**Macro Federalism and Local Finance** Anwar M. Shah, 2008-06-20. The design of a federal system to deal with growth, stabilization, and regional and local development issues is the primary concern of this volume, edited by Anwar Shah. The book provides analytical tools to address issues arising from globalization, localization, and regional integration. It discusses tax harmonization issues associated with subnational value added tax administration. It provides a framework for fiscal discipline in a federal system. Lessons from international experiences from policies to deal with lagging regions are drawn. The book empirically examines the effect of fiscal decentralization on the overall size of the public sector. Finally, it draws lessons from industrial countries' experiences on local governance. This important new series represents a response to several independent evaluations in recent years that have argued that development practitioners and policy makers dealing with public sector reforms in developing countries and indeed anyone with a concern for effective public governance could benefit from a synthesis of newer perspectives on public sector reforms. This series distills current wisdom and presents tools of analysis for improving the efficiency, equity, and efficacy of the public sector. Leading public policy experts and practitioners have contributed to the series.

*"Derivatives/Hedging" Deals* Nihal Sri Ameresekere, 2011-04-25. *Derivatives Hedging Deals* by Citibank, Standard Chartered Bank, and Deutsche Bank with Sri Lanka Government's Petroleum Corporation analytically and interestingly raises ethical, moral, and legal issues as to whether deals perpetrated by Banks with their own customer whose poor financials were known to them were dubious and illegal, with Banks also having compromised public officers with foreign trips to educate them on derivatives hedging. The Author analytically exposes the true nature of such transactions and how they work, though sophisticatedly described to camouflage and confuse to achieve the objective of raping customers to make unconscionable profits, disclosing how gullible elected and selected public officers are and how they are manipulated through sophisticated and devious means, demonstrating that whilst countries courageously stand up to international or regional political associations, intriguingly lack the ability to stand up to Banks conducting operations upon licenses granted by monetary authorities of such country. The Author also exposes the reality of how professionals conduct themselves within and outside Courts of law, demonstrating classic instances of unequal treatment before the law, making a mockery of the tenet that all are equal before the law, no one being above it, sacrosanctly pontificated and propounded on podiums. The Author raises in discerning minds issues of contempt of Court and judicial bias, citing Opinions in the House of Lords, United Kingdom, in re Pinochet, former Chilean President, shockingly also exposing how the media manipulatively operates, driven by hidden

agendas This book is very interesting and absorbing to read and imparts incisive knowledge on a variety of subjects dealt with in an objective analytical and rational manner exposing socio political realities It is an invaluable book to those concerned with sophisticated financial instruments and scams which have scandalized financial sectors warranting stimulus packages from Governments and to legal financial academics and professionals
