# What is Gnosticism?

- Gnosticism was a philosophical religion that reached the height of its popularity in the second and third centuries.
- Because it took a great variety of forms, scholars have found it difficult to define Gnosticism with any precision.
- Some prefer not to use the term at all.
- The question of its origin is equally complex. For some, Gnostic teachings can be traced to Judaism, others to Greek philosophy, and others to Egyptian religion and Persian Zoroastrianism.
  - Another source of Gnostic teaching was **Christianity**.
