Danah Abdulla,2025-01-23 How can we study and teach design in a way that is critical socially engaged and relevant to place In this timely book Danah Abdulla challenges us to imagine a design education and culture that moves beyond blindly borrowing Eurocentric models and frameworks Drawing on learnings from work with design students educators and designers in the Arab region with a particular focus on Jordan and featuring examples from Lebanon Egypt and the United Arab Emirates Abdulla creates a dialogue with those who have most at stake in education to imagine how we can develop a collaborative contextually based and socially relevant design education By first contextualising higher education and design education in the region and examining the issues and challenges that are pertinent to the development of curricula and pedagogy such as power bureaucracy language and access Abdulla considers the purpose and relevance of design education in contemporary postcolonial societies She explores how regional identities and class divisions shape the development of design cultures as well as different perceptions of design and its value Abdulla highlights design s role in society and the models of curricula and pedagogy appropriate for developing contextually situated design education Outlining skills and strategies for equipping future designers she proposes new possibilities for forms of practice and an actionable framework for developing design education **Developing Hospitality Properties and Facilities** Josef Ransley,Hadyn Ingram,Debra

Adams,2022-06-30 In light of the tumultuous global changes which have dramatically affected the hospitality business the third edition of Developing Hospitality Properties and Facilities provides insight into the reality of developing hospitality properties in challenging international contexts Since its successful first publication in 2000 and subsequent second edition in 2004 Developing Hospitality Properties and Facilities has sought to model and demystify the process of designing planning constructing and sustaining hospitality properties The third edition boasts an impressive array of academic and professional contributors from Europe North America South America Asia Africa and the Middle East and 12 case studies and issues concerning individual hotels and international regions and addressing issues of technology revenue management and fee

structures This edition recognizes that in order for the hospitality sector to overcome periodic problems such as global pandemics it is important to inform academic and professional readers so that they can ensure that future developments are sustainable environmentally friendly and resilient in the longer term Written for hospitality owners developers investors and managers and suitable for students this book aims to bridge the gap between generic and applied texts using a model based approach to clarify the process in an informed non technical way **The Report: Qatar 2015** Oxford Business Group,2015-04-22 Qatar's sizable oil and natural gas reserves have underpinned its rapid economic growth over the past two decades Home to the world's largest non associated gas field the country is the world's fourth largest producer of dry natural gas and the largest producer of liquefied natural gas with hydrocarbons revenues forming the bulk of national income as a result Although the drop in global energy prices has impacted export revenues rigorous economic diversification drives in recent years have paid dividends and in 2015 non hydrocarbons growth reached 7.7% compared to a 0.1% contraction for hydrocarbons growth during the same period The country's financial sector has continued to evolve Islamic banking in particular has witnessed significant progress Meanwhile as the country gears up to host several important sporting events in the coming years most notably the 2022 FIFA World Cup numerous big ticket infrastructure builds continue to expand the construction sector **Board of Contract Appeals Decisions** United States. Armed Services Board of Contract Appeals,1989 *The Middle East*,2001 **Design Tools for Evidence-Based Healthcare Design** Michael Phiri,2014-12-05 The growing movement towards evidence based healthcare design has largely emphasised a change of culture and attitudes It has advocated for new ways of working but until now it has not focused on equipping healthcare clients and their designers with the practical means to exploit the potential benefits from evidence based architectural design Development of indicators and tools that aid designers and users of the built environments in thinking about quality enhances the design process to achieve better outcomes Importantly design tools can support managers and designers through end user involvement and an increased understanding of what patients and staff expect from their healthcare facilities They can facilitate the creation of patient centred environments which improve user satisfaction Design Tools for Evidence Based Healthcare Design Discusses the tools that are being used to achieve design quality and excellence within the context of NHS procurement systems such as PFI Procure21 and others Collates information that increases our understanding of these tools in order to be able to make the best use of them Clarifies where during the various stages of a building's life from inception design construction occupation and re use these tools should be used in order to derive the benefits possible from evidence based design Provides in one place an authoritative reference publication that will act as a memory a user guide and manual for these design tools Illustrated with case studies from throughout the UK and written by a well known expert in the field this book will provide essential reading for anyone involved in healthcare design **The Report: Saudi Arabia 2014** Oxford Business Group,2014-08-18 Home to an estimated 15.9% of the world's proven oil reserves Saudi Arabia is the single

