Portrait Painting Atelier Old Master Techniques And Contemporary Applications Suzanne Brooker:

Portrait Painting Atelier Suzanne Brooker, 2011-11-15 The art of portraiture approached its apex during the sixteenth century in Europe with the discovery of oil painting when the old masters developed and refined techniques that remain unsurpassed to this day The ascendancy of nonrepresentational art in the middle of the twentieth century displaced these venerable skills especially in academic art circles Fortunately for aspiring artists today who wish to learn the methods that allowed the Old Masters to achieve the luminous color and subtle tonalities so characteristic of their work this knowledge has been preserved in hundreds of small traditional painting ateliers that persevered in the old ways in this country and throughout the world Coming out of this dedicated movement Portrait Painting Atelier is an essential resource for an art community still recovering from a time when solid instruction in art technique was unavailable in our schools Of particular value here is a demonstration of the Old Masters technique of layering paint over a toned ground surface a process that builds from the transparent dark areas to the more densely painted lights This method unifies the entire painting creating a beautiful glow that illuminates skin tones and softly blends all the color tones Readers will also find valuable instruction in paint mediums from classic oil based to alkyd based the interactive principles of composition and photograph based composition and the anatomy of the human face and the key relationships among its features Richly illustrated with the work of preeminent masters such as Millet Gericault and van Gogh as well as some of today's leading portrait artists and featuring seven detailed step by step portrait demonstrations Portrait Painting Atelier is the first book in many years to so comprehensively cover the concepts and techniques of traditional portraiture **Figure Drawing for Kids** Angela

PREPARATION FOR SECOND PAINTING THE PREPARATION OF THE WORK FOR THE SECOND PAINTING If the first painting have been executed with any degree of freedom and so left to dry without having been slightly touched here and there with a soft brush to remove any superficial inequalities which might effect the second painting it will be necessary to examine the picture with a sharp knife or scraper but this operation cannot be performed until the work be perfectly dry This may be determined by breathing on the surface which if dry will immediately assume a dull and misty appearance but if still wet it will remain unsullied The surface having been reduced if necessary a wetted sponge should be lightly passed over it this will be dry in a few minutes when a small quantity of poppy oil should be lightly brushed over the work from which the superfluous moisture may be removed by the gentle application of an old silk handkerchief The object of thus moistening the surface with poppy oil is to make the subsequent painting unite with the first and so embody the first second and following paintings that no discordant difference of execution may appear in the picture Having passed the silk handkerchief over the surface it will be necessary to observe that no dust or any of the thin threads of the silk adhere to the work In finishing portraits experienced painters omit oiling for the sake of obtaining texture but the application of the sponge can never be omitted because without it the glazes will not lie All oil colours sink to a certain extent and in the progress of a picture sometimes so much so as to render oiling necessary in order to see the real strength and details of the work this is termed oiling out I *The Art of Portrait Painting in Oil Colours, with Observations on Setting and Painting the Figure* Henry Murray,1878 *The Art of Portrait Painting in Oil Colours, With Observations on Setting and Painting the Figure* ,2020-04-16 *The Complete Portrait Painting Course* Angela Gair,1990 *The Art of Portrait Painting in Oil Colours.
