Government Translation in South Korea Jinsil Choi, 2022-04-26 Government Translation in South Korea A Corpus based Study is the first book to investigate and discuss translation processes and translation products in South Korean government institutions employing a parallel corpus based approach Choi identifies different agents and procedures involved in institutional translation practices discusses linguistic and genre features of translations and investigates changes made in translations compared to the original documents during the two Korean presidencies of Lee Myung bak 2008 2013 and Park Geun hye 2013 2017 Choi s book explores important facets of Korean government translation in the belief that practices associated with the normative meaning and concept of government translation have to be displaced into the wider understanding of the concept of translation as a social construct Drawing on the theoretical frameworks of institutional translation and critical discourse analysis informed corpus based translation studies the chapters discuss the practice process and products of Korean government translation The Korean English parallel corpus methodology used introduces a systemic way to analyse changes in Korean government translations based on a personally built sentence level tagged corpus both qualitatively and quantitatively This volume will be of great interest to scholars and students of translation studies as well as Korean studies

Nobel Prizes: Genes, Viruses And Cellular Signaling Erling Norrby, 2022-09-05 The present book discusses the Nobel Prizes in physiology or medicine from 1969 to 1971 The 1969 prize recognized Max Delbrück Alfred Hershey and Salvador Luria Their pioneering studies of viruses infecting bacteria

bacteriophages from the mid 1940s through the 1950s laid the foundation for the wide field of molecular biology The nature of the gene was finally understood Insights into the biochemistry of the critical information molecules the nucleic acids opened wide vistas for interpreting their expression and the interaction of their product with other gene products The contact between the endings of a nerve and a target cell the synapse has always stirred the imagination of scientists A number of the insights gained have been highlighted by Nobel Prizes in physiology or medicine In 1970 the prize recognized Bernard Katz Ulf von Euler and Julius Axelrod They had revealed how signaling substances in the nerve terminals were stored in packages released by membrane fusion and inactivated or reused by particular metabolic events The recipient of the 1971 Nobel Prize in physiology or medicine was a single scientist Earl Sutherland He had identified critical molecules in cells that allow signals elicited at their surface via a number of internal steps to influence the expression of specific genes in the nucleus The new kind of information transmitting molecules were referred to as secondary messengers They represent a critical part of a highly complex network of signaling controlling the operative conditions of the cell by adjustments of the so called intermediary metabolism The widening insights into functions of specialized cells and their complex interactions have led to the development of many kinds of remedies

Scrupulous, Thorough, Fearless: The CpiB Story Clement Liew, 2022-09-20 Scrupulous Thorough Fearless The CPIB Story chronicles the journey of the Corrupt Practices Investigation Bureau CPIB from its beginnings to the present The narrative contained within the pages of this book contextualises the role of the Bureau in Singapore's nation building journey The creation of the Bureau and its history and heritage are closely intertwined with the birth and history of Singapore It starts by providing an account of how corruption had become so prevalent in pre war Singapore The experiences of war characterised by extreme shortages hunger and privation provided further impetus for many to resort to corrupt ways to get what they needed and coveted in the post war period This Bureau was established to clean up the corruption of the day an endeavour which contributed to the birth of a strong nation whose people shared a common ethos of integrity Singapore's reputation for being corruption free has since been one of the pillars of the nation's economic success