largest economy in the Middle East and North Africa According to the Ministry of Finance real GDP grew by 3.8% to 746bn in 2013 While oil income is expected to continue to account for the majority of government revenues for the foreseeable future the non oil sector has expanded significantly in recent decades growing 9.3% in 2013 Indeed while some Western countries may be seeing a return to cautious optimism and leading emerging economies are weighing the potential impact on capital flows of tapering in the US Federal Reserve's quantitative easing programme Saudi Arabia is seeing sustained growth buoyed by high global oil prices and internal investment in its own infrastructure Some 15 years after Saudi Arabia attended the inaugural meeting of G20 countries its key economic indicators make it the envy of many other member states Given the size of Saudi economy within the regional and indeed global market OBG looks in depth at bilateral trade between ASEAN nations and the GCC

Energy Efficient Building Design Ana-Maria Dabija, 2020-04-11 This book is the result of recent research that deals with the built environment and innovative materials carried out by specialists working in universities and centers of research in different professional fields architecture engineering physics and in an area that spans from the Mediterranean Sea to the Persian Gulf and from South Eastern Europe to the Middle East This book takes the necessity of reshaping the concept of building design in order to transform buildings from large scale energy consumers to energy savers and producers into consideration The book is organized in two parts theory and case studies For the theoretical part we chose from the wide range of sources that provide energy efficient materials and systems the two that seem to be endless the sun and vegetation Their use in building products represents a tool for specialists in the architectural design concept The case studies presented analyze different architectural programs in different climates from new buildings to rehabilitation approaches and from residential architecture to hospitals and sports arenas each case emphasizes the interdisciplinarity of the building design activity in order to help readers gain a better understanding of the complex approach needed for energy efficient building design

Optimal Design and Retrofit of Energy Efficient Buildings, Communities, and Urban Centers Moncef Krarti, 2018-03-27 Optimal Design and Retrofit of Energy Efficient Buildings Communities and Urban Centers presents current techniques and technologies for energy efficiency in buildings Cases introduce and demonstrate applications in both the design of new buildings and retrofit of existing structures The book begins with an introduction that includes energy consumption statistics building energy efficiency codes and standards and labels from around the world It then highlights the need for integrated and comprehensive energy analysis approaches Subsequent sections present an overview of advanced energy efficiency technologies for buildings including dynamic insulation materials phase change materials LED lighting and daylight controls Life Cycle Analysis and more This book provides researchers and professionals with a coherent set of tools and techniques for enhancing energy efficiency in new and existing buildings The case studies presented help practitioners implement the techniques and technologies in their own projects Introduces a holistic analysis approach to energy efficiency for buildings using the concept of energy productivity Provides coverage of individual buildings communities and urban centers Includes both the design of new buildings and retrofitting of existing structures to improve energy efficiency Describes state of the art energy efficiency technologies Presents several cases studies and examples that illustrate the analysis techniques and impact of energy efficiency technologies and controls

Sustainability, Energy and Architecture Ali Sayigh, 2013-09-25 This unique volume offers insights from renowned experts in energy efficient building from the world over providing a multi faceted overview of the state of the art in energy efficient architecture It opens by defining what constitutes a sustainable

building suggesting bases for sorely needed benchmarks then explains the most important techniques and tools available to engineers and architects exploring green building technologies It covers such pivotal issues as daylighting LED lighting integrating renewables such as solar thermal and cooling retrofitting LEED and similar certification efforts passive houses net zero and close zero structures water recycling and much more Highlighting best practices for commercial buildings and private homes in widely varied climates and within vastly different socio economic contexts this illustrated reference will guide architects and engineers in making sustainable choices in building materials and methods Explains the best methods and materials to support energy efficient building Features case studies by experts from a dozen countries demonstrating how sustainable architecture can be achieved in varied climates and economies Covers both new constructions and retrofitting of existing structures

