Beyond Winning Negotiating To Create Value In Deals And Disputes:

Beyond Winning Robert H. Mnookin, Scott R. Peppet, Andrew S. Tulumello, 2004-04-15 Conflict is inevitable in both deals and disputes Yet when clients call in the lawyers to haggle over who gets how much of the pie traditional hard bargaining tactics can lead to ruin Too often deals blow up cases don't settle relationships fall apart justice is delayed Beyond Winning charts a way out of our current crisis of confidence in the legal system It offers a fresh look at negotiation aimed at helping lawyers turn disputes into deals and deals into better deals through practical tough minded problem solving techniques In this step by step guide to conflict resolution the authors describe the many obstacles that can derail a legal negotiation both behind the bargaining table with one's own client and across the table with the other side They offer clear candid advice about ways lawyers can search for beneficial trades enlarge the scope of interests improve communication minimize transaction costs and leave both sides better off than before But lawyers cannot do the job alone People who hire lawyers must help change the game from conflict to collaboration The entrepreneur structuring a joint venture the plaintiff embroiled in a civil suit the CEO negotiating an employment contract the real estate developer concerned with environmental hazards the parent considering a custody battle clients who understand the pressures and incentives a lawyer faces can work more effectively within the legal system to promote their own best interests Attorneys exhausted by the trench warfare of cases that drag on for years will find here a positive proven approach to revitalizing their profession

Good for You, Great for Me Lawrence Susskind, 2014-06-03 You've read the classic on win win negotiating Getting to Yes but so have they the folks you are now negotiating with How can you get a leg up and win Win win negotiation is an appealing idea on an intellectual level Find the best way to convince the other side to accept a mutually beneficial outcome and then everyone gets their fair share The reality though is that people want more than their fair share they want to win Tell your boss that you've concocted a deal that gets your company a piece of the pie and the reaction is likely to be Maybe we need to find someone harder nosed than you who knows how to win We want the whole pie not just a slice However to return to an earlier era before win win negotiation was in fashion and seek simply to dominate or bully opponents into submission would be a step in the wrong direction and a public relations disaster By showing how to win at win win negotiating Lawrence Susskind provides the operational advice you need to satisfy the interests of your back table the people to whom you report He also shows you how to deal with

irrational people whose vocabulary seems limited to no or with the proverbial 900 pound gorilla He explains how to find trades that create much more value than either you or your opponent thought possible His brilliant concept of the trading zone the space where you can create deals that are good for them but great for you while still maintaining trust and keeping relationships intact is a fresh way to re think your approach to negotiating The outcome is often the best of both possible worlds You claim a disproportionate share of the value you ve created while your opponents still look good to the people to whom they report Whether the venue is business a family dispute international relations or a tradeoff that has to be made between the environment and jobs Susskind provides a breakthrough in how to both think about and engage in productive negotiations
