E. H. Carr: Imperialism, War and Lessons for Post-Colonial IR Haro L Karkour, 2022-04-25 This book highlights important parallels between Carr and three influential figures in the first wave of post colonialism DuBois C saire and Fanon on the analysis of imperialism and the causes of war Specifically Carr s analysis of imperialism and war parallels the first wave post colonial thinkers in two respects First Carr s work historically situates imperialism in the context of the social question in Western democracies Second Carr s work provides an ideology critique to Enlightenment rationalism which postulates that reason could determine what are the universally valid moral laws and thus by the voice of reason men could be persuaded both to save their own immoral souls and to move along the path of political enlightenment and progress Carr 1984 22 and 24 Carr s ideology critique exposes the Enlightenment s pretences of reason and universality as a deceptive plea that legitimates imperialism These parallels the book argues reveal that Carr did not only recognise global hierarchy but also theorised the role of what Julian Go refers to as the episteme of empire that is the meanings and modalities of seeing and knowing that accompanied empire and made it possible in the first place Go 2017 19 20 Carr s IR theory in short was much closer to post colonial thinking than previously appreciated in the discipline

Handbook of Alternative Theories of Political Economy Stilwell, Frank, Primrose, David, Thornton, Tim B., 2022-05-13 This Research Handbook advances entrepreneurship theory in new ways by integrating

and contributing to contemporary theories of practice Leading theorists and entrepreneurship experts who are part of the growing Entrepreneurship as Practice EaP research community expertly propose methodologies theories and empirical insights into the constitution and consequences of entrepreneuring practices Beyond International Intervention Katarina Kušić, 2025-03-27 Studies of statebuilding and peacebuilding have been criticized for their disregard of people living the consequences of intervention projects *Beyond International Intervention* takes on the task of engaging with spaces and peoples not usually present in IR scholarship to rethink the very concept of intervention by paying close attention to how people actually experience and make sense of those efforts In particular the book offers a detailed engagement with ethnographic fieldwork in two policy areas in Serbia agricultural policy and non formal youth education By engaging with subjects the book not only enhances our understanding of intervention but also uncovers the limitations of the concept Katarina Kušić argues that the concept limits what we can observe and theorize and it prevents researchers from engaging with the people living in spaces of intervention as coeval political subjects As an alternative she proposes to foreground improvement over intervention This reorientation enables researchers to trace hierarchies beyond the local international dichotomy expands fields of visibility beyond those prescribed by interventions themselves and seriously considers the contradictions at the heart of liberalism *The Oxford Handbook of International Studies Pedagogy* Heather A. Smith, Mark A. Boyer, David J. Hornsby, 2024 This volume on international studies pedagogy helps us think purposefully about the worlds we teach to our students and it shows us why engaging in reflective practice about how and what we teach matters The Handbook also provides strategies to engage students in a variety of ways to reflect on and engage with the complexities of the world in which we live The Oxford Handbook of Peacebuilding, Statebuilding, and Peace Formation Oliver P. histories and legacies its racialized nationhood and embedded colonial structures This important new book reflects a decolonial turn in research emphasizing that coloniality is far from over and that challenging global injustices remains an unfinished and open ended process Chapters in the book consider the resistance of the S mi people to Swedish colonialism whether Sweden owes the Caribbean reparations for its colonization of Saint Barth lemy and involvement in the transatlantic trade Sweden s involvement in a colonial global economy and how white European identification is embedded in Swedish politics nation building and society Engaging and insightful Decolonial Sweden invites readers to reconsider Swedish attitudes toward race colonialism and international relations This book is an essential read for Post and Decolonial scholars and students of Critical Race Studies Critical Indigenous Studies Africana Studies International Relations Global Development and Political Science as well as for anyone interested in Sweden s place in the world

