What Is Philosophy Gilles Deleuze :

What is Philosophy? Gilles Deleuze, Félix Guattari, 1994 No Marketing Blurb Gilles Deleuze and the Question of Philosophy Philip Goodchild, 1996 In this book author Philip Goodchild tries to uncover the image of thought used by the French philosopher Gilles Deleuze He does so by focusing on the question What is philosophy posed implicitly throughout Deleuze's publications Goodchild traces the development of a highly sophisticated coherent and rigorous practice of thought that underlies Deleuze's apparently flamboyant and anarchic discourse This question of philosophy is posed in the context of an awareness of the historical social and cultural conditioning of a plurality of rationalities that bring into question the value of the philosophical enterprise as a whole Deleuze meets this problem by identifying something unthought and unthinkable that conditions the way in which people do in fact think and by directing philosophy toward this as its transcendental field Philosophy is no longer seen as an attempt to ascertain evaluate criticize or interpret knowledge or meaning but is seen as an exercise in creating concepts for use in the practical problems of life Ultimately Deleuze's philosophy constructs an affirmative and interactive kind of social relation which was embodied in his own intellectual relationship with Félix Guattari and which can form the basis for the organization of a new kind of society In conclusion this book examines Deleuze's deepest metaphysical presuppositions and finds that while a certain kind of materialism pervades Deleuze's thought the practice of that thought also presupposes a kind of metaphysics of creative awareness where planes lines and crystals are folded onto each other into a fractal of philosophy By rethinking the question of philosophy in Deleuze's thought one can be led to open up a new meaning of life in terms of the Transcendence of this awareness to that which it conditions The result is an escape from the dead ends of postmodern thought BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Deleuze and Guattari's 'What is Philosophy?'** Rex Butler, 2015-12-17 What is Philosophy is the last instalment of a remarkable twenty year collaboration between the philosopher Gilles Deleuze and the psychoanalyst Félix Guattari This hugely important text attempts to explain the terms of their collaboration and to define the activity of philosophy in which they have been engaged A major contribution to contemporary Continental philosophy it nevertheless remains distinctly challenging for readers faced for the first time with Deleuze and Guattari's unusual and somewhat allusive style This Reader's Guide offers a concise and accessible introduction to this hugely important and yet challenging work Written specifically to meet the needs of students coming to Deleuze and Guattari for the first time the book offers guidance on the philosophical and historical context of the text its reception and influence its key themes notes on reading the text and further reading suggestions **Nietzsche and Philosophy** Gilles Deleuze, 2006-05-10 Presents important accounts of Nietzsche's philosophy The author shows how Nietzsche began a new way of thinking which breaks with the dialectic as a method and escapes the confines of philosophy itself **What Philosophy Is** Havi Carel, David Gamez, 2004-05-10 What do we mean when we talk about philosophy today How does philosophy relate to science to politics

to literature What methods does the modern philosopher use and how does philosophy progress Does philosophy differ from place to place What can philosophy do for us And what can it not do This book with contributions from such exciting and influential contemporary philosophers as Simon Blackburn Michael Friedman Simon Critchley and Manuel DeLanda offers us a fascinating picture of the character and methods of philosophy its possibilities and its limitations And of course it is itself a piece of philosophy in action not merely offering us answers but also prompting us to ask further questions and to philosophise for ourselves

Literary Philosophers Jorge J. E. Gracia (ed), Carolyn Korsmeyer, Rodolphe Gasché, 2002 First published in 2002 Routledge is an imprint of Taylor Francis an informa company **Geophilosophy** Rodolphe Gasché, 2014 This book in the main consists of lectures that I first delivered in 2010 at the Collegium Phenomenologicum at Citta di Castello Italy and subsequently expanded for a three day seminar at the Universidad Diego Portales at Santiago Chile in 2011 In spring 2012 my graduate lecture course in the Department of Comparative Literature at the State University of New York at Buffalo was devoted to the subject geophilosophy It was on this occasion that I expanded the earlier lectures to the dimensions of the book in its present form **Gilles Deleuze's Luminous Philosophy** Hanjo Berressem, 2020-05-28

Engaging the whole body of Deleuze's work including less rehearsed texts such as *The Actual and the Virtual* *Lucretius and the Simulacrum* and his lectures on Spinoza Hanjo Berressem traces the line of light that runs through Deleuze's thought

