The War on Wine Victor W. Geraci, 2023-11-07 The development of an American wine ethos The history of wine is a tale of capitalist production and consumer experience and early Americans embraced the idea of having their own wine culture But many began to believe that excessive alcohol consumption had become a moral ethical economic political social and health conundrum The result was a national on again off again relationship with the concept of an American wine culture Citizens struggled to build a wine culture patterned after their diasporic European custom of wine as a moderating beverage that was part of a healthy diet Yet as America grew untold attempts to create a wine culture failed due to climate pests diseases wars and depressions resulting in some people considering the nation an alcoholic republic Thus began an anti alcohol culture war aimed at restricting or prohibiting alcoholic beverages With the passage of the Eighteenth Amendment Prohibition a culture war started between wet and dry proponents After the repeal of Prohibition the decimated wine industry responded by forming the Wine Institute to rebrand wine's role in American society after which neoprohibitionists attempted to restrict alcohol availability and consumption To confront these aggressive actions the Wine Institute hired politically trained John A De Luca to navigate the new attacks and pushed for rebranding wine as a cultural spirit with health benefits

Cluster: Die Urbane Anziehungskraft Von Metropolen Mahbooba Katawazi, 2010 Was die Weltwirtschaft angeht so ist sie verflochten Besonders im heutigen Zeitalter der Globalisierung

gewinnt das Zitat von Kurt Tucholsky noch mehr an Aussagekraft Die Dynamik und der Einfluss des globalen Marktes haben sich in den letzten Jahren verändert Der Abbau von Handelshemmnissen und die weltweit steigenden Kommunikationsmöglichkeiten haben den Freihandel gefördert und insbesondere die Transportkosten gesenkt So sind neue Rahmenbedingungen für Unternehmen entstanden Um im immer härter werdenden globalen Wettkampf konkurrenzfähig bleiben zu können müssen die Entwicklung in eine steigende regionale Spezialisierung und in die Konzentration auf nationale Kernkompetenzen Michael E Porter bezeichnete diese Konzentration als eine Anheftung von Branchen in Clustern Die Untersuchung und Beobachtung von Clustern in verschiedenen Nationen hat gezeigt dass Cluster nicht standardisiert sind Jeder Cluster ist vielmehr ein Unikat auch wenn es sich um gleiche Branchen in verschiedenen Nationen handelt Dieses Buch beschäftigt sich darum mit der Thematik der Clusterbildung und stellt dabei dar welche Faktoren ausschlaggebend für den Bestand sind und welchen wirtschaftlichen Nutzen sie den Regionen bringen in denen sie lokal ansässig sind Es werden auch die Risiken erarbeitet denen Clustergebilde ausgesetzt sind Das Hauptaugenmerk liegt in diesem Zusammenhang auf der Fragestellung ob eine direkte Verbindung zwischen dem Ansatz von Clusterbildungen und der geographischen Nähe zu Metropolregionen gegeben ist

Global Wine Markets, 1961 to 2009 Kym Anderson, Signe Nelgen, 2011 Until very recently most grape based wine was consumed close to where it was produced and mostly that was in Europe Barely one tenth of the world's wine production was exported prior to the 1970s even counting intra European trade The latest wave of globalization has changed that forever Now more than one third of all wine consumed globally is produced in another country and Europe's dominance of global wine trade has been greatly diminished by the surge of exports from New World producers New consumers also have come onto the scene as incomes have grown eating habits have changed and tastes have broadened Asia in particular is emerging as a new and rapidly growing wine market and in China that is stimulating the development of local modern production capability that in volume terms already rivals that of Argentina Australia and South Africa This latest edition of global wine statistics therefore not only updates data to 2009 and revises past data but also expands on earlier editions in a number of ways For example we now separately identify an extra eight Asian countries or customs areas Hong Kong India Korea Malaysia Philippines Singapore Taiwan and Thailand in addition to China and Japan We also include more than 50 new tables to cover such items as excise and import taxes per capita expenditure on wine the share of domestic sales in off trade the shares of the largest firms in national markets and globally and the most powerful wine brands globally Given the growing interest in the health aspects of alcohol consumption we now express it per adult as well as per capita Perhaps the most significant addition to this latest version is a new section that provides estimates of the volume value and hence unit value of wine production consumption exports and imports for four categories sparkling wines and non premium commercial premium and super premium still wines

Intoxicating Pleasures Lisa Sheryl Jacobson,2024-11-05 In popular memory the repeal of US Prohibition in 1933 signaled alcohol s decisive triumph in a decades long culture war But as Lisa Jacobson reveals alcohol s respectability and mass market success were neither sudden nor assured It took a world war and a battalion of public relations experts and tastemakers to transform wine beer and whiskey into emblems of the American good life Alcohol producers and their allies a group that included scientists trade associations restaurateurs home economists cookbook authors and New Deal planners powered a publicity machine that linked alcohol to wartime food crusades and new ideas about the place of pleasure in modern American life In this deeply researched and engagingly written book Jacobson shows how the yearnings of ordinary consumers and military personnel shaped alcohol s cultural reinvention and put intoxicating pleasures at the center of broader debates about the rights and obligations of citizens **Quarterly Bulletin** United States.
