Why Beautiful People Have More Daughters From Dating Shopping And Praying To Going To War And Becoming A Billionaire:

Why Beautiful People Have More Daughters Alan Miller, Satoshi Kanazawa, 2007-09-04 Now available in paperback a provocative new look at biology evolution and human behavior as disturbing as it is fascinating Publishers Weekly Why are most neurosurgeons male and most kindergarten teachers female Why aren't there more women on death row Why do so many male politicians ruin their careers with sex scandals Why and how do we really fall in love This engaging book uses the latest research from the field of evolutionary psychology to shed light on why we do the things we do from life plans to everyday decisions With a healthy disregard for political correctness Miller and Kanazawa reexamine the fact that our brains and bodies are hardwired to carry out an evolutionary mission an inescapable human nature that actually stopped evolving about 10 000 years ago

Warum am Ende des Geldes noch so viel Monat übrig ist Friedhelm Schwarz, Ruth Schwarz, 2013-05-13 Die große Irrt mer im Umgang mit Geld Im Shopping Center einen klaren Kopf zu behalten ist beinahe unmöglich Zu vielfältig die Verlockungen zu berechnen unser Verhalten Friedhelm und Ruth Schwarz beschreiben die häufigsten Denkfehler im Umgang mit Geld und liefern verhaltenspsychologische Erklärungen für Frustklüffe und andere kostspielige Irrt mer Unterhaltsam und mit konomischem Know how zeigen sie wie man zu seinem eigenen erfolgreichen Geldmanager wird Wer kennt das nicht Man sieht es man kauft es und hinterher regert man sich darüber unnötig Geld ausgegeben zu haben Geschickte Marketingexperten nutzen die Schwachstellen des Gehirns rigoros aus um Kunden in die Konsumfalle zu locken Hier hilft nur besseres Wissen Friedhelm und Ruth Schwarz beschreiben anschaulich wie wir uns bei Geldthemen statt von Vernunft von Emotionen leiten lassen und erklären u a warum wir leichter fünf Zwanziger ausgeben als einen Hunderter Anhand vieler Alltagsbeispiele und verblüffender Selbsterkenntnisse sensibilisieren sie die Leser für unbewusste Verhaltensweisen Damit wir die Kontrolle über uns und unser Geld zurückerlangen und am Ende des Monats endlich mehr Geld übrig ist

How to Be Cross Eyed Jonathan Roseland, 2019-01-01 There's that moment when you meet a new person and you can tell that they are just a bit disoriented by your weirdness You feel that familiar little pang of embarrassment and shame because you know how weird you must look to them You're physically imperfect So am I I know that moment as well as you do But you don't have to be cross eyed or have a conspicuous physical imperfection to enjoy this book Really thriving requires an uncommon set of barely legal Biohacking tools social dynamics strategies from the fringes of polite society and rapid mindset transformation technologies which this lifehacking manifesto delves deeply into This book is especially for that one or two percent of the population who have a glaring physical defect Which I fall into I'm cross eyed with Strabismus if you're reading this perhaps you are too There are certainly people out there with more conspicuous physical imperfections who have it worse than I do However the eyes are the window to the soul they really are a part of nearly every important human interaction Not having normal eyes has been a disadvantage that I've needed to develop a

specific set of skills and life strategies to overcome I was talking to my lovely fianc e about this book and she asked me if the purpose of the book was to help the self esteem of people with physical imperfections Not really This book is more about the lifehacks that I ve employed over the past 10 years strategies methods and tools that really work to help you overcome the challenge of a physical imperfection and thrive These things will likely improve your self esteem but they will also work if you have low self esteem or no self esteem or too much self esteem as I m sometimes accused of having Self esteem is not my focus My focus is on things that work This is not your typical self help book I ve had a pretty interesting life I ve seduced a politician s daughter in Medellin Colombia and I hung out with spies in Kyiv Ukraine I ve almost died underwater twice I participated in a bank robbery and I lost my virginity to a spy yes really From having sex in a brand new Maserati and getting in high speed car chases to being deported from South American countries and representing the US Presidential candidate Donald J Trump I ve found the happiness that I didn t give a damn about and realized my dream of becoming an adventuring philosopher I m not a theorist in the business of making generalizations The tactics and tools presented here are for rigorous practitioners ethical hedonists and open minded self experimenters I may sound like quite the pompous pontificator but I ll offer no apologies because storytelling is the best way to impart the unconventional mindset that saved me from mediocrity and the biohacks that enabled me to defy my selfish genes If you re bored of the tired problem generalization platitude strategy formula that most self help books follow you ll enjoy this memoir of adventures failures and unexpected successes across three continents I ll share with you some powerful tools for transformation biohacking smart drugs flowstate red pill mindset and more with which I ve managed to pack several lifetimes worth of peak experiences into a single decade

