und Nachhaltigkeit Basil Bornemann, 2013-09-06 Policy Integration und Nachhaltigkeit sind zwei Begriffe die in der wissenschaftlichen und politischen Diskussion immer wieder in einem Atemzug genannt werden Die Realisierung einer nachhaltigen Entwicklung so eine zentrale These erfordere einen integrativen Ansatz politischer Problembearbeitung Unterschiedliche verstreute sektorale Policies seien hinsichtlich ihrer Wechselbeziehungen zu reflektieren und in einem integrierten Politikansatz zu b ndeln Nur so lie en sich erfolgreich gesellschaftliche Transformationen in Richtung Nachhaltigkeit steuern Offen bleibt bei diesen wiederkehrenden Forderungen nach einer integrierten Nachhaltigkeitspolitik allerdings was genau unter Policy Integration zu verstehen ist worin die spezifischen Anforderungen integrierter Politik im Kontext von Nachhaltigkeit bestehen und wie sich empirisch bestimmen l sst ob in einem konkreten Fall eine integrierte Nachhaltigkeitspolitik vorliegt oder nicht Vor diesem Hintergrund geht es in Bornemanns Studie um eine systematische Kl rung des Verh ltnisses von Policy Integration und Nachhaltigkeit in theoretisch konzeptioneller und empirischer Hinsicht Ausgehend von einer kritischen Auseinandersetzung mit bestehenden Lesarten des Begriffs wird im ersten Teil ein konzeptionell fundiertes Verst ndnis von Policy Integration als analytische Perspektive entwickelt Dieser generische Begriffsrahmen wird in einem zweiten Schritt unter R ckgriff auf die Nachhaltigkeitsidee in ein normativ begr ndetes Konzept integrativer Nachhaltigkeitspolitik bersetzt Auf dieser Basis wird im dritten Teil der Arbeit die Nachhaltigkeitsstrategie der deutschen Bundesregierung in einer detaillierten Fallstudie daraufhin analysiert ob und inwieweit sie den Anforderungen einer integrativen Politik der Nachhaltigkeit entspricht Erfolgt mit der proklamierten Hinwendung zu einer strategischen Nachhaltigkeitspolitik also auch ein Wandel des Policy Making in Richtung einer integrativen Politik der Nachhaltigkeit **Internationale Trends des Erwachsenenlernens** Arbeitsgemeinschaft QUEM (Hrsg.),

Montero, Cristiane Kerches da Silva Leite, 2019-12-09 Latin American countries have for a long time been importers of public policies and institutions from the Global North. The colonial legacy and resulting patterns of international relations during the 20th century favoured a course of adoption and hybridization of political institutions. In recent decades a new conjuncture has emerged in which Latin American policies have started to diffuse South-South and even South-North. Led by Brazil with Participatory Budgeting and the Bolsa Familia program, other countries in the region soon followed. The Bus Rapid Transit (BRT) system and bicycle policies in Curitiba and Bogotá have also reached wide international recognition and circulation. And yet despite Latin America's new role as a policy exporter little is known about its dynamics, causes and effects. Why have Latin American policies been diffused inside and outside the region? Which actors are involved? What driving forces affect these processes? This innovative collection offers a new perspective on the policy diffusion phenomena. Drawing on different examples from Latin American experiences in urban local policies and national social policies, experts present a new framework to study this phenomenon centered on the mobilization of ideas, interests and discourses for policy diffusion. Latin America and Policy Diffusion will be of great interest to researchers, educators, advanced students and practitioners working in the fields of political science, public policy, international relations and Latin American Studies.

Strategies for Adaptation to Climate Change in a Transformative Approach Jaap M. de Heer, Giasuddin Ahmed Choudhury, 2025-07-28 The Bangladesh experience shows that adaptation to climate change needs to be seen in conjunction with existing and changing weather patterns, natural hazards and the natural resources systems. Moreover, adaptation to climate change has next to the physical and technical content a socio-economic dimension in relation to the many societal and economic aspects of water resources and climate change. Adaptation in terms of strategy making and implementation is thus embedded in a country's society with its traditions, technologies, governance and policies. This means that adaptation strategy making and implementation while focusing on the physical system and use of technologies are primarily cultural processes characterized by a struggle for meaning in uncertainty, sense making and sense giving to define the issues and challenges and formulate strategies, thinking about appropriate measures, taking action and managing transformation. Besides the power-related aspects of negotiation and decision making, including budget allocation for investments, are evident as well. The BDP 2100 is a strategic plan with many techno-economic analyses, choices and proposals while it is basically an expression of the politics of culture. De Heer 2009

2013 **The Oxford Handbook of Global Policy and Transnational Administration** Diane Stone, Kim Moloney, 2019-01-10 Global policy making is unfurling in distinctive ways above traditional nation-state policy processes. New practices of transnational administration are emerging inside international organizations but also alongside the trans-governmental networks of regulators and inside global public-private partnerships. Mainstream policy and public administration studies have tended to analyse the capacity of public sector hierarchies to globalize national policies. By contrast, this Handbook investigates new public spaces of transnational policy making, the design and delivery of global public

goods and services and the interdependent roles of transnational administrators who move between business bodies government agencies international organizations and professional associations This Handbook is novel in taking the concepts and theories of public administration and policy studies to get inside the black box of global governance Transnational administration is a multi actor and multi scalar endeavour having manifestations depending on the policy issue or problems at the local urban sub regional sub national regional national supranational supra regional transnational international and global scales These scales of local and global are not neatly bounded and nested spaces but are articulated together in complex patterns of policy activity These transnational patterns represent a reinvigoration of public administration and policy studies as the Handbook authors advance their analysis beyond the methodological nationalism of the nation state
