**Zero at the Bone** Christian Wiman, 2023-12-05 Christian Wiman braids poetry memoir and criticism to create an inspired career defining work Few contemporary writers ask the questions about faith morality and God that Christian Wiman does and even fewer perhaps none do so with his urgency and eloquence Wiman an award winning poet and the author of *My Bright Abyss* lays the motion of his mind on the page in this genre defying work an indivisible blend of poetry criticism theology and searing memoir As Marilynne Robinson wrote Wiman's poetry and his scholarship have a purifying urgency that is rare in this world It enables him to say new things in timeless language so that the reader's surprise and assent are one and the same *Zero at the Bone* begins with Wiman's preoccupation with despair and through fifty brief pieces he unravels its seductive appeal The book is studded with the poetry and prose of writers who inhabit Wiman's thoughts and the voices of Wallace Stevens Lucille Clifton Emily Dickinson and others join his own At its heart and Wiman's however are his family his young children who ask their own invaluable questions like Why are you a poet I mean why his wife and those he grew up with in West Texas Wiman is the rare thinker who takes on the mantle of our greatest mystics and does so with an honest profound and contemporary sensibility *Zero at the Bone* is a revelation **Zero at the Bone** Erec

Toso, 2007-04-19 Late one evening in the summer of 2003 Erec Toso arrived home to his wife and children after an ordinary day at his university office In the darkness of his yard a rattlesnake lay along the path basking in the post monsoon coolness Toso lost in thought never saw the snake which struck him on the foot and injected a huge dose of venom *Zero at the Bone* is a deeply personal narrative about Toso's physical recovery and emotional transformation following this near death experience In elegant prose that inspires as much as it unsettles Toso takes the reader along with him on his expedition into the uncharted territory of cellular damage hallucination and ultimately profound spiritual awakening On all levels it is a book about pain Toso spares no detail in his accounts of agonizing hospital procedures in his revelations about rattlesnake lore or in his descriptions of the wide ranging effects of snake venom But quickly the reader realizes that the physical pain of the snakebite is only the more tangible marker of the psychological pain and turmoil that Toso endures in the emotional journey that ensues In the months that follow his terrifying attack priorities daily habits family relations and definitions of self all come into question What is predictable becomes problematic what is comfortable becomes disconcerting In a story that hinges on a common fear about an unlikely event that of a snakebite Toso uncovers a more widespread reality that many of us do not fear enough complacency **Zero to the Bone** Robert Eversz, 2006 Hollywood photographer Nina Zero receives from an anonymous sender a snuff film recording the murder of one of Nina's young models which prompts an investigation into the murky world of S M Web sites past life regression therapy and the LAPD **Zero O'Clock** C. Bone Burnett offers the first critical appreciation of Burnett's wide-ranging contributions to American music: his passionate advocacy for analog sound and the striking contradictions that define his maverick artistry. Lloyd Sachs highlights all the important aspects of Burnett's musical pursuits from his early days as a member of Bob Dylan's Rolling Thunder Revue and his collaboration with the playwright Sam Shepard to the music he recently composed for the TV shows *Nashville* and *True Detective* and his production of the all-star album *Lost on the River: The New Basement Tapes*. Sachs also underscores Burnett's brilliance as a singer-songwriter in his own right. Going well beyond the labels legendary or visionary that usually accompany his name, T Bone Burnett reveals how this consummate music maker has exerted a powerful influence on American music and culture across four decades.

**American Reckoning** Jonathan Alter, 2024-10-22 A vivid eyewitness account of the historic first criminal trial of a president and a cri de coeur for democracy from a New York Times bestselling author and presidential historian. As one of a handful of journalists allowed in the courtroom for 23 days, Jonathan Alter sat just feet away from the most dangerous threat to democracy in American history, watching the spectacle of the century: the felony trial of Donald Trump. Highly publicized but untelevised and thus largely hidden from public view, this landmark trial offered hope of real justice amid a grueling eight-year national ordeal and foreshadowed the drama of the 2024 presidential election. Alter shares everything he witnessed from eviscerating takes on the colorful characters to the chilling legal ups and downs to offer a barbed account of the trial and its aftermath, including fresh reporting about the historic events of the summer of 2024. A Zelig of journalism experiencing a crisis of faith in the good sense of the American people, Alter chronicles the shaping of his political consciousness and his bracing unpredictable relationships with Jimmy and Rosalynn Carter, Bill and Hillary Clinton, Barack Obama, John McCain, and Joe Biden, whose decision to stand down in favor of former prosecutor Kamala Harris put the criminal trial front and center as Americans rendered their own verdict at the polls. Deeply personal and passionate, *American Reckoning* is an eye-opening book from a journalist with a front-row seat on history, offering a troubled yet hopeful look at our national moment of truth.

**The Climate Planner** Jason King, 2021-08-25 The Climate Planner is about overcoming the objections to climate change mitigation and adaptation that urban planners face at a local level. It shows how to draft climate plans that encounter less resistance because they involve the public stakeholders and decisionmakers in a way that builds trust, creates consensus, and leads to implementation. Although focused on the local level, this book discusses climate basics such as carbon dioxide levels in the atmosphere, the Intergovernmental Panel on Climate Change, the Paris Agreement of 2015, worldwide energy generation forecasts, and other items of global concern in order to familiarize urban planners and citizen planners with key concepts that they will need to know in order to be able to host climate conversations at the local level. The many case studies from around the United States of America show how communities have encountered pushback and bridged the implementation gap, the gap between plan and reality, thanks to a commitment to substantive public engagement. The book is written for urban planners, local activists, journalists, elected or

appointed representatives and the average citizen worried about climate breakdown and interested in working to reshape the built environment