Postcolonial Encounters in International Relations Alina Sajed, 2013-07-18 Postcolonial Encounters in International Relations examines the social and cultural aspects of the political violence that underpinned the French colonial project in the Maghreb and the multi layered postcolonial realities that ensued This book explores the reality of the lives of North African migrants in postcolonial France with a particular focus on their access to political entitlements such as citizenship and rights This reality is complicated even further by complex practices of memory undertaken by Franco Maghrebian intellectuals who negotiate in their writings between the violent memory of the French colonial project in the Maghreb and the contemporary conundrums of postcolonial migration The book pursues thus the politics of post colonial memory by tracing its representations in literary political and visual narratives belonging to various Franco Maghrebian intellectuals who see themselves as living and writing between France and the Maghreb By adopting a postcolonial perspective a perspective quite marginal in International Relations the book investigates a different international relations which emerges via narratives of migration A postcolonial standpoint is instrumental in understanding the relations between class gender and race which interrogate and reflect more generally on the shared post colonial violence between North Africa and France and on the politics of mediating violence through complex practices of memory

Espionage Fiction in the US and Pakistan Cara N. Cilano,2014-05-09 As the events of 11 September 2001 and their aftermath influence new developments in spy fiction as a popular genre an examination of these literary narratives concerned with espionage and terrorism can reshape our approach to non fictive representations of the same concerns Post 9 11 Espionage Fiction in the US and Pakistan examines post 9 11 American spy fictions alongside Pakistani novels that draw upon many of the same figures tropes and conventions As the Pakistani texts replace spy fiction's conventions they offer another vantage point from which to view the affective appeals common to these conventions usual deployment in American texts This book argues that the appropriation by Pakistani writers of these conventions insistently tracks how the formulaic and popular nature of post 9 11 American espionage thrillers forwards and reinforces appropriate affective responses often linked to domestic sites and relations to terrorism It also analyses and compares American and Pakistani representations of the twinned figures of the spy or his proxy and the terrorist a term frequently conflated with fundamentalist The insights of these analyses can serve as interpretive interruptions of non fictive representations of Pakistani US war on terror relations Offering an innovative analysis of the reflection of narrative conventions in our view of the real life events this book will attract scholars with an interest in Pakistani literature Postcolonial literature Asian Studies and Terrorism studies

International Intervention in a Secular Age Audra Mitchell,2014-04-03 International intervention is not just about saving human lives it is also an attempt to secure humanity's place in the universe This book explores the Western secular beliefs that underpin contemporary practices of intervention most importantly beliefs about life death and the dominance of humanity These beliefs shape a wide range of practices the idea that human beings should intervene when human lives are at stake analyses of violence and harm practices of intervention and peace building and logics of killing and letting die Ironically however the Western secular desire to ensure the meaningfulness of human life at all costs contributes to processes of dehumanization undercutting the basic goals of intervention To explore this paradox International Intervention in a Secular Age engages with examples from around the world and draws on interdisciplinary sources anthropologies of

secularity and IR posthumanist political philosophy ontology and the sociology of death This book offers new insight into perennial problems such as the reluctance of intervenors to incur fatalities and international inaction in the face of escalating violence It also exposes new dilemmas such as the dehumanizing effects of quantifying casualties Western secular logics of killing and the appropriation of lives and deaths through peace building processes It will be of great interest to students and scholars of international relations political philosophy international ethics and social anthropology War, Police and Assemblages of Intervention Jan Bachmann, Colleen Bell, Caroline Holmqvist, 2014-11-13 This book reflects on the way in which war and police policing intersect in contemporary Western led interventions in the global South The volume combines empirically oriented work with ground breaking theoretical insights and aims to collect for the first time thoughts on how war and policing converge amalgamate diffuse and dissolve in the context both of actual international intervention and in understandings thereof The book uses the caption WAR POLICE to highlight the distinctiveness of this volume in presenting a variety of approaches that share a concern for the assemblage of war police as a whole The volume thus serves to bring together critical perspectives on liberal interventionism where the logics of war and police policing blur and bleed into a complex assemblage of WAR POLICE Contributions to this volume offer an understanding of police as a technique of ordering and collectively take issue with accounts of the character of contemporary war that argue that war is simply reduced to policing In contrast the contributions show how both historically and conceptually the two are always already connected Contributions to this volume come from a variety of disciplines including international relations war studies geography anthropology and law but share a critical poststructuralist approach to the study of international intervention war and policing This volume will be useful to students and scholars who have an interest in social theories on intervention war security and the making of international order **The Global Anglophone** Anjuli I. Gunaratne, Jeffrey Lawrence, 2025-09-26 This book addresses the rise of the concept of the Global Anglophone in contemporary literary studies both as an intellectual category and as a field designation Moving beyond traditional postcolonial frameworks it investigates how this emerging paradigm is reshaping our understanding of modern English language literature across geographical boundaries Distinguished scholars from diverse regions of the English speaking world reveal how the Global Anglophone has evolved from a subset of postcolonial studies into a comprehensive framework for examining modern literary production in English Through rigorous analysis and argumentation the contributors demonstrate how this conceptual transformation reflects broader changes in academic field structures job markets and our understanding of world literature Essential reading for literary scholars The Global Anglophone interrogates the future of English literary studies while offering valuable insights into the shifting landscape of contemporary academia It challenges conventional categorizations and proposes new ways of understanding the complex relationships among language literature and global cultural exchange The chapters in this book were originally published as a special issue of Interventions Journal of Postcolonial Studies *On Schmitt and Space* Claudio

