Beyond the Physical Life

Ravi Shankar Kapoor,2012-03-07 Even death is not to be feared by one who lives wisely Death is inevitable thing which is

born today will perish from the physical world one day without any doubt But the journey doesn't end here because there is another dimension or realm unseen by the naked eyes These dimensions I have thoroughly discussed in this book The hidden dimensions and unseen realms make up a much larger proportion of the universe than the physical parts which are visible to us physicists know this and call the unseen parts dark matter and dark energy Science has not yet theorized a plan of these higher dimensions so we must look to ancient knowledge and alternative science for the answers This book will also help to understand cycle of life and death to those people who are in deep sorrow due to loss of their near and dear ones Cosmic Energy is essential to maintain our life and to enhance the level of our Consciousness Cosmic Energy is the base for all our actions and functions I have also touched this aspect of life force pranshakti in order to help people cure themselves and to fight against various hurdles of life hence providing them with adequate solutions All things in the universe are governed by this cosmic energy from the mass matter to molecular level But there is need to master the manifestation of this cosmic energy
