**The Glorification of Plunder** Malcolm James, 2017-09-04 This book is about two things tax and power The processes through which tax law is formulated involve more than the formal legislative and judicial processes which result in statute and case law Tax law is an expression of tax policy which is subjective and a heterogeneous product of states cultures and politics Regarding taxation as a branch of either black letter law or orthodox economics ignore or even deny this subjectivity This book explores the complex dynamics of the debates which inform tax policy the interaction between tax and power and how power relations between various groups in society and between individuals and the state are manifested through tax system This helps to explain why the rules procedures and practices are all formulated to suit their interests of the most powerful groups in society Taxation is a powerful lens through which to analyse relationships between individuals and the state since history has shown that there is a longstanding power relationship between rulers and subjects which is articulated through tax regimes Tax can therefore be seen as a technology which mediates such tensions and relationships and the way that choices are made and conflicts are resolved can give valuable insights into societal power relationships

Farrell, Niamh Hardiman, 2021-09-01 Ireland has enjoyed continuous democratic government for almost a century an unusual experience among countries that gained their independence in the 20th century But the way this works in practice has changed dramatically over time Ireland s colonial past had an enduring influence over political life for much of the time since independence enabling stable

institutions of democratic accountability while also shaping a dismal record of economic under development and persistent emigration More recently membership of the EU has brought about far reaching transformation across almost all aspects of Irish life But if anything the paradoxes have only intensified Now one of the most open economies in the world Ireland has experienced both rapid growth and one of the most severe crashes in the wake of the Great Recession On some measures Ireland is among the most affluent countries in the world yet this is not the lived experience for many of its citizens Ireland is an unequivocally modern state yet public life continues to be marked by formative ideas and values in which tradition and modernity are held in often uneasy embrace It is a small state that has ambitions to leverage its distinctive place in the Atlantic and European worlds to carry more weight on the world stage Ireland continues to be deeply connected to Britain through ties of culture and trade now matters of deep concern in the context of Brexit And the old fault lines between North and South between Ireland and Britain which had been at the core of one of Europe's longest and bloodiest civil conflicts risk being reopened by Britain's new hard edged approach to national and European identities These key issues are teased out in the 41 chapters of this book making this the most comprehensive volume on Irish politics to date

**The Colonizing Self** Hagar Kotef, 2020-11-02 Colonizers continuously transform spaces of violence into spaces of home Israeli Jews settle in the West Bank and in depopulated Palestinian houses in Haifa or Jaffa White missionaries build their lives in Africa The descendants of European settlers in the Americas and Australia dwell and thrive on expropriated indigenous lands In The Colonizing Self Hagar Kotef traces the cultural political and spatial apparatuses that enable people and nations to settle on the ruins of other people's homes Kotef demonstrates how the mass and structural modes of violence that are necessary for the establishment and sustainment of the colony dwell within settler colonial homemaking and through it shape collective and individual identities She thus powerfully shows how the possibility to live amid the destruction one generates is not merely the possibility to turn one's gaze away from violence but also the possibility to develop an attachment to violence itself Kotef thereby offers a theoretical framework for understanding how settler colonial violence becomes inseparable from one's sense of self

**Political Action in Václav Havel's Thought** Delia Popescu, 2012-01-01 Political Action in Vaclav Havel's
