OPAC 2.0: Information Access and Services in the 2.0 Landscape Tramullas, Jesus, Garrido, Piedad, 2012-07-31 The advent of computers in libraries made library automation a hot topic in the 1980s and 1990s but this focus has dropped off over time leaving much library automation research outdated Library Automation and OPAC 2 0 Information Access and Services in the 2 0 Landscape brings library automation back to the forefront of cutting edge research In today s age of Web 2 0 and social networking libraries are entering the new Library 2 0 era and this reference will present current and future librarians with the necessary new library automation research they will need to keep their institutions up to date in today s constantly changing technological environment **Petroleum Refining** Mark J. Kaiser, Arno de Klerk, James H. Gary, Glenn E. Handwerk, 2019-09-11 For four decades *Petroleum Refining* has guided thousands of readers toward a reliable understanding of the field and through the years has become the standard text in many schools and universities around the world offering petroleum refining classes for self study training and as a reference for industry professionals The sixth edition of this perennial bestseller continues in the tradition set by Jim Gary as the most modern and authoritative guide in the field Updated and expanded to reflect new technologies methods and topics the book includes new discussion on the business and economics of refining cost estimation and complexity crude origins and properties fuel specifications and updates on technology process units and catalysts The first half of the book is written for a general audience to introduce the primary economic and market characteristics of the industry and to describe the inputs and outputs of refining Most of this material

is new to this edition and can be read independently or in parallel with the rest of the text In the second half of the book a technical review of the main process units of a refinery is provided beginning with distillation and covering each of the primary conversion and treatment processes Much of this material was reorganized updated and rewritten with greater emphasis on reaction chemistry and the role of catalysis in applications Petroleum Refining Technology Economics and Markets is a book written for users the practitioners of refining and all those who want to learn more about the field *The Economic Evaluation of Refinery Processes* Robert E. Maples, American Institute of Chemical Engineers, 1997 Petroleum Refining James H. Gary, Glenn E. Handwerk, 2001-02-06 Continuing the tradition and high standards set by earlier editions Petroleum Refining Fourth Edition summarizes recent developments in oil refining processes addressing topics ranging from basic applications to the implementation of viable operations that meet environmental and economic stipulations Maintaining the clear and systematic style of presentation that sent the previous editions into more than 25 printings Petroleum Refining Fourth Edition Incorporates valuable statistics on utility data investment and operating costs for estimating the economics of refining configurations Describes petroleum's physical and chemical properties Satisfies short term demands from recent legal standpoints for creating reformulated fuels Reviews petroleum refining technology and all the major refining processes Considers environmental concerns the place of reformulated fuels in product distribution and uses for heavier crude oils and crude oils with higher sulfur and metal contents Enables complete material balances to be made from physical properties and typical yield data Advancing the successful features that led to the adoption of previous editions at numerous colleges and universities including Harvard University the Colorado School of Mines the University of Houston and the University of Pittsburgh the Fourth Edition also offers End of chapter problems equations illustrative tables notes and bibliographies An ongoing case study problem Convenient and helpful appendices on an economic evaluation problem terminology physical properties analyses of selected crude oils and photographs Written by experts combining academic and professional experience Petroleum Refining Fourth Edition is an essential text for all upper level undergraduate graduate and continuing education students taking courses in petroleum refinery processing It also serves as a helpful resource for chemical petroleum refining and process design engineers refinery management personnel and energy consultants *Petroleum Economics* Jean Masseron, 1990 *Technical Progress and Profits* John Lawrence Enos, 2002 Throughout the twentieth century the technology employed by the petroleum refining industry has been advancing rapidly yet it has generally escaped study Whatever the explanation for its scholarly neglect the advances that have been secured over the century have enabled the producers of petroleum products to meet the ever increasing demands for their products throughout the world No other manufactured goods are so universally and so cheaply available This book concentrates on the technical changes that have been secured in the second half of this century using as its basis the main petroleum refining process Fluid Catalytic Cracking Both technological and economic aspects are examined over the sixty years of the process's history and in a novel

attempt related the one to the other an accomplishment that reveals more about the technology and the economics rather than either engineering or economic analysis would separately Technology and economics are connected in the real world in this study they are connected in their exposition As in conventional economic history technological improvements are summarized and their sources and consequences determined In addition the long term pattern of costs and profits is displayed and regular measurements are taken throughout so that experience can be seen as the continuous unfolding of industrial progress