[The Age of Scientific Sexism](#) Mari Ruti, 2015-07-30 We trust our sciences to operate on a plane of objectivity and fact in a world of subjectivity and cultural ideologies but should we In The Age of Scientific Sexism philosopher Mari Ruti offers a sharp critique of the gender profiling tendencies of evolutionary psychology untangling the insidious threads of various gender mythologies that have infiltrated or perhaps even define this faux science Selling stereotypes as scientific facts evolutionary psychology continually brings retrograde models of sexuality into mainstream culture it insists that men and women live in two completely different psychological emotional and sexual universes and that they will consequently always be locked in a vicious battle of the sexes Among these regressive arguments is the assumption that men s sexuality is urgent and indiscriminate whereas women are naturally reluctant reticent and choosy a concept constructed to justify masculine behavior such as cheating that women have historically found painful On its most basic level The Age of Scientific Sexism explores our impulse to explain romantic behavior through science in the increasingly egalitarian gender landscape of our society why are we so eager to embrace the rampant gender profiling that evolutionary psychology promotes Perhaps these simplistic gender caricatures owe their popularity at least in part to our overly pragmatic society pragmatic society which encourages us to search for easy answers to complex questions

We Can Do Better David

Camfield,2017-09-18T00:00:00Z The view that capitalism is an inherently flawed exploitative crisis prone oppressive system is not new But neoliberal capitalism s flaws are increasingly dangerous in Western countries and globally as corporations exert growing influence on governments as the endless pursuit of profits pushes our climate to the breaking point and as far right politics dominate the media Solutions are needed Fast In We Can Do Better David Camfield lays out a theoretical basis for political and social change that fuses critical Marxism with insights from anti racist queer feminism This reconstructed historical materialism treats capitalism and class as inextricably interwoven with gender race and sexuality After discussing today s most influential social theories Camfield uses this theory to analyze a range of issues that face our world today including climate change growing social insecurity and the persistence of sexism and racism Camfield argues that the key to achieving change for the better is social struggle and he offers ideas about moving from social theory to social action

Behaviour John Cartwright,2017-09-16 Our experience of the world is driven by processes common to all animals growth survival reproduction and death Evolution and Human Behaviour explores the complexities of the human experience through the lens of Darwinism drawing on a long and vibrant tradition of different theories and interpretations This textbook offers a compelling synthesis of key concepts addressing human thought feeling and behaviour in fundamental evolutionary terms This is a essential text for undergraduate students taking courses in psychology human biology ethology anthropology and human behavioural ecology providing an insightful and comprehensive introduction for anyone who wishes to understand how human behaviour has evolved new_to_this_edition Additional chapters on health and disease homosexuality the nature of adaptations and life history theory Includes brand new material on epigenetics patterns of crime error management theory moral foundations theory religion and gene culture co evolution Now accompanied by a companion website offering additional reading material and useful practice questions New controversy boxes in each chapter providing ideas for essay topics and classroom discussion Emotional Excess on the Shakespearean Stage Bridget Escolme,2013-12-16 Emotional Excess on the Shakespearean Stage demonstrates the links made between excess of emotion and madness in the early

modern period It argues that the ways in which today's popular and theatrical cultures judge how much is too much can distort our understanding of early modern drama and theatre It argues that permitting the excesses of the early modern drama onto the contemporary stage might free actors and audiences alike from assumptions that in order to engage with the drama of the past its characters must be just like us The book deals with characters in the plays of Shakespeare and his contemporaries who are sad for too long or angry to the point of irrationality people who laugh when they shouldn't or make their audiences do so people whose selfhood has broken down into an excess of fragmentary extremes and who are labelled mad It is about moments in the theatre when excessive emotion is rewarded and applauded and about moments when the expression of emotion is in excess of what is socially acceptable embarrassing shameful unsettling or insane The book explores the broader cultures of emotion that produce these theatrical moments and the theatre's role in regulating and extending the acceptable expression of emotion It is concerned with the acting of excessive emotion and with acting emotion excessively And it asks how these excesses are produced or erased give pleasure or pain in versions of early modern drama in theatre film and television today Plays discussed include Hamlet Romeo and Juliet The Spanish Tragedy Twelfth Night Much Ado About Nothing Measure for Measure and Coriolanus

Cognitive Investing

Rich Willis, 2011-03-03 Investors ask the wrong questions Will the stock market rise or fall in the next month What is the best place to put my money right now Will interest rates rise or fall Will the economy improve or get worse What will be the best performing stock during the next year The problem with all of these questions is that the answers are unknowable and will always be so Dwelling on the unknowable is a fruitless quest that will not bring investors any closer to achieving long term financial goals Our fundamental problem is that we are using the wrong part of the brain Cognitive Investing explains how to make investment decisions using the portion of the brain better suited for the task and answers the questions investors should be asking What is the relationship between the economy and the stock market What is the difference between investing and gambling Why is selling much more difficult than buying How important is diversification Why do natural psychological urges lead us to make poor investing decisions Understanding the answers to these and many more essential

