Educational System Joseph A. Balogun,2023-09-20 This book assesses the challenges within the Nigerian educational system and provides a concrete plan to revitalize the low performing system by strengthening high stakes testing at all levels In Nigeria many citizens believe that the solution to the country s low performance in education is to eliminate high stakes standardized testing High stakes testing refers to applying standardized student achievement tests as a primary mechanism to evaluate students teachers and their school s performance This book argues that the poor quality of education and low ranking of Nigeria s educational system is not related to the negative consequences of high stakes testing but rather is due to many intrinsic factors By conducting a comparative analysis of six high performing education systems worldwide the book offers a comparative summative evaluation of the educational system and offers recommendations This book will be of interest to policymakers and scholars in the fields of African education higher education quality and global studies African studies management and administration leadership and professional development studies Joseph Abiodun Balogun is former Dean and retired Distinguished University Professor at the College of Health Sciences Chicago State University USA Visiting Professor Program Consultant at the Centre of Excellence in Reproductive Health Innovation University of Benin Nigeria and

President CEO Joseph Rehabilitation Center Tinley Park Illinois USA **Reverse Mission: the Dialectics of the Nigerian Religioscape** Nelson Olusegun Adewole, 2022-08-08 It is obvious that Pentecostalism according to this work is a force to reckon with in the contemporary Christianity No doubt it has created permanent positive and negative impact on the mainline churches therefore religious landscape cannot be the same again Now that some Pentecostals are returning to the mainline churches it shows either that the initial intention has selfish tendencies or that there are some terms of liturgy faith experiences and theology in the mainline that cannot be compromised There is need to articulate a model of Church that will explicate theologically and ecclesiology the reality of the Christian faith in the contemporary society capable of making the encounter between God and humanity an experimental reality I humbly appreciate this piece and recommend it for publishing The Rt Revd Dr J Akin Atere Bishop Diocese of Awori Old Testament Scholar *Health Research in Nigeria* Joseph Abiodun Balogun, 2023-01-09 This book is the first authoritative study of the research output and scientific impact of Nigerian health academics including those in the diaspora Around the world policymakers and academics measure the scientific impact of research at national and international levels using bibliometric measures Unfortunately there is limited data on scientists research productivity and impact in developing countries particularly in Africa Therefore normative bibliometric information from different countries is needed to address the challenges faced by scientists in Africa This book contributes to filling this research gap Additionally the author addresses the controversies surrounding the use of bibliometrics in judging research productivity and offers recommendations to improve research systems **Healthcare Education in Nigeria** Joseph A. Balogun, 2020-12-30 This book provides a comprehensive and authoritative assessment of the training of health professionals in Nigeria looking back to how health care education has evolved in the country over time before investigating new and emerging trends The book begins with a discussion of the fundamentals of health care education the art of teaching health care students and modeling professionalism in health care The book highlights the work of pioneer Nigerian health care academics and explores the administration of health care education at departmental level Finally it highlights the role of elite Nigerian health care academics in the diaspora chronicles contemporary challenges in health care education and makes recommendations for reform This book will be of interest to students scholars and practitioners working on health care education in Africa **Changing Ourselves** Kent Hodge, 2013 Kent Hodge draws on nearly 30 years experience in Missions and church growth in this radical new book about how to live like Jesus both in times of persecution and in an indifferent Western world of moral decay It s radical because it s so simple We don t belong in camps and we do need to cross bridges In fact we need to build the bridges between the camps of differing opinion and practice in the church to search out again the simple truths that Jesus lived before the recorders of the Gospels Did Jesus really mean what he said in the Sermon on the Mount How do we do that In Northern Nigeria where the church has suffered bombings burnings midnight attacks on the homes of Christians only a return to the simple gospel has shown us how to

respond The chapters of this book are illustrated with life stories the stories and experiences of friends and co workers living and overcoming in tough times It s simple and it makes sense but is incredibly challenging When you read what Jesus said in the Gospels you don t get the impression that faith is some kind of escape clause to heaven This book studies anew how the church goes about renewing the world