Space Architecture Neil Leach, 2014-11-20 Forty years on from the first moon landing architecture in Space is entering a new era Over the last decade there has been a fundamental shift in the Space industry from short term pioneering expeditions to long term planning for colonisation and new ventures such as Space tourism Architects are now involved in designing the interiors of long term habitable structures in Space such as the International Space Station researching advanced robotic fabrication technologies for building structures on the Moon and Mars envisioning new space yachts for the super rich and building new facilities such as the Virgin Galactic Spaceport America in New Mexico designed by Foster Partners Meanwhile the mystique of Space remains as alluring as ever as high profile designers and educators such as Greg Lynn are running design studios drawing upon ever more inventive computational design techniques This issue of AD features the most significant current projects underway and highlights key areas of research in Space such as energy materials manufacture and robotics It also looks at how this research and investment in new technologies might transfer to terrestrial design and construction Space architects Constance Adams Marc Cohen Ondrej Doule Sandra Huplik Meusburger Scott Howe Brent Sherwood Madhu Thangavelu Andreas Vogler Robert Zubrin Architects Bevk Perovic Arhitekti Dekleva Gregoric Arhitekti Foster Partners Neil Leach Greg Lynn OFIS architects SADAR VUGA *Empathic Space*, 2014-11-19 In recent years questions of space have gained renewed momentum in architecture and urban design as adaptation densification and sustainable regeneration have become an increasing priority While most computing based design tends to emphasise the formal aspects of architecture overlooking space and its users the original computational design approaches first spearheaded in the UK in the 1960s and 1970s tended to be focused on behavioural and occupational patterns Over the last decade a new generation of design research has emerged that has started to implement and validate previous investigations into spatial computation aiming to understand how to design spatial configurations based on user experiences This revives an interest in the experiential that was first explored in the early 20th century by German and Nordic organic architects who invented design methods that correlated cognitive responses of buildings occupants to spatial structure The current revival of human centric design however represents the first design approach that synthesises

spatial design and algorithmic techniques with organic design thinking which could also be regarded as a return to the first principles of architectural design Contributors include Paul Coates Christian Derix Olafur Eliasson Lucy Helme Bill Hillier smund Izaki Prarthana Jagannath Dan Montello Juhani Pallasmaa Philip Steadman and Guy Theraulaz Featured Architects Designers Jussi Ngeslev Art Com Stan Allen Aedas R D Markus Braach Kaisersrot Hermann Hertzberger Kazuhiro Kojima Cat Pablo Miranda and Rafi Segal The Report: Bahrain 2013, 2013 **The Report: Dubai 2014** Oxford Business Group, 2014-01-28 In many respects 2014 marked the transition from strong recovery to promising growth for Dubai With many exciting projects in the pipeline not least the hosting of Expo 2020 the emirate is continuing to build on its reputation as a dynamic and international centre for business Already a regional and global centre for business and finance Dubai's reputation has been bolstered by the MSCI's decision to upgrade the UAE from frontier to emerging market status in 2014 while the emirate's successful Expo 2020 bid is expected to generate myriad opportunities for private investors across a range of sectors Construction is thriving once again driven in large part by strong retail sector growth with various projects including plans for the world's largest mall indicating that the sector will maintain its position as the emirate's biggest GDP contributor moving forward The transport and logistics framework is set for major expansion in the coming years as well further cementing the emirate's status as a leading transport and logistics hub not just regionally but globally too The continued development of Dubai's retail and hospitality offerings alongside the upgrades to its airports should help to ensure robust growth in visitor numbers from both the region and further afield **The Report: Qatar 2019** Oliver Cornock, Its relatively small population and status as the world's biggest gas exporter have helped Qatar become the richest country globally in terms of GDP per capita which stood at 72 700 at current prices in 2019 according to IMF estimates In recent years however the nation has faced strong economic headwinds from a drop in global energy prices to a diplomatic blockade
