The United Nations and Changing World Politics Thomas G. Weiss, 2019-10-22 This completely revised and

updated eighth edition serves as the definitive text for courses in which the United Nations is either the focus or a central component. Built around three critical themes in international relations: peace and security, human rights, and humanitarian affairs and sustainable human development, the eighth edition of *The United Nations and Changing World Politics* guides students through the seven turbulent decades of UN politics. This new edition is fully revised to incorporate recent developments on the international stage, including new peace operations in Mali and the Central African Republic, ongoing UN efforts to manage the crises in Libya, Syria, and Iraq, the Iran Nuclear Deal, and the new Sustainable Development Goals. The authors discuss how international law frames the controversies at the UN and guides how the UN responds to violence and insecurity, gross violations of human rights, poverty, underdevelopment, and environmental degradation. Students of all levels will learn that the UN is a complex organization comprised of three interactive entities that cooperate and also compete with each other to define and advance the UN's principles and purposes.

Dieser Band führt in die fragmentierten Wissensbestände unterschiedlicher Disziplinen zum Thema Regionen und Regionalisierungsprojekte ein.

The United Nations in the 21st Century Karen A. Mingst, Margaret P. Karns, Alynna J. Lyon, 2022-03-31
The United Nations in the 21st Century Sixth Edition provides a comprehensive yet accessible introduction to the UN. It explores the historical, institutional, and theoretical foundations of the UN, as well as major global trends and challenges facing the organization today, including changing major power dynamics, new threats to peace and security, the migration and refugee crises, the COVID-19 pandemic, and the existential challenges of climate change and sustainability. Thoroughly revised and expanded, it contains two new chapters on the UN and the environment and on human security, including issues of health, food security, global migration, and human trafficking. There is an enhanced analysis of theoretical perspectives on post-colonialism, feminist theory, constructivism, and non-Western views. New content has also been added on the UN's budget crisis, public-private partnerships, and the role of women in the organization. By examining the UN as an intergovernmental organization facing the broader need for global cooperation to address economic, social, and environmental interdependencies alongside the threats posed by rising nationalism and populism, this popular text is the perfect reference for all students and practitioners of international organizations, global governance, and international relations.
