How to Bullet Plan Rachel Wilkerson Miller, 2017-09-21 So what is a bullet journal? It's a planner, to-do list, and diary that will help you get your life together. This fun, practical guide shows you how to start and keep a bullet journal in a single notebook in which you write down all the things that you want to remember or need to do, or you've already done, from every aspect of your life: work, home, relationships, and hobbies. With colourful illustrations and easy tips to get you started, early adopter Rachel Wilkerson Miller explains how to make a bullet journal work for you, whether you want to create something simple or elaborate. Ideas for content include lists of your to-dos and to-don'ts, symbols that will make your lists efficient and effective, calendars to plan your day, week, month, or year, trackers for your habits and goals, things like health, money, travel, stationery such as washi tape, book darts, and more. The phenomenon that is bullet journaling has led to thousands of journalers sharing their work on Pinterest, Instagram, and Facebook. In How to Bullet Plan, BuzzFeed editor Rachel Wilkerson Miller tells you everything you need to know to start your own. **New Directions in Print Culture Studies** Jesse W. Schwartz, Daniel Worden, 2022-06-16 *New Directions in Print Culture Studies* features new methods and approaches to cultural and literary history that draw on periodicals, print culture, and material culture, thus revising and rewriting what we think we know about the aesthetic, cultural, and social history of transnational America. The unifying questions posed and answered in this book are methodological: How can we make material archival objects meaningful? How can we engage and contest dominant conceptions of aesthetic, historical, and literary periods? How can we present archival material in ways that make it accessible to other scholars and students? What theoretical commitments does a focus on material objects entail? *New Directions in Print Culture Studies* brings together leading scholars to address the methodological, historical, and theoretical commitments that emerge from studying how periodicals, books, images, and ideas circulated from the 19th century to the present. Reaching beyond national boundaries, the essays in this book focus on the different materials and archives we can use to rewrite literary history in ways that highlight not a canon of major literary works but instead the networks, dialogues, and tensions.
