Cellular Convergence and the Death of Privacy Professor Stephen B. Wicker, 2013-08-21 Cellular technology has always been a surveillance technology but cellular convergence the growing trend for all forms of communication to consolidate onto the cellular handset has dramatically increased the impact of that surveillance In *Cellular Convergence and the Death of Privacy* Stephen Wicker explores this unprecedented threat to privacy from three distinct but overlapping perspectives the technical the legal and the social Professor Wicker first describes cellular technology and cellular surveillance using language accessible to non specialists He then examines current legislation and Supreme Court jurisprudence that form the framework for discussions about rights in the context of cellular
