poignant awareness of cultural relativism as well as deconstruction of the great narrative of progress facing the Other as an unconceptualized entity became a major moral concern of a modern traveller. It is pronounced that this concern should be textually testified to dramatize the human inability to avoid verbal appropriation of the other. The final question we seek to answer is whether the era of advanced technology and globalisation along with a post modern ironical attitude to hyper realities and textual transparencies has rendered the sphere of the text the only available point of concern of contemporary literature and thought in general. For its argumentation strongly founded in recent literary studies and humanities in general its interdisciplinary nature and its focus on the actual global problems of abrupt cultural change and exchange its heightened understanding of the necessity of coexistence of differences in a changing world its spirit of tolerance and its international spirit in general we assume this collection will not only attract academic literary scholars but will also appeal to the general reading public.
