The Human Rights Industry Alfred de Zayas, 2023-08-01 The promotion and protection of human rights is a pillar of the United Nations enshrined in the Charter the international bill of rights elaborated in General Assembly resolutions and declarations and buttressed by monitoring mechanisms and regional human rights courts After WWII the world demanded respect for collective and individual rights and freedoms including the right to live in peace i e freedom from fear and want the right to food water health shelter belief and expression Human dignity was understood as an inalienable entitlement of every member of the human family rights that were juridical justiciable and enforceable It did not take long for these noble goals to be politicized Many States systematically weaponize human rights for geopolitics A human rights industry operates at all levels and instrumentalizes values with the complicity of diplomats politicians non governmental organizations academics journalists independent experts rapporteurs secretariat members and media conglomerates This book addresses the decisive role played by major governmental and private agencies such as the National Endowment for Democracy USAID elite think tanks Council on Foreign Relations Trilateral Commission World Economic Forum and others in shaping a perception of human rights that primarily serves geopolitical interests Major non governmental organizations that once were truly independent including Amnesty and HRW today belong to the leading narrative managers The voting record in the General Assembly and Human Rights Council by China Russia the United States Canada UK EU OIC Group of 77 Non aligned movement etc documents who supports and who subverts human rights Why do the Council and NGOs practice double standards and allow States to brazenly lie blackmail and bully weaker States Under the pretext of providing humanitarian assistance lethal military interventions are conducted e g in Libya emblematic example of how the noble idea of the responsibility to protect was corrupted Propagandistic use of the words human rights democracy rule of law freedom demean them and subvert rational discourse Drawing on more than four decades of working in the field of human rights as UN staff member rapporteur consultant professor and NGO president Alfred de Zayas examines how the tools of implementation of human rights serve to entrench political narratives promoted by the industry

Tamil Nationalism in Sri Lanka A.R. Rajah, 2022-10-31 This book examines Tamil nationalism in Sri Lanka and provides insights on how Tamil nationalism has survived the destruction of the Tamil Tigers after May 2009 and continues to thrive despite the absence of a charismatic leadership to lead it or a centralised organisation to mobilise the Tamils along ethnic nationalistic lines The ethnic nationalist ideology shaped up by the Tamil Tigers continues to remain the driving force of the Tamil polity in Sri Lanka and the Diaspora Using a Foucauldian counter historical theoretical framework the author analyses and offers answers to these questions What is keeping Tamil nationalism alive despite the demise of the Tamil Tigers over a decade ago Why do many Tamils in Sri Lanka and abroad refuse to accept a Sri Lankan political identity How are Tamils able to continue on a nationalist path despite the absence of a unified political leadership The book argues that Tamil nationalism has survived the latter's destruction because it has become counter historical It is this that has allowed despite the internecine rivalries between Tamil political parties and Diaspora groups the Tamil nationalist spirit to remain alive The author also suggests that counter history has for many Tamil political parties and Diaspora groups become the means of waging war other than through an armed struggle against the Sri Lankan state Based on field research interviews and documentary analysis the book provides empirical and unique insights on Foucault's thesis that power is multifaceted and can function in the absence of centralised mechanisms This book will be of interest to researchers in the fields of Politics and International Relations in particular those working on ethnic nationalism post armed conflict peacebuilding conflict resolution the politics in Sri Lanka diaspora politics and Foucault

Sovereignty, Space and Civil War in Sri Lanka Anoma Pieris, 2018-10-25 Analyses of the Sri Lankan civil war 1983-2009 overwhelmingly represent it as an ethnonationalist contest prolonging postcolonial arguments on the creation and dissolution of the incipient nation state since independence in 1948 While colonial divide and rule policies the rise of ethnonationalist lobbies structural discrimination and majoritarian democracy have been established as grounds for inter ethnic hostility there are other significant transformative forces that remain largely unacknowledged in postcolonial analyses This ambitious multiscale spatial study of civil war in Sri Lanka offers an intersectional de ethnicised analysis of political sovereignty drawn out by the struggle for territory Based on vital retrospective findings from the five year postwar period when wartime hostilities were still festering it convincingly links ethnonationalism to postnational border politics marketisation militarised securitisation and illiberal democracy This book argues that internecine conflict exposes the implicit violence within nation state formations mass human displacements heighten collective and individual ontological insecurity and neoliberalism makes the nation porous in unforeseen ways Based around three themes normative spaces human mobilities and exilic states it is organised into ten comprehensive chapter based explorations of a range of spatial units including homes cities routes camps and experiences of ruin that were irrevocably politicised by protracted conflict Focusing on their material transformations over a thirty seven year period the book explores what can be known of the war if we look beyond ethnicity to other salient shared

