Who Rules World Noam Chomsky :

Who Rules the World? Noam Chomsky, 2016-05-05 The essential account of geopolitics right now from one of our greatest living intellectuals including a new afterword on President Donald Trump Noam Chomsky philosopher political writer fearless activist No one has done more to question the hidden actors who govern our lives calling the powers that be to account Here he presents Who Rules the World his definitive account of those powers how they work and why we should be questioning them From the dark history of the US and Cuba to China's global rise from torture memos to sanctions on Iran this book investigates the defining issues of our times and exposes the hypocrisy at the heart of America's policies and actions The world's political and financial elite are now operating almost totally unconstrained by the so called democratic structure With climate change and nuclear proliferation threatening our very survival dissenting voices have never been more necessary Fiercely outspoken and rigorously argued Who Rules the World is an indispensable guide to how things really are

Die Erfindung der bedrohten Republik David Goeßmann, 2019-02-12 Scheindebatte Flüchtlingskrise Wie Politik und Medien eine Notstandssituation inszenieren Die Flüchtlingskrise von 2015 war in Wahrheit der Ausgangspunkt einer gewaltigen Medien und Politikkrise Mit medialen Fehldarstellungen Verzerrungen manipulierten Debatten und ideologischer Einflussnahme wurden die Deutschen in die Irre geführt Das begann mit der tendenziösen Polit PR Show rund um den Willkommenssommer 2015 Spätestens das sich unmittelbar anschließen Sodom und Gomorrha der Kölner Silvesternacht lie Medien und Politik eine 180 Grad Wende vollziehen Das war der Beginn eines Rechtsrucks wie ihn die Bundesrepublik noch nicht erlebt hatte Das Volk wurde von nun an mit zahlreichen Erzählungen vom kriminellen Flüchtling dem besorgten Bürger dem Kartell des Schweigens in der Politik und der vermeintlichen Alternativlosigkeit der europäischen Abschottung behelligt Dabei ist jede für sich ein Armutszeugnis bundesdeutscher Medienkultur Ihre Orientierungslosigkeit Wankelmut und Hysterie haben die Medien allerdings mit der Flüchtlings und Sicherheitspolitik der Bundesregierung gemeinsam Diese reagiert indem sie enorme Kapazitäten in Terrorabwehr und Grenzsicherung steckt anstatt sich den wahren Problemen dieses Landes zu widmen Ihr Realitätsferne zu attestieren scheint noch untertrieben David Goeßmann deckt in seinem investigativen Sachbuch Die Erfindung der bedrohten Republik auf wie innerhalb kurzer Zeit gegenseitliche mediale Konstruktionen von kollektiver spontaner Humanität und einer inneren Notstandssituation von der Politik fraglos übernommen wurden Am Anfang standen die Flüchtlinge und am Ende unsere beschädigte Demokratie

Empires in World History Niv Horesh, 2021-06-01 This study focuses on Empires from an economic historical perspective In doing so it relates current debates in international relations IR and politics to the vexed legacy of empires in the past The book includes analyses of the comparative scholarly literature on Empire in Antiquity and Empire in the Early Modern and Modern Ages asking the question if the United States is an Empire and if China an emerging Empire It contributes to the field given its interdisciplinarity bringing together both historical and IR insights into world systems in times past In addition it draws out

four key points of separateness between pre modern and modern empires and emphasizes specific economic data Further to that the book advances the notion of the emergence of empires from within in the 21st century that is nation states becoming more multi ethnic while often stepping back from globalization And finally it offers future scenarios for the evolution of empires in a Schumpeterian post industrial world

Sites of Genocide Adam Jones,2022-05-17 Genocide may be the most powerful word in the English language What is the significance and relevance of this formative concept today In an extraordinarily wide ranging collection of essays and interviews Adam Jones one of the world s leading genocide scholars explores the uses and controversies surrounding the term that Raphael Lemkin coined during the Second World War to describe and prohibit mass atrocities against defined human groups In a style that is learned but always accessible and engaging Jones addresses key historical and contemporary issues such as What were the motivations and proclaimed justifications for genocide in the long nineteenth century that shaped our modern world How can humanitarian interventions in genocide avoid sliding into new imperialism What are the connections between religion and genocide How can the gender variable in genocide perpetration and victimization be understood A wide range of historical and contemporary genocides and crimes against humanity from the eighteenth century slave rebellion in Haiti to Myanmar s destruction of the Rohingya and to the forms of structural and systemic violence that Jones argues should be encompassed by any global historical understanding of genocide Sites of Genocide is illustrated with photos from Jones s own collection and other sources It will be of interest to all students and scholars of human rights and for general readers seeking a point of entry to the rich and provocative debates in comparative genocide studies