questions will profoundly and fundamentally transform the way you approach investing Monkeys On Our Backs Richard Tokumei, 2011-03-16 Why the Left should disavow The Theory of Evolution and the Right should love it Command+I WOT WOW, Restoring the Human Context to Literary and Performance Studies Howard Mancing, Jennifer Marston William, 2022-01-28 Restoring the Human Context to Literary and Performance Studies argues that much of contemporary literary theory is still predicated at least implicitly on outdated linguistic and psychological models such as post structuralism psychoanalysis and behaviorism which significantly contradict current dominant scientific views By contrast this monograph promotes an alternative paradigm for literary studies namely Contextualism and in so doing highlights the similarities and differences among the sometimes conflicting contemporary cognitive approaches to literature and performance arguing not in favor of one over the other but for Contextualism as their common ground **Tools for Critical Thinking in Biology** Stephen H. Jenkins, 2015 Featuring a new approach to an undergraduate biology text Tools for Critical Thinking in Biology emphasizes and is organized around methods and different ways of experimentation rather than around biological topics The result is a book that teaches new biology students to think critically about a wide range biological questions and subjects

The Freedom of Peaceful Action Stuart K. Hayashi, 2014-04-23 The Freedom of Peaceful Action is the first installment of the trilogy The Nature of Liberty which makes an ethical philosophic case for individual liberty and the free market against calls for greater government regulation and control The trilogy makes a purely secular and nonreligious ethical case for the individual's rights to life liberty private property and the pursuit of happiness as championed by the U S Founding Fathers Inspired by such philosophic defenders of free enterprise as John Locke Herbert Spencer and Ayn Rand The Nature of Liberty shows that such individual rights are not imaginary or simply assertions but are institutions of great practical value making prosperity and happiness possible to the degree that society recognizes them The trilogy demonstrates the beneficence of the individual rights approach by citing important findings in the emerging science of evolutionary psychology Although the conclusions of evolutionary psychology have been long considered to be at odds with the philosophies of individual liberty and free markets The Nature of Liberty presents a reconciliation that reveals their ultimate compatibility as various important findings of evolutionary psychology being logically applied confirm much of what philosophic defenders of liberty have been saying for centuries Moreover proceeding from the viewpoint of Rand this work argues that the structure of society most conducive to practical human well being is commensurately the most moral and humane approach as well The trilogy's first installment The Freedom of Peaceful Action focuses on the secular philosophic foundation for a society based on individual rights Starting from a defense of the efficacy of observational reason against criticisms from Immanuel Kant and Karl Popper it demonstrates how a philosophic position of individual liberty and free markets is the logical result of the consistent application of human reason to observing human nature This installment demonstrates that any political system that wishes for its citizens to thrive must take human nature into account and that an accounting of human nature reveals

that a system of maximum liberty and property protection is the one most conducive to peace and human well being **Red Genes, Blue Genes** Guillermo Jiménez, 2009 Modern science postulates that our political predispositions can be traced to our genes To some extent there is such a thing as red state or blue state DNA Our brains likewise bear the evolutionary imprint of hundreds of thousands of years of political wiring for biased partisanship The result is a political landscape characterized by irrationality and hostility Americans today like citizens of many other countries find themselves trapped in hostile red vs blue political warfare While liberals and conservatives fight each other for power and influence the world's problems go unsolved Using recent scientific evidence from neuroscience behavioral genetics and evolutionary and cognitive psychology **Red Genes Blue Genes** is the first book to take a comprehensive look at the phenomenon of political irrationality This book seeks to unravel a number of political mysteries Why does it seem that liberals and conservatives are different kinds of people Why are political arguments so hostile and impervious to reason Why are partisans and political figures so certain they are right all the time Why are citizens everywhere unsatisfied with democratic systems of government Why are political campaigns so shallow vicious and manipulative This book provides answers to the above questions showing how understanding political irrationality may enable us to devise new systems of government that are truly democratic Book jacket Chicago Tribune Index, 2007 **Capital erótico** Catherine Hakim, 2013-07-12 Em 2010 ao desvendar um atributo pessoal que foi ignorado pelo meio científico durante décadas Catherine Hakim desenvolveu uma ousada teoria a de que pessoas que possuem capital erótico a mistura de charme elegância beleza e sex appeal deveriam usá-lo sem ressalvas para avançar na vida e na carreira Neste livro a autora explora as aplicações e a importância de sua descoberta desafiando o estigma social dado aqueles que o utilizam no ambiente de trabalho Ao compilar pesquisas de influentes organizações Hakim comprova que o capital erótico é uma ferramenta poderosa especialmente para as mulheres pois elas podem usar sua beleza natural para firmar seu lugar no mercado de trabalho e assim diminuir o abismo que existe entre os sexos nesse quesito **New Books on Women and Feminism**, 2009 Capitale erotico Catherine Hakim, 2012-05-08 Ognuno di noi dotato di alcune risorse personali che può cercare di sviluppare per migliorarsi il capitale economico il denaro il capitale umano l'educazione e l'esperienza e il capitale sociale le conoscenze e l'ambiente sociale in cui si cresce Esiste per una quarta fondamentale risorsa il capitale erotico
