jon Meacham reveals how the Founding Fathers viewed faith and how they ultimately created a nation in which belief in God is a matter of choice At a time when our country seems divided by extremism *American Gospel* draws on the past to offer a new perspective Meacham re-creates the fascinating history of a nation grappling with religion and politics from John Winthrop's city on a hill sermon to Thomas Jefferson's Declaration of Independence from the Revolution to the Civil War from a proposed nineteenth-century Christian Amendment to the Constitution to Martin Luther King Jr.'s call for civil rights from George Washington to Ronald Reagan Debates about religion and politics are often more divisive than illuminating Secularists point to a wall of separation between church and state while many conservatives act as though the Founding Fathers were apostles in knee britches As Meacham shows in this brisk narrative, neither extreme has it right At the heart of the American experiment lies the God of what Benjamin Franklin called public religion: a God who invests all human beings with inalienable rights while protecting private religion from government interference It is a great American balancing act and it has served us well Meacham has written and spoken extensively about religion and politics, and he brings historical authority and a sense of hope to the issue *American Gospel* makes it compellingly clear that the nation's best chance of summoning what Lincoln called the better angels of our nature lies in recovering the spirit and sense of the Founding In looking back, we may find the light to lead us forward Praise for *American Gospel* In his *American Gospel*, Jon Meacham

provides a refreshingly clear balanced and wise historical portrait of religion and American politics at exactly the moment when such fairness and understanding are much needed Anyone who doubts the relevance of history to our own time has only to read this exceptional book David McCullough author of 1776 Jon Meacham has given us an insightful and eloquent account of the spiritual foundation of the early days of the American republic It is especially instructive reading at a time when the nation is at once engaged in and deeply divided on the question of religion and its place in public life Tom Brokaw author of The Greatest Generation

The American Story David M. Rubenstein, 2019-10-29 Co founder of The Carlyle Group and patriotic philanthropist David M Rubenstein takes readers on a sweeping journey across the grand arc of the American story through revealing conversations with our greatest historians In these lively dialogues the biggest names in American history explore the subjects they ve come to so intimately know and understand David McCullough on John Adams Jon Meacham on Thomas Jefferson Ron Chernow on Alexander Hamilton Walter Isaacson on Benjamin Franklin Doris Kearns Goodwin on Abraham Lincoln A Scott Berg on Charles Lindbergh Taylor Branch on Martin Luther King Robert Caro on Lyndon B Johnson Bob Woodward on Richard Nixon And many others including a special conversation with Chief Justice John Roberts Through his popular program The David Rubenstein Show David Rubenstein has established himself as one of our most thoughtful interviewers Now in The American Story David captures the brilliance of our most esteemed historians as well as the souls of their subjects The book features introductions by Rubenstein as well a foreword by Librarian of Congress Carla Hayden the first woman and the first African American to lead our national library Richly illustrated with archival images from the Library of Congress the book is destined to become a classic for serious readers of American history Through these captivating exchanges these bestselling and Pulitzer Prize winning authors offer fresh insight on pivotal moments from the Founding Era to the late 20th century