Dying for Capitalism Charles Derber,Suren Moodliar,2023-07-24 This is an original accessible book for scholars students activists and the general public on the greatest crisis the world has faced The authors challenge the widespread notion that a green and peaceful set of technological reforms in the current economic and political system perhaps a green capitalism can prevent disaster Dying for Capitalism analyzes the triangle of extinction that links capitalism environmental destruction and militarism as a system that cannot sustain life on the planet The authors analyze how the extinction triangle evolved historically how it functions globally as integral to the world capitalist order and how the United States has become the dominant extinction nation They also show how recent anti democratic and anti scientific cultural and political forces intensify denial of the threat and subordinate health and survival to profit and extreme concentrated power The book offers a slender path of social and political transformation that can prevent catastrophe The path requires moving beyond current ruling systems But possibilities of survival arise from action at local state regional and global levels through multiple strategies and movements that already exist The authors draw on the history of abolitionism and emancipation from slavery in the United States to show how a system that appears unchangeable can be transformed while describing organizations movements and practices that are models of hope and a shift from the triangle of extinction to the circle of creation

Cultures of Counterproliferation Raphael BenLevi,2023-10-20 This book

argues that the nature of counterproliferation strengthens the effect of cultural factors in policy choices and illustrates this by focusing on US and Israeli policy toward the Iranian nuclear program The United States and Israel have been the two states most active in opposing Iran's nuclear ambitions however the respective strategies of each of these states have changed repeatedly This book explores how competing cultural schools of thought on grand strategy within each state inform and shape the key policy decisions in their attempts to prevent a nuclear Iran Drawing on numerous interviews conducted with former high level officials in each country as well as published memoirs this book first describes in detail the belief systems of the competing schools and then analyses the internal debates and key decisions on policy toward the Iranian Nuclear Program while critically assessing the extent to which these beliefs influenced policy in the face of material structural pressures This in depth analysis of the internal debates and dilemmas within the national leadership of the two states most prominent in the effort to prevent a nuclear Iran constitutes an indispensable guide for scholars and policymakers who will inevitably face similar dilemmas in dealing with this ongoing challenge and additional cases of nuclear proliferation around the world This book will be of much interest to students of nuclear proliferation US and Israeli foreign policy Middle Eastern politics and IR in general *The Dangerous Case of Donald Trump* Bandy X. Lee, 2019-03-19 As this bestseller predicted Trump has only grown more erratic and dangerous as the pressures on him mount This new edition includes new essays bringing the book up to date because this is still not normal Originally released in fall 2017 *The Dangerous Case of Donald Trump* was a runaway bestseller Alarmed Americans and international onlookers wanted to know What is wrong with him That question still plagues us The Trump administration has proven as chaotic and destructive as its opponents feared and the man at the center of it all remains a cipher Constrained by the APA's Goldwater rule which inhibits mental health professionals from diagnosing public figures they have not personally examined many of those qualified to weigh in on the issue have shied away from discussing it at all The public has thus been left to wonder whether he is mad bad or both The prestigious mental health experts who have contributed to the revised and updated version of *The Dangerous Case of Donald Trump* argue that their moral and civic duty to warn supersedes professional neutrality Whatever affects him affects the nation From the trauma people have experienced under the Trump administration to the cult like characteristics of his followers he has created unprecedented mental health consequences across our nation and beyond With eight new essays about one hundred pages of new material this edition will cover the dangerous ramifications of Trump's unnatural state It's not all in our heads It's in his **Misunderstanding International Relations** Scott Burchill, 2020-02-05 This book examines the ways in which the study and practice of international relations are misunderstood both by scholars and politicians It begins by examining critical errors in reasoning and argument which determine the way key issues in the field are discussed and explained It then explores a number of case studies which are affected by these errors including the legal status of the modern nation state the Israel Palestine conflict the idea of the Deep State the relationship between the West

and radical Islam the impact of moral righteousness on historical understanding and the role of class in modern Western politics

