Looking at the history of mankind, it is possible to see one of the attributes which always supports it. It is faith. No matter what century is considered, either before or after Christ's birth, people always believed in something.

Young Goodman Brown by Nathaniel Hawthorne is a story which dwells upon Puritanism, human beliefs and faith. The weakness of the society depends on the faith of those who live there and if one loses faith and believes that others have made the same, it leads to unsupported suspicions of evil nature of people who live nearby.

Brown believes that all people around him have deep faith in good. This is the main basis of his faith. This idea can be considered from the name of his wife, Faith. He lives with her, so believes her, trusts in her power. Faith (wife) is the first symbol in the story. She seems to persuade her husband not to go outside, but he does not agree and leaves.

Isn't it the symbol of refusal of faith in goodness? When Brown goes to the forest, he does not pay attention to the fact that he goes to devil, he sees his neighbors and understands that they have lost their faith. This is the beginning of his disbelief and loss of faith in goodness as well. His belief is based on the beliefs of others, as it has been mentioned. When he saw that those beliefs had been ruined, his faith was ruined as well.

The whole story is full of allegories which consideration helps get the main idea of the story better. Village is a symbol of something good, while the forest, opposing to it, is an allegory of evil. The dark night is the association with the devil, as evil affairs are made when no one is able to see, at night (Neary 248).

The symbolic nature of faith is the problem which can be discussed perpetually as there is no specific answer to the issue. "The timelessness of mankind's sin is revealed within the Puritans" (Jacobs n.p.), it can be stated that the allegorical relation of evil's past, present and future is related to the Fall of Man.

The time in the story plays crucial role as it can be considered from different angles and can be referred to the various symbols. If to consider the story deeper, it comes out

Nathaniel Hawthorne: Young Goodman Brown Thomas E. Connolly, 1968 [Horror Literature through History](#) Matt Cardin, 2017-09-21 This two-volume set offers comprehensive coverage of horror literature that spans its deep history, dominant themes, significant works, and major authors such as Stephen King, Edgar Allan Poe, and Anne Rice, as well as lesser-known horror writers. Many of today's horror story fans, who appreciate horror through movies, television, video games, graphic novels, and other forms, probably don't realize that horror literature is not only one of the most popular types of literature but one of the oldest. People have always been mesmerized by stories that speak to their deepest fears. *Horror Literature through History* shows 21st-century horror fans the literary sources of their favorite entertainment and the rich intrinsic value of horror literature in its own right. Through profiles of major authors, critical analyses of important works, and overview essays focused on horror during particular periods, as well as on related issues such as religion, apocalypticism, social criticism, and gender, readers will discover the fascinating early roots and evolution of horror writings, as well as the reciprocal influence of horror literature and horror cinema. This unique two-volume reference set provides wide coverage that is current and compelling to modern readers who are, of course, also eager consumers of entertainment. In the first section, overview essays on horror during different historical periods situate works of horror literature within the social, cultural, historical, and intellectual currents of their respective eras, creating a seamless narrative of the genre's evolution from ancient times to the present. The second section demonstrates how otherwise unrelated works of horror have influenced each other, how horror subgenres have evolved, and how a broad range of topics within horror, such as ghosts, vampires, religion, and gender roles, have been handled across time. The set also provides alphabetically arranged reference entries on authors, works, and specialized topics that enable readers to zero in on information and concepts presented in the other sections.
