Bonakdarpour, William R. Reinus, Jasvir S. Khurana, 2010-06-09 We dedicate this text to Drs Ernest E Aegerter a pathologist and John A Kirkpatrick Jr a radiologist. They were among the principal founders of the field of skeletal pathology and radiology. During their time their residents and colleagues knew them as great educators with a dedication and a passion for their work. Their textbook *Orthopedic Diseases* published initially in 1958 was among the first interdisciplinary works devoted to this field. Dr Aegerter and Dr Kirkpatrick illuminated many aspects of the field of radiology. Today with the advent of new technologies this field has grown to include not only diseases that affect the skeleton but also those that affect muscles, ligaments, tendons and also the cartilaginous structures within joints. With this text we intend to carry on Dr Aegerter and Dr Kirkpatrick's tradition. We have recruited only well-known musculoskeletal radiologists and pathologists to participate in the writing of this book. Each author has been carefully selected for his expertise on the topic about which he has been asked to contribute. Each author is known as an experienced and seasoned teacher. Each author has made a mark on the field. Imaging of Soft Tissue

Tumors Mark J. Kransdorf, Mark D. Murphey, 2006 Based on a vast number of cases seen at the Armed Forces Institute of Pathology and the Mayo Clinic, this volume is a comprehensive reference on the radiologic evaluation of soft tissue tumors. The book covers the entire spectrum of soft tissue pathologies with over 1,400 images showing common and atypical appearances. The authors discuss the relative utility of all imaging modalities in assessing each lesion. This edition features expanded coverage of masses that mimic tumors, more illustrations of each lesion and information on recently described tumors. Coverage of each lesion begins with boxed summaries of key clinical and radiologic points and charts showing anatomic locations and patient demographics. *Knochentumoren mit Kiefertumoren* Jürgen Freyschmidt, Helmut