Crisis and Commonwealth Charles Reitz, 2013-08-29 Crisis and Commonwealth Marcuse Marx McLaren advances Marcuse scholarship by presenting four hitherto untranslated and unpublished manuscripts by Herbert Marcuse from the Frankfurt University Archive on themes of economic value theory socialism and humanism Contributors to this edited collection notably Peter Marcuse Henry Giroux Peter McLaren Zvi Tauber Arnold L Farr and editor Charles Reitz are deeply engaged with the foundational theories of Marcuse and Marx with regard to a future of freedom equality and justice Douglas Dowd furnishes the critical historical context with regard to U S foreign and domestic policy particularly its features of economic imperialism and militarism Reitz draws these elements together to show that the writings by Herbert Marcuse and these formidable authors can ably assist a global movement toward intercultural commonwealth The collection extends the critical theories of Marcuse and Marx to an analysis of the intensifying inequalities symptomatic of our current economic distress It presents a collection of essays by radical scholars working in the public interest to develop a critical analysis of recent global economic dislocations Reitz presents a new foundation for emancipatory practice a labor theory of ethics and commonwealth and the collection breaks new ground by constructing a critical theory of wealth and work A central focus is building a new critical vision for labor including academic labor Lessons are drawn to inform transformative political action as well as the practice of a critical multicultural pedagogy supporting a new manifesto for radical educators contributed by Peter McLaren The collection is intended especially to appeal to contemporary interests of college students and teachers in several interrelated social science disciplines sociology social problems economics ethics business ethics labor education history political philosophy multicultural education and critical pedagogy

Energy and US Foreign Policy Ahmed Mahdi, 2012-01-30 The quest for oil can be seen as a defining principle of global US foreign policy an imperative which has shaped and redefined the practice of American diplomacy especially in the wake of 9 11 which raised questions about the stability of global oil resources In Energy and US Foreign Policy Ahmed Mahdi relates the military expansion of the world's biggest superpower to its quest to gain guaranteed and secure access to the world's most important commodity Examining the foreign policy of George Bush Sr Bill Clinton and George W Bush culminating in the unprecedented military campaigns of the latter Mahdi demonstrates how and why oil has played a central role in US relations with the wider world By dissecting the failures of the US to secure its own economic and energy interests and by demonstrating the devastating impact this has had on the rest of the world especially in the Middle East Mahdi offers vital analysis for researchers and students of International Relations Diplomacy Security and Energy Studies

Until Our Lungs Give Out George Yancy, 2023-09-15 A 2023 Library Journal Best Social Sciences Title From Library Journal's Starred Review All readers stand to learn something from this compelling book Award winning author scholar and social visionary George Yancy brings together the greatest minds of our time to speak truth to power and welcome everyone into a conversation about the pursuit of justice equality and

peace This interwoven collection of searingly honest interviews with leading intellectuals includes conversations with Noam Chomsky Judith Butler Cornel West Robin D G Kelley and Peter McLaren Each conversation bears witness to the weighty moment in which it was first conducted and presented by Truthout and Tikkun magazines while pointing to ramifications future hurdles and practical optimism for moving forward Learning how to speak about such topics as white supremacy and global whiteness xenophobia anti BIPOC racism fear of critical race theory and the importance of Black feminist and trans perspectives readers will be better able to join future conversations with their peers those in power and those who need to be empowered to change the status quo *American Foreign Policy Since WWII 19th Edition* Steven W. Hook, John Spanier, 2013 Allowing students to truly grasp the functions and frequent dysfunctions of America's foreign policy agenda this book has long set the standard in guiding students through the complexities of the field **Hemispheric Security And U.S. Policy In Latin America** Augusto Varas, 2019-04-11 This book analyzes the evolution of inter American security relations in recent decades providing a variety of views on these topics from the United States and Latin America It includes an analysis of regional security interactions around Central America the Caribbean and South America **Barack Obama and the Future of American Politics** Paul Street, 2015-12-22 Many Americans believe Barak Obama represents a hopeful future for America But does he also reflect the American politics of the past This book offers the broadest and best informed understanding on the meaning of the Obama phenomenon to date Paul Street was on the ground throughout the Iowa campaign and his stories of the rising Obama phenomenon are poignant Yet the author's background in American political history allows him to explore the deeper meanings of Obama's remarkable political career He looks at Obama in relation to contemporary issues of class race war and empire He considers Obama in the context of our nation's political history with comparisons to FDR JFK Bill Clinton and other leaders Street finds that the Obama persona crafted by campaign consultants and filtered through dominant media trends masks the change candidate's adherence to long prevailing power structures and party doctrines He shows how American political culture has produced misperceptions by the electorate of Obama's positions and values Obama is no magical exception to the narrow spectrum electoral system and ideological culture that have done so much to define and limit the American political tradition Yet the author suggests key ways in which Obama potentially advances democratic transformation Street makes recommendations on how citizens can productively respond to and act upon Obama's influence and the broader historical and social forces that have produced his celebrity and relevance He also lays out a real agenda for change for the new presidential administration one that addresses the recent failures of democratic politics [They Rule](#) Paul Street, 2015-11-17 *They Rule* reflects on key political questions raised by the Occupy movement showing how similar questions have been raised by previous generations of radical activists who really owns and rules the US Does it matter that the nation is divided by stark class disparities and a concentration of wealth in the hands of a few Along the way this book sharpens readers sense of who the US oligarchy are including how their fortunes have changed over

