**Civilizations and World Order** Fred Dallmayr, M. Akif Kayapinar, Ismail Yaylaci, 2014-09-24. *Civilizations and World Order: Geopolitics and Cultural Difference* examines the role of civilizations in the context of the existing and possible world orders from a cross-cultural and interdisciplinary perspective. Contributions seek to clarify the meaning of such complex and contested notions as civilization, order and world order; they do so by taking into account political, economic, cultural and philosophical dimensions of social life. The book deals with its main theme from three angles or vectors: first, the geopolitical or power-political context of civilizations; secondly, the different roles of civilizations or cultures against the backdrop of post-coloniality and Orientalism; and thirdly, the importance of ideological and regional differences as factors supporting or obstructing world orders. All in all, the different contributions demonstrate the impact of competing civilizational trajectories on the functioning or malfunctioning of contemporary world order.