The End of Philosophy of Religion Nick Trakakis, 2008-01-01 An expert examination of the analytic continental divide in the writing and study of philosophy of religion **Philosophical Horizons** Yang Guorong, 2019-01-28 Professor Yang Guorong is one of the foremost living philosophers in China and is widely known for the development of his concrete metaphysics In *Philosophical Horizons* Yang offers penetrating discussions of some of the most important issues in modern philosophy especially those topics related to comparative and Chinese philosophy Drawing freely and adroitly on Confucian Daoist and Buddhist texts while staging a dialogue with Western thinkers such as from Kant and Hegel to Marx Heidegger and Wittgenstein Yang shows how contemporary Chinese philosophy has adopted localized and critically developed Western ideas alongside traditional Chinese concepts **Philosophies of Difference** Francois Laruelle, 2010-01-01 A crucial text in

the development of Francois Laruelle's oeuvre and an excellent starting point for understanding his broader project *Philosophies of Difference* offers a theoretical and critical analysis of the philosophers of difference after Hegel and Nietzsche Laruelle then uses this analysis to introduce a new theoretical practice of non philosophical thought Rather than presenting a narrative historical overview Laruelle provides a series of rigorous critiques of the various interpretations of difference in Hegel Nietzsche and Deleuze Heidegger and Derrida From Laruelle's innovative theoretical perspective the forms of philosophical difference that emerge appear as variations upon a unique highly abstract structure of philosophical decision the self posing and self legitimating essence of philosophy itself Reconceived in terms of philosophical decision the seemingly radical concept of philosophical difference is shown to configure rather the identity of philosophy as such which

thus becomes manifest as a contingent and no longer absolute form of thinking The way is thereby opened for initiating a new form of thought anticipated here with the development of a key notion of non philosophy the Vision in One Gilles Deleuze: Affirmation in Philosophy J. Conway,2010-10-27 Why does knowledge of philosophy presuppose knowledge of reality What are the characters in Deleuze s theatre and philosophy How are his famous metaphysical distinctions secondary to the concept of philosophy as practice and politics These questions are answered through careful analysis and application of Deleuzian principles In Search of a New Image of Thought Gregg Lambert,2012 Gregg Lambert demonstrates that since the publication of Proust and Signs in 1964 Gilles Deleuze s search for a new means of philosophical expression became a central theme of all of his oeuvre including those written with psychoanalyst F lix Guattari Lambert like Deleuze calls this the image of thought Lambert s exploration begins with Deleuze s earliest exposition of the Proustian image of thought and then follows the tangled history of the image that runs through subsequent works such as Kafka Toward a Minor Literature The Rhizome which serves as an introduction to Deleuze s A Thousand Plateaus and several later writings from the 1980s collected in Essays Critical and Clinical Lambert shows how this topic underlies Deleuze s studies of modern cinema where the image of thought is predominant in the analysis of the cinematic image particularly in The Time Image Lambert finds it to be the fundamental concern of the brain proposed by Deleuze in the conclusion of What Is Philosophy By connecting the various appearances of the image of thought that permeate Deleuze s entire corpus Lambert reveals how thinking first assumes an image how the images of thought become identified with the problem of expression early in the works and how this issue turns into a primary motive for the more experimental works of philosophy written with Guattari The study traces a distinctly modern relationship between philosophy and non philosophy literature and cinema especially that has developed into a hallmark of the term Deleuzian However Lambert argues this aspect of the philosopher s vision has not been fully appreciated in terms of its significance for philosophy not only for today but to quote Nietzsche meaning also for tomorrow and for the day after tomorrow

A Reading of Gilles Deleuze's Logic of Sense Mehdi Parsa,2022-11-07 This is a reading of Gilles Deleuze s masterpiece Logic of Sense It provides a thorough and systematic reading of Deleuze s book by focusing on the aspects that are neglected in the existing literature Specifically the claim that Deleuze s Logic of Sense provides a convincing answer for the most important question of the history of philosophy regarding the relation between thought and existence as well as the relation between logic and ontology is defended The answer is that if thought is related to existence logic is supposed to be not the logic of essence but rather the logic of sense This analysis s pursued respectively through Deleuze s readings of Frege the ancient Stoics Lewis Carroll Kant Lautman Leibniz and Melanie Klein