the course of US history how they live and think and how to detect and de cloak them They Rule is a masterful historical and political analysis revealing what lies beneath the surface of US society and what ordinary people can do to bring about social change

War and Business Georg von Goldbach,2024-08-14 CONTENT OF THE BOOK This book will encourage readers to let go of illusions and say goodbye to deceptions The main illusion and deception we often indulge in on a global scale is to believe that much of what happens on a global political and economic level is due to chance We often think that many of the armed conflicts and events in which the U S is involved or engaged are to its detriment and harm it This may be the case in the long term In the short and medium term however the United States with all the wars and conflicts it has initiated and waged globally since centuries has always pursued its economic and geopolitical interests in a very targeted manner and has obviously achieved them to a considerable extent This can be seen in its globally dominant role over the past century It s like in a casino where they use to say that the bank always wins This short book shows why this is the case and how the mechanisms that have ensured the dominant role of the USA are functioning effectively

Globalization, Environmental Law, and Sustainable Development in the Global South Kirk W. Junker,Paolo Davide Farah,2021-11-29 This volume examines the impact of globalization on international environmental law and the implementation of sustainable development in the Global South Comprising contributions from lawyers from the Global South or who have experience in the Global South this volume is organized into three parts with a thematic inquiry woven through every chapter to ask how law can enable economies that can be sustained given the limited carrying capacity of the earth Part I describes and characterizes the status quo of environmental and economic problems in the Global South during the process of globalization Some of those problems include redistribution of environmental burden on the public through over reliance on the state in emerging economies and the transition to public private partnerships as well as extreme uncontrolled economic expansion Building on Part I Part II takes an international perspective by presenting some tools that are in place during the process of globalization that lead to friction and interfaces between developed and developing economies in environmental law Recognizing the impossibility of a globalized Northern economy the authors in Part III present some alternatives through framework ideas of human and civil rights environmental rights and indigenous persons rights as well as concrete and specific legal tools to strengthen justice and rule of law institutions The book gives new perspectives to familiar approaches through concrete examples by professional practitioners and theoretical discourse by academic researchers and can thereby form the basis for changes in practices as well as further discussions and comparisons This book will be of great interest to students and scholars of environmental law sustainable development and globalization and international relations as well as legal professionals and practitioners

The Political Economy of Dissent Peter Blunt,Cecilia Escobar,Vlassis Missos,2025-10-22 In 2020 Noam Chomsky asserted that the time to panic about the existential threats posed by nuclear war

global warming and the stifling of informed debate in supposedly open and democratic societies was upon us and that it was the duty of concerned citizens to act accordingly Hastened by the lingering aftermath of the 2008 financial crisis the COVID 19 pandemic the proxy war in Ukraine the decline of US economic hegemony and increasing hostility between the US and China he concluded in early 2023 that unless the US could be persuaded to cooperate with its declared adversaries and capitalism could be overthrown or defanged there was little hope for survival The authors of this book argue that achieving these ends will depend greatly on effective individual and collective worldwide dissent The book analyses and exemplifies dissent in the main domains of institutionalised capitalist control and the manufacture of uninformed consent namely political economy education the media and IT work and trade unions the commons and communities and culture And thereby gives voice and hope to the downtrodden and marginalised including indigenous peoples and those of the global south It provides an uplifting counter to the otherwise seemingly overwhelming expression of uninformed consent one that will inspire by example and be an antidote to the fear and defeatism instilled by capitalist intransigence indoctrination and control The book is addressed to students scholars and researchers primarily but its breadth of coverage authenticity and plain writing style will appeal to activists community organisers and concerned citizens both in industrialised countries and the global south
