Insane Consequences DJ Jaffe,2017-04-11 This well researched and highly critical examination of the state of our mental health system by the industry's most relentless critic presents a new and controversial explanation as to why in spite of spending 147 billion annually 140 000 seriously mentally ill are homeless 390 000 are incarcerated and even educated tenacious and caring people can't get treatment for their mentally ill loved ones DJ Jaffe blames the mental health industry and the government for shunning the 10 million adults who are the most seriously mentally ill mainly those who suffer from schizophrenia and severe bipolar disorder and instead working to improve mental wellness in 43 million others many of whom are barely symptomatic Using industry and government documents scientific journals and anecdotes from his thirty years of advocacy Jaffe documents the insane consequences of these industry driven policies psychiatric hospitals for the seriously ill are still being closed involuntary commitment criteria are being narrowed to the point where laws now require violence rather than prevent it the public is endangered and the mentally ill and their families are forced to suffer Insane Consequences proposes smart compassionate affordable and sweeping reforms designed to send the most seriously ill to the head of the line for services rather than to jails shelters prisons and morgues It lays out a road map to spend less on mental health and more on mental illness replace mission creep with mission control and return the mental health system to a focus on the most seriously ill It is not money that is lacking it's leadership This book is a must read for anyone who works in the mental health industry or cares about the mentally ill violence homelessness incarceration or public policy **Mother Jones**