Deleuze and Philosophy Keith Ansell-Pearson,Keith Ansell Pearson,2002-03-11 The work of Gilles Deleuze has had an impact far beyond philosophy He is among Foucault and Derrida as one of the most cited of all contemporary French thinkers Never a student of philosophy Deleuze was always philosophical and many influential poststructuralist and postmodernist texts can

be traced to his celebrated resurrection of Nietzsche against Hegel in his *Nietzsche and Philosophy* from which this collection draws its title This searching new collection considers Deleuze's relation to the philosophical tradition and beyond to the future of philosophy science and technology In addition to considering Deleuze's imaginative readings of classic figures such as Spinoza and Kant the essays also point to the meaning of Deleuze on monstrous and machinic thinking on philosophy and engineering on philosophy and biology on modern painting and literature Deleuze and Philosophy continues the spirit of experimentation and invention that features in Deleuze's work and will appeal to those studying across philosophy social theory literature and cultural studies who themselves are seeking new paradigms of thought

Macedonio Fernández: Between Literature, Philosophy, and the Avant-Garde Federico Fridman, 2022-01-13 At Macedonio Fernández's funeral in 1952 Jorge Luis Borges delivered the following elegy In those years I imitated him to the point of transcription to the point of devout and passionate plagiarism I felt Macedonio is metaphysics Macedonio is literature This is the first book available in English that collects essays by the world's leading scholars on Macedonio Fernández one of Borges's most important mentors and a still enigmatic thinker of the early 20th century Macedonio's philosophy metaphysics ethics and experimental writing laid the foundations for Borges's own theoretical and literary matrix Nonetheless Borges helped shape a myth of Macedonio as a thinker who could not translate his oratorical geniality into written intelligibility So despite the centrality of Macedonio to Borges's thought his work has remained almost unknown to English speaking readers Contributors to this volume demonstrate however that this myth reduces the complexities of Macedonio's life and creative process as each chapter shines new light on his texts Conceived as both a companion for new readers of Macedonio's writings and an invitation for specialists to revisit his work through new perspectives essays in this volume provide extensive background and bibliographical references as well as English translations of Macedonio's original texts This collection seeks to serve as a catalyst for the continued discovery and rediscovery of Macedonio Fernández's texts and the ways they might help us to rediscover the singularities of our own present moment

The Johns Hopkins Guide to Literary Theory and Criticism Michael Groden, Martin Kreiswirth, Imre Szeman, 2005 Publisher Description

In Praise of Philosophy Alain Badiou, 2025-04-08 What kind of philosophy do we need for the 21st century To answer to this question Alain Badiou imagines a dialogue between Toceras an earnest and engaging professor and various interlocutors from different countries and philosophical cultures John After from Britain Amantha from Greece Badiou from Senegal Xi La Pong from China and several others Their conversation takes readers on a playful journey through the history of philosophy framed by the five great questions that have preoccupied Alain Badiou democracy freedom universality language and being At the same time philosophy is presented not as a system or doctrine but as movement and dialogue The philosopher is not a solitary figure he is inseparable from his pupils his disciples and his adversaries It is only at the end of the journey that he arrives at the written stable forms of his work So we are dealing more with a play than a treatise more with dialogues than

monologues more with a course than a book The obvious model is Plato's Socrates who in founding philosophy as a discipline ensured that it could be established anywhere in the world In praise yes of philosophy as the public creation of a thought that inventing itself and transporting itself anywhere speaking to anyone about anything invents the theatricalization of being

Virgin Mary and the Neutrino Isabelle Stengers, 2023-09-22 In *Virgin Mary and the Neutrino* first published in French in 2006 and here appearing in English for the first time Isabelle Stengers experiments with the possibility of addressing modern practices not as a block but through their divergence from each other Drawing on thinkers ranging from John Dewey to Gilles Deleuze she develops what she calls an ecology of practices into a capacious and heterogeneous perspective that is inclusive of cultural and political forces but not reducible to them Stengers first advocates for an approach to sciences that would emphasize the way each should be situated by the kind of relationships demanded by what it attempts to address This approach turns away from the disabling scientific/nonscientific binary like the opposition between the neutrino and the Virgin Mary An ecology of practices instead stimulates an appetite for thinking reality not as an arbiter but as what we can relate to through the generation of diverging concerns and obligations
