with personal moral behavior to an intense scrutiny of the structures of society Amidst these changes the Church's social documents have sought to address systemic shortcomings as a means of promoting the common good through economic justice Barrera also looks ahead to the challenges posed by a postindustrial society characterized by a global knowledge based economy arguing that Catholic social thought will likely shift its focus from advocacy of the living wage to demands for greater equality of socioeconomic participation Written for scholars and students of economics theology and political science interested in religious social thought this book bridges the gap between moral theology and economic theory Senate documents, 1883
