Reasoning beyond Reason Jeff Sellars, 2011-01-01 There is a seeming dichotomy in C S Lewis s writing On the one hand we see the writer of argumentative works and on the other hand we have the imaginative poet Lewis also found this dichotomy within himself When he was a rationalist and atheist he found that these two sides of him were pulling in different directions he believed that his rationalist side could not be reconciled with his imaginative side Once he became a Christian he eventually found a means of marrying the two principally through story and myth Within C S Lewis studies there is also a common conception of Lewis as a modern rationalist philosopher i e a rationalist who thinks arguments and his arguments in particular are the last answer on the questions he undertakes Reasoning beyond Reason attempts to take this view to task by placing Lewis back into his pre modern context and showing that his sources and influences are classical ones In this process Lewis is viewed through the idea that imagination and reason are connected in an intimate way they are different expressions of a single divine source of truth and there is an imagination already present upon which reason works Lewis s transpositional view of imagination implicitly pushes towards a somewhat radical position the imagination is to be seen as theological in its reliance upon something more than the merely material it necessarily relies on a transcendent funding for its use and meaning In other words the imagination is a well source for what we might normally label rational
