Why We Do What We Do Understanding Self Motivation:

Why We Do what We Do Edward L. Deci, Richard Flaste, 1995 Edward Deci one of the country's outstanding social psychologists writing with former New York Times science and health editor Richard Flaste offers some bad news and some good news Rewards and punishments do not make workers perform more effectively or students learn better or families function more smoothly that's the bad news Indeed it is the deadening of interest and commitment from too much control from overreliance on rewards and threats that keeps people from peak performance But the good news is that people have an innate energy interest and excitement about the world that can be encouraged and when they find greater satisfaction in what they do they are more effective Deci shows us how people work more efficiently learn more intelligently and treat each other better when their sense of autonomy is encouraged Give students the reasons why they need to learn something boring bring workers into the decision process whenever possible avoid the use of threats and amazing results will ensue because people are inherently interested in the world and they perform optimally when their autonomy is supported While this good news is a call for autonomy it is not a call for anarchy People need limits and structure but the way these are provided makes all the difference Reading this book will revolutionize the way we think about motivation and will give readers insight into what makes us tick BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Why We Do what We Do Edward L. Deci, 1996 You reward your children for doing their homework they will usually respond by getting it done But is this the most effective method of motivation No says psychologist Edward L Deci who challenges traditional thinking and shows that this method actually works against performance The best way to motivate people at school at work or at home is to support their sense of autonomy Explaining the reasons why a task is important and then allowing as much personal freedom as possible in carrying out the task will stimulate interest and commitment and is a much more effective approach than the standard system of reward and punishment We are all inherently interested in the world argues Deci so why not nurture that interest in each other Instead of asking How can I motivate people we should be asking How can I create the conditions within which people will motivate themselves Publisher information **Kinder brauchen Flügel, keine Helikopter!** Edlynn, Emily, LIEBER GL CKLICH ALS PERFEKT Wie können Eltern die Selbstständigkeit und das Selbstvertrauen ihrer Kinder fördern ohne selbst auszubrennen Oft neigen Eltern dazu in die Rolle der Helikopter Eltern zu schlüpfen indem sie jedes Problem ihrer Kinder lösen wollen Doch je mehr Kontrolle ausgeübt wird desto mehr fühlen sich die Kinder selbst außer Kontrolle Dies kann zu verschiedenen Problemen führen von Wutanfällen bei Kleinkindern bis hin zu einem erhöhten Risiko für Drogen und Alkoholkonsum in der Jugend Die erfahrene Psychologin Emily Edlynn hat eine bewährte Erziehungsmethode entwickelt um die Autonomie der Kinder zu fördern und gleichzeitig die Eltern zu entlasten Durch praktische Strategien die auf den Bedürfnissen nach Verbundenheit Kompetenz und Selbstständigkeit basieren können Eltern eine gesunde Balance finden Dieser Ansatz trägt dazu bei dass sich die Kinder wohler fühlen und im
