### **Beginning Theory 3rd Edition:**

**Beginning theory** Peter Barry, 2013-01-18 Beginning theory has been helping students navigate through the thickets of literary and cultural theory for well over a decade now. This new and expanded third edition continues to offer students and readers the best one-volume introduction to the field. The bewildering variety of approaches, theorists, and technical language is lucidly and expertly unravelled. Unlike many books which assume certain positions about the critics and the theories they represent, Peter Barry allows readers to develop their own ideas once first principles and concepts have been grasped. The book has been updated and includes two new chapters, one of which, 'Literary theory: a history in ten events', innovatively surveys the course of theory, while the other, 'Theory after Theory', maps the arrival of new isms since the second edition appeared in 2002. Liberal humanism, Structuralism, Post-structuralism and deconstruction, Postmodernism, Psychoanalytic criticism, Feminist criticism, Lesbian/gay criticism, Marxist criticism, New historicism and cultural materialism, Postcolonial criticism, Stylistics, Narratology, Ecocriticism, Presentism, Transversal poetics, New aestheticism, Historical formalism, Cognitive poetics.

**Beginning Theory** Peter Barry, 2002-09-07 In this second edition of *Beginning Theory*, the variety of approaches, theorists, and technical language is lucidly and expertly unraveled and explained, and allows readers to develop their own ideas once first principles have been grasped. Expanded and updated from the original edition first published in 1995, Peter Barry has incorporated all of the recent developments in literary theory, adding two new chapters covering the emergent Eco-criticism and the re-emerging Narratology.

**Klett Uni Wissen Literary Theory** KLETT, 2014 **An Introduction to Literary Studies** Mario Klarer, 2023-07-31 The fourth edition of this classic beginner's guide to literary studies has been fully updated throughout. Mario Klarer offers a concise and accessible discussion of central issues in English and world literature as well as film and television series. Starting with the basics of what constitutes a literary text, the book moves through an analysis of major genres, important periods, and key theoretical approaches to literature and film. It also looks at the practicalities of finding and referencing secondary sources when writing a research paper. The expanded new edition has been updated to include a wider range of examples from world literature, cinema, and television series, additional references to contemporary streaming formats, updated chapters on postcolonial theory, cultural studies, gender theory, feminism, and queer theory, new sections on digital humanities, ecocriticism, literary translations, and paratexts, extended explanations of traditional genres, e.g. the epic, drama, and poetry, a completely revised chapter on the most recent MLA guidelines with rules for citing new media formats. The detailed glossary ensures that the book is accessible to readers of any level, making this an ideal self-study guide or a course book for Introduction to Literature classes.

**Plant and Animal Metaphors as Signs of Proto-Ecofeminism** Catalina Balinisteanu-Furdu,2024-11-14 In the UK ecocriticism or the green studies originate from the British Romanticism of 1790s rather than from the American transcendentalism of the 1840s a fact reinforced by Lawrence Buell who mentioned the waves of ecocriticism in his works and analysed its evolution from a critical practice in the 1970s to the movement within the literary studies from the 1990s having two semi coordinated and interpenetrating epicentres the British Romanticism and the US nature writing In the beginning this movement was called environmental criticism or literary environmental studies or literary ecology or literary environmentalism or green literary studies ultimately a convenient shortage was acknowledged as the suitable name ecocriticism A simple definition of ecocriticism would be the one offered by Lawrence Buell the study of the relationship between literature and the physical environment Although ecocritical canon was still in its early stages when Wuthering Heights Jane Eyre Out of Africa Beatrix Potter's Tales were written it is important for us to understand that ecocriticism has evolved in different branches so that people should perceive better their connection to nature The understanding of natural landscapes offered by both Brontë Sisters in their works fits Buell's definition However Jane Eyre reveals a particular facet of ecocriticism ecological feminism known also as ecofeminism thus our survey on ecocriticism requires broader parameters so that the readers might understand why the female writers focus on the relationship between the female protagonists and nature Beginning Theory Peter Barry,2009-03-15 The new edition of Beginning Theory features new chapters which take account of recent developments in literary theory

**Rural Space in the Middle Ages and Early Modern Age** Albrecht Classen,2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic

Theology and the First Theory of Sacrifice Ivan Strenski, 2003-11-01 Are social scientific theories and confessional theologies of sacrifice equally well suited as public discourse about religion The French liberal Protestant theologians of the 19th century and the French doyen of sociology Emile Durkheim and his two main followers Henri Hubert and Marcel Mauss engage in a struggle over the proper approach to sacrifice in the public university The Durkheimians argued that theological language and assumptions were inappropriate for this purpose because of their confessional allegiances Another approach to sacrifice free of confessional entanglements was required This is what Hubert and Mauss sought to provide in *The Sacrifice Its Nature and Function*

**Love in Contemporary British Drama** Korbinian Stöckl, 2021-01-18 Despite the recent turn to affects and emotions in the humanities and despite the unceasing popularity of romantic and erotic love as a motif in fictional works of all genres the subject has received surprisingly little attention in academic studies of contemporary drama Love in Contemporary British Drama reflects the appeal of love as a topic and driving force in dramatic works with in depth analyses of eight pivotal plays from the past three decades Following an interdisciplinary and historical approach the study collects and condenses theories of love from philosophy and sociology to derive persisting discourses and to examine their reoccurrence and transformation in contemporary plays Special emphasis

is put on narratives of love's compensatory function and precariousness and on how modifications of these narratives epitomise the peculiarities of emotional life in the social and cultural context of the present. Based on the assumption that drama is especially inclined to draw on shared narratives for representations of love, the book demonstrates that love is both a window to remnants of the past in the present and a proper subject matter for drama in times in which the suitability of the dramatic form has been questioned.