geographical features of this embattled history The book uncovers how fealty to exclusionary cultures of political sovereignty aligns us with their violence limiting our capacity for empathy a boundary seemingly exacerbated by neoliberal opportunities Making use of Sri Lanka as a case study to test geographic architectural and urban methodologies for understanding violence this book acts as a provocation to rethink current readings of the particular case study while reflecting on the more general impact of marketisation and militarisation in Asia It will be of interest to an interdisciplinary audience including those scholars interested in South Asian history politics and civil war South Asian studies border studies geography and architecture and urban studies India-Sri Lanka Relations Strengthening SAARC R. Disaggregating Diasporas as a Force in Role Contestation Matthew K. Godwin, 2022-09-15 Using a Role Theory lens this book investigates Tamil diaspora mass movements and interest groups as marginalised forces of domestic foreign policy influence Until now Role Theory has not considered diaspora mass movements as collective action actors nor looked at how marginalised diasporas influence elite foreign policy decision making Matthew K Godwin employs a comparative micro level decision making narrative that looks incisively at decisions faced by the British and Canadian governments in 2009 and 2013 towards the Sri Lankan civil war and its aftermath Through qualitative elite level interviews and content analysis of other primary source data Godwin convincingly argues that when diaspora interest group elites are leveraging the power of mass movements in concert with credible partisan advocates they can influence role contestation However international institutional constraints on role behaviour may stymie their preferred role performance especially if states are indispensable to the institutions their behaviour may unravel Ultimately Godwin

concludes that some states can't behave badly even when they want to. This book will be of interest to students and researchers of International Relations, Foreign Policy Analysis, Comparative Politics, Migration Studies, and to non-government organisations who seek to influence governments.

India's Rise as an Asian Power A. D. D. Gordon, 2014-08-05 India's Rise as an Asian Power examines India's rise to power and the obstacles it faces in the context of domestic governance and security relationships and security issues with its South Asian neighbors and international relations in the wider Asian region. Instead of a straight line projection based on traditional measures of power such as population size, economic growth rates, and military spending, Sandy Gordon's nuanced view of India's rise focuses on the need of any rising power to develop the means to deal with challenges in its domestic neighborhood, South Asia, and regional continental spheres. Terrorism, insurgency, border disputes, and water conflict and shortages are examples of some of India's domestic and regional challenges. Gordon argues that before it can assume the mantle of a genuine Asian power or world power, India must improve its governance and security; otherwise, its economic growth and human development will continue to be hindered, and its vulnerabilities may be exploited by competitors in its South Asian neighborhood or the wider region. This book will appeal to students and scholars of India and South Asia, security studies, foreign policy, and comparative politics, as well as country and regional specialists.

Architecture and Violence Bechir Kenzari, 2011 In today's turbulent times, few subjects deserve a closer scrutiny than the interactions between violence and constructed environment. Modernity's contradictory histories laid bare the fact that it is impossible to consider architecture simply a benign passive victim of humanity's violent vices. Built space is as capable of incarnating violent acts as enacting them, disciplining and silencing the subject in the process. In this compelling volume, some of the most incisive thinkers of contemporary architectural theory make manifest the intricacies of interrelations between architecture and violent events. Employing a wide variety of perspectives and methodical approaches, the authors examine some of the most dramatic and unexpected instances of these vexing relations.

When Students Protest Judith Bessant, Analicia Mejia Mesinas, Sarah Pickard, 2021-07-29 Student political action has been a major and recurring feature of politics across the globe through the past century. Students have been involved in a full range of public issues, from anti-colonial movements, anti-war campaigns, civil rights, and pro-democracy movements to campaigns against neoliberal policies, austerity, racism, misogyny, and calls for climate change action. Yet student actions are frequently dismissed by political elites and others as adolescent mischief or manipulation of young people by duplicitous adults. This occurs even as many working in governments, traditional media, and educational organisations attempt to suppress student movements. Much of mainstream scholarly work has also deemed student politics as undeserving of intellectual attention. These three edited volumes of books help set the record straight. Written by scholars and activists from around the world, *When Students Protest: Universities in the Global South* is the second in a three-volume study that explores university student politics in the global south. The authors document and analyse how generations of university and college students in the

Global South responded to issues such as problems in their own universities as well as standing up against violent military dictatorships human rights abuses oppressive poverty foreign interference and the effects of neoliberal austerity regimes Contributors to this this volume also reveal repeated moves by states and institutions to stigmatise and suppress student political action while highlighting how those students developed new kinds of political action further demonstrating why this rich and complex global phenomena is worthy of more attention
