 Shin-ya Kobayashi, Andrzej Piegat, Jerzy Pejaś, Imed El Fray, Janusz Kacprzyk, 2016-10-19 This book gathers the proceedings of  
 the 20th International Conference on Advanced Computer Systems 2016 held in Międzyzdroje Poland on October 19-21 2016  
 Addressing topics that include artificial intelligence AI software technologies multimedia systems IT security and design of  
 information systems the main purpose of the conference and the book is to create an opportunity to exchange significant  
 insights on this area between science and business In particular this expertise concerns the use of hard and soft  
 computational methods for artificial intelligence image and data processing and finally the design of information and security  
 systems The book contains a collection of carefully selected peer reviewed papers combining high quality original  
 unpublished research case studies and implementation experiences *Routledge Handbook of African Media and*  
*Communication Studies* Winston Mano, Viola Milton, 2021-02-11 This handbook comprises fresh and incisive research  
 focusing on African media culture and communication The chapters from a cross section of scholars dissect the forces  
 shaping the field within a changing African context It adds critical corpora of African scholarship and theory that places the  
 everyday worlds needs and uses of Africans first The book goes beyond critiques of the marginality of African approaches in  
 media and communication studies to offer scholars the theoretical and empirical toolkit needed to start building critical  
 corpora of African scholarship and theory that places the everyday worlds needs and uses of Africans first Decoloniality  
 demands new epistemological interventions in African media culture and communication and this book is an important  
 interlocutor in this space In a globally interconnected world changing patterns of authority and power pose new challenges  
 to the ways in which media institutions are constituted and managed as well as how communication and media policy is  
 negotiated and the manner in which citizens engage with increasing media opportunities The handbook focuses on the  
 interrelationships of the local and the global and the concomitant consequences for media practice education and citizen  
 engagement in today's Africa Altogether the book foregrounds convivial epistemologies relevant for locating African media  
 and communication in the pluriverse This handbook is an essential read for critical media communications cultural studies  
 and journalism scholars The Organisation of Mind Tim Shallice, Richard P. Cooper, 2011-03-17 To understand the mind we  
 need to draw equally on the fields of cognitive science and neuroscience But these two fields have very separate intellectual  
 roots and very different styles So how can these two be reconciled in order to develop a full understanding of the mind and  
 brain This is the focus of this landmark new book
