Questions (eBook) Joe C. McDermott,2006 Experienced interviewers provide winning answers to the most frequently asked job interview questions cover [The Impact of Management Control Systems on Employees' Behavior During Remote Work](#)

Lena Heinz-Schmitt,2024-03-23 The new trend towards flexible work environments has spurred the debate over the effects of remote work on employees behavior and has forced greater consideration of how management control systems must be adjusted to meet the needs of the new work environment While the existing literature has observed several positive behavioral changes such as increased performance and effort counterproductive work behavior has also been identified Combining an experimental and a case study research approach the present study investigates whether a management control system can mitigate unwanted behavior during remote work The experimental study manipulates the use of management controls and analyzes the effects of an enabling vs a coercive management control system on dishonest behavior The data reveal that individuals who perceive the system as enabling and feel a connection to the company behave more honestly during remote work The organizational connection entirely mediates the perception of the management control system on dishonest behavior To further investigate this effect a case study approach was applied Based on interviews several factors are identified that might impact the enabling perception of the control system in remote work
