Summary of Gordon Marino's Basic Writings of Existentialism Everest Media, 2022-05-15T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Søren Aabye Kierkegaard was the father of existentialism He was born in Copenhagen in 1813 He entered the University of Copenhagen in 1830 but it took him more than a decade to finish his degree He passed his exams in 1840 and a year later completed his dissertation On the Concept of Irony With Constant Reference to Socrates 2 Kierkegaard wrote about the relation between ethics and religion and he suggested that faith was about the attempt to follow Christ in his self denial suffering and ultimately in his humiliation He no longer wanted to participate in making a fool of God 3 The ethical is the universal and it applies to everyone at all times It is immanent in itself and has nothing outside itself that is its end but it is its own end The single individual sensuously and psychically qualified in immediacy is the individual who has his end in the universal 4 Faith is the paradox that the individual is higher than the universal yet justified before it It is a higher position that cannot be mediated and yet it exists eternally It is this paradox that Abraham believed in and it is this paradox that makes faith exist **Jean-Paul Sartre** Jean-Paul Sartre, 2001 This first collection of Sartre's key philosophical writings provides an indispensable resource for all students and readers of his work which has been extremely influential in philosophy literature and politics *Existentialism from Dostoevsky to Sartre* Walter Arnold Kaufmann, 1960 **Existentialism from Dostoevski to Sartre** Walter Kaufmann, 1957 *The A to Z of Existentialism* Stephen Michelman, 2010-04-01 Existentialism is the philosophy of human existence which flourished first in Germany in the 1920s and 1930s and then in France in the decade following the end of World War II The operative meaning of existentialism here is thus broader than it was circa 1945 when the term first gained currency in France as a label for the philosophy of Jean Paul Sartre However it is considerably less broad than the view proposed by commentators in the 1950s

and 1960s who in an attempt to overcome Sartre's hegemony discovered the seeds of existentialism far and wide in Shakespeare Saint Augustine and the Old Testament prophets In this dictionary existentialism is understood as a decidedly 20th century phenomenon though with roots in the 19th century Effort has been made to understand the philosophy of existentialism as all philosophies should be understood as part of an ongoing intellectual tradition an evolving history of problems concepts and arguments The A to Z of Existentialism explains the central claims of existentialist philosophy and the contexts in which it developed into one of the most influential intellectual trends of the 20th century This is done through a chronology an introductory essay a bibliography and more than 300 cross referenced dictionary entries offering clear accessible accounts of the life and thought of major existentialists like Jean Paul Sartre Martin Heidegger Martin Buber Karl Jaspers Gabriel Marcel Simone de Beauvoir Albert Camus and Maurice Merleau Ponty as well as thinkers influential to its development such as Wilhelm Dilthey Henri Bergson Edmund Husserl and Max Scheler This book affords readers an integrated critical and historically sensitive understanding of this important philosophical movement

In this thoroughly revised second edition of *Emotional Amoral Egoism* Professor Nayef Al Rodhan demonstrates the impact of our innate predispositions on key issues from conflict inequality and transcultural understanding to Big Data fake news and the social contract. However it is the societies we live in and their governance structures that largely determine how we act on our innate predispositions. Consequently Al Rodhan proposes a new and sustainable good governance paradigm which must reconcile the ever present tension between the three attributes of human nature: Emotional Amoral Egoism and the nine critical needs of human dignity. This book is a perfect resource for enlightened readers, academics and policy makers interested in how our innate instincts and tendencies shape the world we live in and how the interplay between neurophilosophy and policy can be harnessed for pragmatic and sustainable peace, security and prosperity solutions for all at all times and under all circumstances.

The Routledge Companion to the Philosophy of Race Paul Taylor, Linda Alcoff, Luve Anderson, 2017-11-28. For many decades race and racism have been common areas of study in departments of sociology, history, political science, English and anthropology. Much more recently, as the historical concept of race and racial categories have faced significant scientific and political challenges, philosophers have become more interested in these areas. This changing understanding of the ontology of race has invited inquiry from researchers in moral philosophy, metaphysics, epistemology, philosophy of science, philosophy of language and aesthetics. *The Routledge Companion to Philosophy of Race* offers in one comprehensive volume newly written articles on race from the world's leading analytic and continental philosophers. It is however accessible to a readership beyond philosophy as well, providing a cohesive reference for a wide student and academic readership. The Companion synthesizes current philosophical understandings of race, providing 37 chapters on the history of philosophy and race as well as how race might be investigated in the usual frameworks of contemporary philosophy. The volume concludes with a section on philosophical approaches to some topics with broad interest outside of philosophy, like colonialism, affirmative action, eugenics, immigration, race and disability and post racialism. By clearly explaining and carefully organizing the leading current philosophical thinking on race, this timely collection will help define the subject and bring renewed understanding of race to students and researchers in the humanities, social science and sciences.

Martin Adams presents a philosophical and psychological analysis and critically evaluates the different ways that existential philosophy can illuminate the way we all strive for meaning and purpose in life. Existentialist Patterns in Edwardian Plays Dr. Manoj Kumar Singh, 2021-11-20 The introduction gives the background of Modern American Drama, which is a kind of slow evolution and has taken place in the form of an amalgamation of various schools. It presents the gradual growth of the American dramatic literature right from Eugene O'Neill up to Edward Albee. This chapter includes the dramatists like Eugene O'Neill, Maxwell Anderson, Robert Sherwood, Lillian Hellman, Clifford Odets, Philip Barry, Tennessee Williams, Arthur Miller, and Edward Albee in order to have an understanding of the overall development of the American dramatic literature. In February 1915, an enthusiastic group of young amateurs calling themselves the Washington Square Players waved a solemn manifesto in the face of New York Drama critics. They opened the Band Box Theatre near the corner of 57th Street and Third Avenue. Just a year and a half later, another group, equally young and enthusiastic, took possession of a stable in MacDougal Street to be known thereafter as the Provincetown Theatre. The dramatists of the Washington Square Players were more influenced by Ibsen, Shaw, and Maeterlinck, whereas that of the Provincetown group happened to accept Eugene O'Neill as their torch bearer.
