**Is the Bangladesh Paradox Sustainable?** Selim Raihan, François Bourguignon, Umar Salam,2024-01-18 Bangladesh is widely seen as a paradox Over the last quarter of a century it has maintained economic growth and has outperformed many countries on social indicators while scoring very low on the quality of governance Moreover its economic progress does not seem to indicate significant improvement in comparative institutional indicators Is the Bangladesh Paradox Sustainable thus examines whether such a paradoxical combination can be sustained in the long run if growth continues with no improvement in the quality of institutions It argues that although Bangladesh has become the second largest world exporter in the garments export diversification is needed both within and outside the garment sector if it is to maintain its development pace Based on

a thorough account of the country's economic, social and political development. This companion volume analyzes Bangladesh's critical institution and development sensitive areas such as the garment sector, banking, taxation, land management, the judiciary and education. This title is also available as Open Access on Cambridge Core.

**BCS** Leon N. Cooper, Dmitri?duardovich Fel'dman, 2011. Named a Top Five Book of 2011 by Physics Today USA. The BCS theory of superconductivity developed in 1957 by Bardeen, Cooper and Schrieffer has been remarkably successful in explaining the properties of superconductors. In addition, concepts from BCS have been incorporated into diverse fields of physics from nuclear physics and dense quark matter to the current standard model. Practical applications include SQUIDS, magnetic resonance imaging, superconducting electronics and the transmission of electricity. This invaluable book is a compilation of both a historical account and a discussion of the current state of theory and experiment. With contributions from many prominent scientists, it aims to introduce students and researchers to the origins, the impact and the current state of the BCS theory.

*Public Policy and Governance in Bangladesh* Nizam Ahmed, 2016-07-01. Good policies are an important prerequisite of good governance and any effort to change one is likely to affect the other. In emerging democracies such as Bangladesh, a redefinition of roles and responsibilities of different actors in the policy and governing process can be noticed. This book identifies and analyses issues related to the making and implementation of public policies in Bangladesh over the last four decades (1972-2012). It explores the implications of the change that has taken place in policy and governance environment in Bangladesh. Focusing on several important sectoral and sub-sectoral policies, it examines the impact and limitations of the change. Chapters are structured into four parts: Public Policy, Bureaucracy and Parliament, Cases of Public Policy, Women in Governance and Public Administration, Ethics, Innovations and Public Service Delivery, and the book is a valuable resource for researchers in the field of development studies, public policy and South Asian politics.

*Diagnostic study of the Food Planning and Monitoring Unit (FPMU) in Bangladesh: Current structure, output, and analytical capacity (human and logistical)* Dorosh, Paul A., Ali, Shawkat, Bin Khaled, Muhammad Nahian, Mustafa, Shoumi, 2021-09-01. For almost fifty years the Food Planning and Monitoring Unit (FPMU) of the Ministry of Food has played a role in policy analysis and planning related to the Public Foodgrain Distribution System (PFDS) and food policy in Bangladesh. Supported by a series of major donor-funded technical support projects, this small unit has had major positive impacts on food policy reforms as well as policy decisions on timing of PFDS imports, domestic procurement and distribution. And in the last decade, the FPMU has played a lead role in formulation and monitoring of Country Investment Plans for Agriculture, Food Security and Nutrition. Thus, the FPMU provides support not only to the Ministry of Food but nine other ministries as well. This expanded mandate and the increased complexity of food and nutrition policy in Bangladesh suggest the need for an in-depth examination of the FPMU's structure and performance. This diagnostic study based on a review of documents

interviews of FPMU staff and other government officials stakeholder consultations and synthesis of findings assesses the organizational structure management technical performance data management and direct support to food policy implementation and capacity strengthening needs to provide insights on how to further enhance the FPMU's effectiveness
