Book Description

A technical analysis classic, newly updated to help traders develop and forward-test a high-performance trading system for today's markets. In trading, a winning system is everything. While it is theoretically possible to buy a "canned" trading system, most experts agree that the best system is proprietary to each trader—developed, implemented, and tested by the individual to suit his or her exact requirements. A stimulating mix of cutting-edge techniques, timeless principles, and practical guidelines, this updated edition of a technical analysis classic offers traders a comprehensive methodology to develop and implement your own trading system, bridging the gap between analysis and execution. Tushar Chande (Pittsburgh, PA) holds nine U.S. patents for creative solutions to flexible manufacturing problems using high-power lasers and optical fibers. A contributing editor to *Technical Analysis of Stocks & Commodities* magazine, he has been a registered Commodity Trading Advisor and is the principal author of *The New Technical Trader* (0-471-59780-5) (Wiley).

Beyond Technical Analysis Tushar S. Chande, 1996-12-27 A bulletproof trading system is essential for trading success. You also need an effective system for trading to implement that trading system consistently. Otherwise your trading experience will be stressful at best and insanely inconsistent at worst. Though you can always get a canned black box trading system few traders ever stick with them for long. Experts agree that the ideal system for each trader is unique to his or her trading style. Proprietary systems created by the individual. Now acclaimed system developer Tushar Chande shows you how to create real world systems that meet your trading needs. A stimulating mix of cutting edge techniques, timeless principles and practical guidelines. *Beyond Technical Analysis* offers a comprehensive methodology to develop and implement your own system bridging the gap between analysis and execution. Chande begins with a crucial first step assessing your trading beliefs. As he points out Your beliefs about price action must be at the core of your trading system. This allows the trading system to reflect your personality and you are more likely to succeed with such a system over the long run. Once you've pinpointed your beliefs you can then build effective systems around them. To help you construct and use these systems Chande starts with the basics and ends at the state of the art. With easy to read charts and numerous examples Chande explores the following Foundations, diagnosing market trends, the perils of optimization, setting initial stops, selecting data, choosing orders and understanding the summary test results. New systems trend following pattern based trend anti trend inter market filtered and extraordinary market opportunity systems plus variations. Equity curve analysis measuring smoothness portfolio strategies monthly equity curves and triggering effects. Money management risk of ruin projecting drawdowns changing bet size. Data scrambling a new method to generate synthetic data for testing A system for trading starting risk control compliance full traceability. To foster consistent execution *Beyond Technical Analysis* provides software that enables you to paper trade your system. A demo disk of Chande's secure trade management software and data scrambling utility will let you test your system on true out of sample data and track your emotions and P/L as you transition the system from computer table to trading desk. A complete
