people of color the disabled and other marginalized groups are responsible for their own conditions Rejecting confidence culture's remaking of feminism along individualistic and neoliberal lines Orgad and Gill explore alternative articulations of feminism that go beyond the confidence imperative Road Trips Jen CK Jacobs, 2018-05-01 Be inspired to take your next adventure practical tips fresh ideas and stories to spark wanderlust There is no one way to road trip From introspective solo journeys to romantic weekend getaways friend filled excursions and more Road Trips presents eight stories that highlight different ways to explore the world Packed with photos and personal experiences this inspiring and practical book also has key tips for enhancing every part of your trip from getting out the door with essential tips on packing and eating on the road including recipes for car snacks to taking in new experiences with ideas for journaling and photographing and bringing memories from the road back home through creative collecting Road Trips is the perfect guide to inspire a life of travel Enrich your life deepen your relationships and discover the world around you it s all just a road trip away Multimodal Narratives Torsa Ghosal, Alison Gibbons, 2023 Fictionality and Multimodal Narratives interrogates the multimodal relationship between fictionality and factuality The contemporary discussion about fictionality coincides with an increase in anxiety regarding the categories of fact and fiction in popular culture and global media Today's media saturated historical moment and political climate give a sense of urgency to the concept of fictionality distinct from fiction specifically in relation to modes and media of discourse Torsa Ghosal and Alison Gibbons explicitly interrogate the relationship of fictionality with multimodal strategies of narrative construction in the present media ecology Contributors consider the ways narrative structures their reception and their theoretical frameworks in narratology are influenced and changed by media composition particularly new media By accounting for the relationship of multimodal composition with the ontological complexity of narrative worlds Fictionality and Multimodal Narratives fills a critical gap in contemporary narratology the discipline that has to date contributed most to the conceptualization of fictionality Dear World Kylie Cardell, 2014-12-03 Recent radical changes have altered the form and functions of the diary from the confession diaries of reality television how to diaries and graphic diaries to the published diaries of war correspondents the urgent personal writing of Arab women under conflict and The 7 Habits Of Highly Effective Teens Sean Covey, 2011-01-18 Over 3 million the daily online postings of sex bloggers copies sold Adapted from the New York Times bestseller The 7 Habits of Highly Effective People The 7 Habits of Highly Effective Teens is the ultimate teenage success guide now updated for the digital age Imagine you had a roadmap a step by step guide to help you get from where you are now to where you want to be in the future Your goals your dreams your plans they re all within reach You just need the tools to help you get there That s what Sean Covey s landmark book The 7 Habits of Highly Effective Teens has been to millions of teens a handbook to self esteem and success Now updated for the digital age this classic book applies the timeless principles of 7 Habits to the tough issues and life changing decisions teens face Covey provides a simple approach to help teens improve self image build friendships resist peer pressure achieve their goals and