Minca,Rory Rowan,2015-07-24 This book represents the first comprehensive study of the influential German legal and political thinker Carl Schmitt s spatial thought offering the first systematic examination from a Geographic perspective of one of the most important political thinkers of the twentieth century It charts the development of Schmitt s spatial thinking from his early work on secularization and the emergence of the modern European state to his post war analysis of the spatial basis of global order and international law whilst situating his thought in relation to his changing biographical and intellectual context controversial involvement in Weimar politics and disastrous support for the Nazi regime It argues that spatial concepts play a crucial structural role throughout Schmitt s work from his well known analyses of sovereign power and states of exception to his often overlooked spatial history of modernity Locating a fundamental relationship between space and the political lies at the core of his thought The book explores the critical insight that Schmitt s spatial thought bears on some of the key political questions of the twentieth century whilst tracking his profound and enduring influence on key debates on sovereignty international relations war and the nature of world order at the start of the twenty first century **Walzer, Just War and Iraq**

Ronan O'Callaghan,2015-10-08 In recent years questions of ethical responsibility and justice in war have become increasingly significant in international relations This focus has been precipitated by United States U S led invasions in Afghanistan and Iraq In turn Western conceptions of ethical responsibility have been largely informed by human rights based understandings of morality This book directly addresses the question of what it means to act ethically in times of war by drawing upon first hand accounts of U S war fighting in Iraq during the 2003 invasion and occupation The book focuses upon the prominent rights based justification of war of Michael Walzer Through an in depth critical reading of Walzer s work this title demonstrates the broader problems implicit to human rights based justifications of war and elucidates an alternative account of ethical responsibility ethics as response Putting forward a compelling case for people to remain troubled and engaged with questions of ethical responsibility in war this work will be of great interest to students and scholars in a range of areas including international relations theory ethics and security studies **Selective Responsibility in the United Nations**

Katy Harsant,2022-08-30 The United Nations claims to exist in order to maintain international peace and security providing a space within which all states can work together But why then does the UN invoke its responsibility to protect through humanitarian intervention in some instances but not others Why is it that five states have the power to decide whether or not to intervene This book challenges the dominant narrative of the UN as an institution of equality and progress by analyzing the colonial origins of the organization and revealing the unequal power relations it has perpetuated Harsant argues that the United Nations is unable to fulfill its claims around the protection of international peace and security due to its very structure and the privilege of certain states Moreover through a rigorous examination of the history of the UN and how those structures came to be she argues that the privilege afforded to these states is the result of power relations established through the colonial encounter In order to understand the pressing contemporary issues of how the United

Nations operates particularly the Security Council this book discusses issues of power and sovereignty by de silencing the narratives of resistance and reconstructing a history of the United Nations that takes this colonial and anti colonial relationship into account This is a bold challenge to the eurocentrism that dominates International Relations discourse and a call to better understand the colonialism s role in preserving the existing global order *The Green State in Africa* Carl Death,2016-09-27 A provocative reassessment of the relationship between states and environmental politics in Africa From climate related risks such as crop failure and famine to longer term concerns about sustainable urbanization environmental justice and biodiversity conservation African states face a range of environmental issues As Carl Death demonstrates the ways in which they are addressing them have important political ramifications and challenge current understandings of green politics Death draws on almost a decade of research to reveal how central African environmental politics are to the transformation of African states
