Axford, 2017-06-27 Global Theory from Within and Without is a critical examination of the concept of globalization There are in sociological theory many definitions of globalization Sociological theory constructs a new theory of globalization starting from the structural changes of social systems at the beginning of the 21st century The research subject is the ongoing connection of global studies and the research program of multiple modernities The structural change is initiated by growing pace and different intensities of social exchange of the subsystems of societal communication in contemporary societies The studies of global scholarship show that the structural change is not an indicator of any unified constitution of social systems

*The Great Silence* Milan M. Ćirković, 2018-04-26 The Great Silence explores the multifaceted problem named after the great Italian physicist Enrico Fermi and his legendary 1950 lunchtime question Where is everybody In many respects Fermi's paradox is the richest and the most challenging problem for the entire field of astrobiology and the Search for ExtraTerrestrial Intelligence SETI studies This book shows how Fermi's paradox is intricately connected with many fields of learning technology arts and even everyday life It aims to establish the strongest possible version of the problem to dispel many related confusions obfuscations and prejudices as well as to offer a novel point of entry to the many solutions proposed in existing literature Ćirković argues that any evolutionary worldview cannot avoid resolving the Great Silence problem in one guise or another Globalgeschichte Sebastian Conrad, 2013-04-10 Globalgeschichte ist in den letzten Jahren zu einem der wichtigsten Felder der Geschichtswissenschaft geworden Aber was ist unter dem Begriff genau zu verstehen Sebastian Conrad führt in diesem Buch anschaulich und anhand konkreter Beispiele in das Forschungsfeld ein und stellt die zentralen Fragen und Theorien sowie die wichtigsten Themen und Kontroversen vor In der globalisierten Welt der Gegenwart lässt sich Geschichte nicht mehr so selbstverständlich wie früher auf die Geschichte einzelner Länder beschränken Stattdessen hat das Interesse an grenzüberschreitenden Prozessen und globalen Verflechtungen sprunghaft zugenommen Wie aber schreibt man Globalgeschichte und was ist ihr Gegenstand Geht es um die Geschichte des gesamten Planeten Um die Geschichte der

menschlichen Spezies gar um Big History die Zeit seit dem Urknall Oder handelt es sich eher um eine bestimmte Perspektive anhand derer auch die Geschichte eines kleinen Dorfes untersucht werden kann Welche Fragen lassen sich in globaler Perspektive besser beantworten welche Zusammenhänge kommen dadurch erst in den Blick Sebastian Conrad neben Jürgen Osterhammel wohl der bekannteste Vertreter der Globalgeschichte in Deutschland führt in die wichtigsten Fragen und Themen aber auch die Herausforderungen und die Kritik an der Globalgeschichte ein und zeigt dass das Denken in globalen Horizonten keineswegs eine neue Erfindung ist und auch keine Errungenschaft des Westens allein

*What Is Global History?* Sebastian Conrad, 2016-01-12 The first comprehensive overview of the innovative new discipline of global history Until very recently historians have looked at the past with the tools of the nineteenth century But globalization has fundamentally altered our ways of knowing and it is no longer possible to study nations in isolation or to understand world history as emanating from the West This book reveals why the discipline of global history has emerged as the most dynamic and innovative field in history one that takes the connectedness of the world as its point of departure and that poses a fundamental challenge to the premises and methods of history as we know it What Is Global History provides a comprehensive overview of this exciting new approach to history The book addresses some of the biggest questions the discipline will face in the twenty first century How does global history differ from other interpretations of world history How do we write a global history that is not Eurocentric yet does not fall into the trap of creating new centrism How can historians compare different societies and establish compatibility across space What are the politics of global history This in depth and accessible book also explores the limits of the new paradigm and even its dangers the question of whom global history should be written for and much more Written by a leading expert in the field What Is Global History shows how by understanding the world's past as an integrated whole historians can remap the terrain of their discipline for our globalized present

Los Alamos Science, 1994 **Plurihistoricity** Zoltán Boldizsár Simon, 2025-07-25 This book situates historical scholarship within a plurihistoricity of contemporary historical culture exploring conflicting conceptions of

historical change in technological utopias of human enhancement in prospects of human extinction in societal responses to the Anthropocene and in the imperative of bringing colonial patterns of historical injustice to justice Contemporary societies increasingly reclaim history from the academic pursuit of historiography On the one hand societal engagement in history is growing palpably History is literally everywhere in the fallen statues of past political regimes in trajectories of environmental degradation and in technological prospects of space expansion On the other hand societal demand for history seems to diminish rather than strengthen the authority of professionalized historical studies What do these societal historicities stand for How do they create pasts that matter What futures do they desire or attempt to avoid How do they view the historical transitions into those futures And what is the societal role of historical scholarship and scholarly conceptions of history in the plurihistoricity of contemporary historical culture By addressing these questions Simon's book is essential reading for everyone interested in the present and future of viewing the world historically *World Statehood* Heikki Patomäki, 2023-07-07
