Economics and Finance Hans-Arthur Vogel,2019-03-21 Foundations of Airport Economics and Finance analyzes the impact key economic indicators play on an airport's financial performance. As rapidly changing dynamics including liberalization, commercialization, and globalization are changing the nature of airports worldwide, this book presents the significant challenges facing current and future airports. Airports are evolving from quasi-monopolies to commercial companies operating in a global environment with ever-increasing passenger and cargo volumes and escalating security costs that put a greater strain on airport systems. This book highlights the critical changes that airports are experiencing, providing a basic understanding of both the economic and financial aspects of the air transport industry. It identifies the economic roots of airport financial performance and how the interplay of its major parameters affects profitability. Bridges the gap between the latest airport academic research and real-world airport financial management. Covers cases and scenarios of numerous airports from around the world. Includes learning aids such as chapter introductions and summaries, glossary, and appendices.

Nursing Home Administration, Seventh Edition James E. Allen,2015-11-04 Sixth Edition. Named a 2013 Doody's Essential Purchase. A detailed road map of essential knowledge for obtaining licensure and employment as a nursing home administrator. The Seventh Edition of this classic text is updated to reflect the 2014 National Association of Boards of Examiners of Nursing Home Administrators (NAB) Domains of Practice. With more than 50 new topics, it comprehensively addresses all new regulations for managing a nursing facility along with a detailed overview of the skills and knowledge required to be a successful administrator. The Seventh Edition responds to the many changes that have recently occurred in the long-term care field. It provides a completely new Minimum Data Set 3.0 (MDS 2015) Federal Requirements for Electronic Records, the new International Classification of Diseases Tenth Revision Clinical Modification (ICD-10-CM), new Quality Measures, updated Instructions for Making Data as per the Centers for Medicare and Medicaid, the impacts of the Affordable Care Act (ACA), and several new federal regulations. The Seventh Edition clearly describes what nursing home managers do, how they think, and how they lead. It breaks down the art of management into its basic tasks: forecasting, planning, organizing, staffing, directing, controlling, quality, innovating, and marketing, and examines them in depth. The text pinpoints all of the separate components of nursing home administration: management, human resources, team dynamics, conflict resolution, finance, and business, industry laws and regulations, and patient care, and describes how they fit together to form the coordinated activity set required of a successful nursing home administrator. Abundant real-life case

Jonas and Kovner's Health Care Delivery in the United States, 11th Edition James R. Knickman,Anthony R.

Kovner, 2015-04-08 Health care managers practitioners and students must both operate as effectively as they can within the daunting and continually evolving system at hand and identify opportunities for reform. Advances in Health Care Delivery in the United States has been an indispensable companion to those preparing to manage this balance. The present edition demonstrates once again why this volume has come to be so prized. It takes the long view, charting recent developments in health policy and putting them side by side with descriptions and analysis of existing programs in the United States and abroad. Sherry Glied, PhD, Dean and Professor of Public Service, NYU Wagner, writes in the Foreword: "This fully updated and revised 11th edition of a highly esteemed survey and analysis of health care delivery in the United States keeps pace with the rapid changes that are reshaping our system. Fundamentally, this new edition presents the realities that impact our nation's achievement of the so-called Triple Aim: better health and better care at a lower cost. It addresses challenges and responses to the Affordable Care Act (ACA), the implementation of Obamacare, and many new models of care designed to replace outmoded systems. Leading scholars, practitioners, and educators within population health and medical care present the most up-to-date evidence-based information on health disparities, vulnerable populations, and immigrant health; nursing workforce challenges; new information technology; preventive medicine; emerging approaches to control health care costs; and much more. Designed for graduate and advanced undergraduate students of health care management and administration and public health, the text addresses all of the complex core issues surrounding our health care system in a strikingly readable and accessible format. Contributors provide an in-depth and objective appraisal of why and how we organize health care the way we do, the enormous impact of health-related behaviors on the structure, function, and cost of the health care delivery system, and other emerging and recurrent issues in health policy, health care management, and public health. The 11th edition features the writings of such luminaries as Michael K. Gusmano, Carolyn M. Clancy, Joanne Spetz, Nirav R. Shah, Michael S. Sparer, and Christy Harris Lemak, among others. Chapters include key words, learning objectives and competencies, discussion questions, case studies, and new charts and tables with concrete health care data. Included for instructors is an Instructor's Manual, PowerPoint slides, Syllabus, Test Bank, Image Bank, Supplemental eChapter on the ACA, and a transition guide bridging the 10th and 11th editions. Key Features: Integration of the ACA throughout the text, including a supplementary eChapter devoted to this major health care policy innovation; The implementation of Obamacare: Combines acute and chronic care into organizations of medical care; Nursing workforce challenges; Health disparities, vulnerable populations, and immigrant health; Strategies to achieve the Triple Aim: better health and better care at lower cost; New models of care, including accountable care organizations (ACOs), patient homes, health exchanges, and integrated health systems; Emerging societal efforts toward creating healthy environments and illness prevention; Increasing incentives for efficiency and better quality of care; Expanded discussion of information technology; A new 5-year trend forecast."
